British Short Fiction in the Early Nineteenth Century Dr Tim Killick, 2013-04-28 In spite of the importance of the idea of the tale within Romantic era literature short fiction of the period has received little attention from critics Contextualizing British short fiction within the broader framework of early nineteenth century print culture Tim Killick argues that authors and publishers sought to present short fiction in book length volumes as a way of competing with the novel as a legitimate and prestigious genre Beginning with an overview of the development of short fiction through the late eighteenth century and analysis of the publishing conditions for the genre including its appearance in

magazines and annuals Killick shows how Washington Irving's hugely popular collections set the stage for British writers. Subsequent chapters consider the stories and sketches of writers as diverse as Mary Russell Mitford and James Hogg as well as didactic short fiction by authors such as Hannah More, Maria Edgeworth and Amelia Opie. His book makes a convincing case for the evolution of short fiction into a self-conscious, intentionally modern form with its own techniques and imperatives separate from those of the novel.

[William Trevor \(Routledge Revivals\)](#) Gregory A. Schirmer, 2014-10-10 William Trevor is a master of contemporary fiction. He writes with equal authority about the frustrations of life in remote corners of Ireland and the hollowness of life in prosperous London suburbs. An Anglo-Irishman, Trevor is admired on both sides of the Atlantic and both sides of the Irish Sea. In *William Trevor: A Study of His Fiction*, first published in 1990, Gregory Schirmer analyses Trevor's novels such as *A Standard of Behaviour* and *Fools of Fortune* and short stories in detail. He argues that Trevor's writing is important both in terms of its mastery of fictional techniques and of the profoundly moral vision that informs it. His view of twentieth-century men and women is subtle and complex, generated by the tension between a humanistic faith in compassion and connection and an opposing, more realistic assessment of contemporary society as alienated and disconnected.
