Demons, Freaks and Other Abnormalities Michael Laimo, 2002-07-01 Sleepwalker Michael Laimo, 2016-11-13
Richard Sparke has no trouble sleeping It s what he does after he falls asleep that gets him into trouble There s the nightmares his dead mother coming to visit and then the return of his daughter who was only an infant when she died Among all of this the man in black tries to murder him in his sleep Soon the waking world falls prey to nightmares and the two worlds become very difficult to tell apart for a man who simply wants to live an ordinary life if anyone will let him

Demons, Freaks and Other Abnormalities Michael Laimo, 2010 A western town has dreadful plans for all those who stumble in for a visit A priest battles an ancient evil in effort to preserve a small South American villa Two Florida bound college students stop in for a fill up and get more than just gas for their money that s just some of the stories being told in these horror stories **Redsine Eight** Trent Jamieson, Garry Nurrish, 2002-05-01 Redsine is a quarterly publication of dark

UNDERWORLDS is a tri annual paperback magazine that seeks to create a bridge between crime fiction especially but not necessarily exclusively of the noir school and horror fiction Because of its general air of emotional and psychological darkness as well as its frequent themes of hopelessness betrayal and passions gone wrong the crime fiction of such writers as Jim Thompson Cornell Woolrich and David Goodis shares a lot of resonance with horror fiction some of the above referenced writers have produced what could arguably called horror fiction in the past like Thompson s ending to THE GETAWAY and his novel THE KILLER INSIDE ME UNDERWORLDS a double edged title as it has different yet similar meanings in both crime and horror fiction seeks to allow writers the opportunity to explore the nexus between these two genres and gives readers of both genres a glimpse into the world of the other **Performing Disfiguration** Akhila Vimal C., 2025-08-09 This

book explores the processes of disfiguration in the classical and ritual healing performances of India with a particular focus on the rich and diverse performance traditions of Kerala It examines three modes of disfiguration blood madness and laughter to offer unique insights into how these elements shape the performative body By drawing on Kerala s distinctive cultural and ritual contexts this work provides a deep understanding of the region s embodied practices Written from an interdisciplinary perspective the book blends performance studies with detailed ethnographic descriptions to capture the nuances of pain and affect It challenges and subverts normative notions of performance offering a fresh lens through which to view these dynamic traditions This book serves as an invaluable resource for scholars of dance performance studies and practitioners seeking to explore the interplay between region ritual and disfiguration in Indian performance forms

Kérchy,2013-02-14 This collection offers cultural historical analyses of enfreakment and freak shows examining the social construction and spectacular display of wondrous monstrous or curious Otherness in the formerly relatively neglected region of Continental Europe Forgotten stories are uncovered about freak show celebrities medical specimen and philosophical fantasies presenting the anatomically unusual in a wide range of sites including curiosity cabinets anatomical museums and traveling circus acts The essays explore the locally specific dimensions of the exhibition of extraordinary bodies within their particular historical cultural and political context Thus the impact of the Nazi eugenics programs state Socialism or the Chernobyl catastrophe is observed closely and yet the transnational dimensions of enfreakment are made obvious through topics ranging from Jesuit missionaries diabolization of American Indians to translations of Continental European teratology in British medical journals and the Hollywood silver screen s colonization of European fantasies about deformity Although Continental European freaks are introduced as products of ideologically infiltrated representations they also emerge as embodied subjects endowed with their own voice view and subversive agency *Demons of the Body and Mind* Ruth

Bienstock Anolik,2014-01-10 The Gothic mode typically preoccupied by questions of difference and otherness consistently imagines the Other as a source of grotesque horror The sixteen critical essays in this collection examine the ways in which those suffering from mental and physical ailments are refigured as Other and how they are imagined to be monstrous Together the essays highlight the Gothic inclination to represent all ailments as visibly monstrous even those such as mental illness which were invisible Paradoxically the Other also becomes a pitiful figure often evoking empathy This exploration of illness and disability represents a strong addition to Gothic studies *Demonic Dreams* Haden James,2018-04-17 Aislinn

Cain wakes up on a cold concrete floor having been drugged and kidnapped by serial killer Raphael Henders Despite the chaos she has a few questions is Gabriel still alive If so for how long And where exactly is she As the answers start to reveal themselves Aislinn comes to the realization that Raphael Henders is unlike any serial killer she has ever faced before Not only is he brilliant cunning sadistic and brutal he is part of the organized ring of serial killers that the SCTU has been trying to eliminate More importantly he is just one step removed from the leader of the organization and he has answers that Aislinn needs to put her past behind her To survive and get what she needs Aislinn will have to play Raphael s game Death is not an option pitting Aislinn s own desire to survive against her need to figure out who exactly was behind the murder of Aislinn s father and sister all those years ago White Male Disability in Modernist Literature Martina Simone

century D H Lawrence s Lady Chatterley s Lover 1928 Ernest Hemingway s The Sun Also Rises 1926 and William Faulkner s The Sound and the Fury 1929 By signifying cultural demise and a loss of masculinity white male disability in the literature of the 1920s represents a fear of a foundering patriarchal white supremacist world order However if we take seriously what queer and disability studies have advanced disabled bodies in literature can also help us redefine life and love in the modern era forcing us to imagine possibilities outside of our comfort zones they help us reimagine the elusive myth of independent self sufficient human existence The Writings of Mao Zedong, 1949-1976: January 1956-December 1957 Zedong Mao,1986
