Power and Stability Erik Goldstein, Brian McKercher, 2004-06-01 The pursuit of stability drove British foreign policy even before 1865 These papers assess the implications of such a policy during the following 100 years when Britain slid from being the only global power to a regional European state **The Five Power Defence Arrangements and AMDA** Chin Kin Wah, 1974-07-01 The postwar years in Southeast Asia have witnessed the spawning of a variety of defence agreements and frameworks with perhaps the loosest of them being the Five Power Defence Arrangements involving Britain Australia New Zealand Malaysia and Singapore This paper attempts to unravel the nature of this arrangement and trace its evolution from the Anglo Malaysian Defence Agreement AMDA **The Labour Party and Foreign Policy** John Callaghan, 2007-04-12 This book provides a penetrating new study of the Labour Party's thinking on international relations which probes the past present and future of the party's approach to the international stage The foreign policy of the Labour Party is not only neglected in most histories of the party it is also often considered in isolation from the party's origins evolution and major domestic preoccupations Yet nothing has been more divisive and more controversial in Labour's history than the party's foreign and defence policies and their relationship to its domestic programme Much more has turned on this than the generation of tempestuous conference debates Labour's credentials as a credible prospect for Governmental office were thought to depend on a responsible approach to foreign and defence policy Its exclusion from office was often said to stem from a failure to meet this test as in the 1950s The composition of Labour Cabinets was powerfully influenced by foreign and defence considerations as was the centralization of power and decision making within Labour Governments The domestic achievements and failures of these periods in office were inextricably connected to international questions The Labour Party and Foreign Policy is recommended for undergraduate and postgraduate courses in British politics and European history

Miller, 2012-12-06 This book is intended as a contribution to the study of the relation of political ideas and governmental policies It seeks to examine and evaluate the British Labour Party's early efforts to apply socialist theories to foreign policy actions Since I have focused on these ideas and events I have not attempted to take into account happenings on the British domestic front that though important to the Labour Party and the trade unions did not directly affect foreign policy Nor are matters of imperial or Commonwealth policy considered except as they relate to the development of socialist theories and interpretations or as they influenced Great Britain's relations with other independent states I must express my appreciation for their assistance to Drs Malcolm Moos Thomas 1 Cook and Carl B Swisher under whose direction this project first began at the Johns Hopkins University to Mrs E Rickman of the Labour Party's Library and to Mrs Gladys D Cremer of the Fabian Society for access to

various Labour and socialist materials to the Rutgers University Research Council for grants in support of some of the research and to Mrs Edward Teifeld and Mrs Boris Pritsky for the wearisome efforts of typing various versions of the manuscript The responsibility for errors is of course mine The book is dedicated to my wife Marilyn who aided so greatly in its preparation not least by a tactful and appropriate balance of patience and impatience

British Cabinet Ministers Bruce Headey, 2024-11-01 First published in 1974 British Cabinet Ministers is about the opportunities and constraints of executive political office It is mainly based on interviews with fifty contemporary British Ministers and twenty five senior civil servants Hitherto political observers have referred simply to strong and weak Ministers which begs the question strong or weak at what Here Ministers are classified into five types policy initiators policy selectors Executive and Ambassador Ministers and Minimalists depending on their different approaches to their jobs The problems Ministers face in achieving their objectives are analysed and case studies are presented of the performance in office of different types of Ministers In this context we review the skills and abilities of politicians themselves and the range and quality of advice they can expect to receive in Whitehall In the final section the author considers the consequences for British government of the finding that Ministers are better qualified to perform some of their roles than others and also indicates lines of inquiry that need to be further pursued by students of executive political leadership

Making British Defence Policy Robert Self, 2022-06-16 This book explores the process by which defence policy is made in contemporary Britain and the institutions actors and conflicting interests which interact in its inception and continuous reformulation Rather than dealing with the substance of defence policy this study focuses upon the institutional actors involved in this process This is a subject which has commanded far more interest from public Parliament government and the armed forces since the protracted bloody and ultimately unsuccessful British military involvement in Iraq and

Afghanistan The work begins with a discussion of two contextual factors shaping policy The first relates to the impact of Britain's special relationship with the United States over defence and intelligence matters while the second considers the impact of Britain's relatively disappointing economic performance upon the funding of British defence since 1945 It then goes on to explore the role and impact of all the key policy actors from the Prime Minister Cabinet and core executive to the Ministry of Defence and its relations with the broader Whitehall village and the Foreign Office and Treasury in particular The work concludes by examining the increasing influence of external policy actors and forces such as Parliament the courts political parties pressure groups and public opinion This book will be of much interest to students of British defence policy security studies and contemporary military history

Land Based Air Power or Aircraft Carriers? Gjert Lage Dyndal, 2016-04-22 During the 1960s in the midst of its retreat from empire the British government had to grapple with complex political and military problems in order to find a strategic defence policy that was both credible and affordable Addressing what was perhaps the most contentious issue within those debates this book charts the arguments that raged between supporters of a land based air power strategy and those who favoured aircraft carriers Drawing upon a wealth of previously classified documents the book reveals how the Admiralty and Air Ministry became interlocked in a bitter political struggle over which of their military strategies could best meet Britain's future foreign policy challenges Whilst the broad story of this inter service rivalry is well known the Air Force's proposal for a series of island based airfields and the Navy championing of a small number of expensive but mobile aircraft carriers the complexity and previous lack of archival sources means that it has until now only ever been partially researched and understood Former studies have largely focused on the cancellation of the CVA 01 carrier programme and offered little depth as regards the Royal Air Force perspectives Given that this was a two Service rivalry which greatly influenced many aspects of British foreign and defence policy decisions of the period this book presents an important and balanced overview of the complex issues involved Through this historical study of the British debate about maritime air power and strategic alternatives in the 1960s the detailed arguments used for and against both alternatives demonstrate clear relevance to both historical and contemporary conceptual debates on carrier forces and land based air power Both from military strategy and inter service relationship perspectives contemporary Britain and many other nations with maritime forces may learn much from this historical case

Money and Power in Europe Matthias Kaelberer, 2001-06-07 Tracing the forty year history of negotiations to construct exchange rate regimes in the European Union Money and Power in Europe emphasizes the role of a state's bargaining power for the formation of rules In contrast to the prevailing literature's emphasis on domestic factors like sectoral and partisan interests policy ideas and domestic institutional structures Matthias Kaelberer highlights the structural conflict of interest between weak and strong currency countries over the rules of monetary cooperation Strong currency countries in particular

Germany because they do not face a reserve constraint are in a position to shape the rules of monetary regimes decidedly in their favor including the refusal to compromise on rules of domestic macroeconomic adjustment **Descent From Power**
