**Muhammad's Grave** Leor Halevi, 2011 In this probing study of death rites Leor Halevi plays prescriptive texts against material culture advancing a new way of interpreting the origins of Islam He shows how religious scholars produced codes of funerary law to create new social patterns in the cities of Arabia Mesopotamia and the eastern Mediterranean They distinguished Islamic from Christian Jewish and Zoroastrian rites and they changed the way men and women interacted publicly and privately Each chapter explores a different layer of human interaction following the movement of the corpse from the deathbed to the grave Highlighting economic and political factors as well as key religious and sexual divisions Halevi forges a fascinating link between the development of funerary rites and the efforts of an emerging religion to carve its own distinct identity Muhammad's Grave is a groundbreaking history of the rise of Islam and the roots of contemporary Muslim attitudes toward the body and society      *Neighbor's Home* Mail J.
