Colorado: Mapping the Centennial State through History Stephen Grace, Vincent Virga, 2009-10-14 In a sense the State of Colorado was born not on August 1 1876 when President Ulysses S Grant signed a proclamation admitting it to the Union as the thirty eighth state but on the day this great land was first depicted on a map Over the centuries each such map has become yet another precious link not only in the history of the state but also in the ever evolving Colorado as imagined by its residents and more broadly by the rest of America Colorado Mapping the Centennial State through History provides a fascinating journey into the past of the Centennial State through gloriously detailed maps from the Library of Congress Edited and with a foreword by renowned photo editor and author Vincent Virga it also includes compelling historical essays by Colorado writer Stephen Grace Together these further weave the visually stunning cartographic record into a drama of settlement and change Mapping States through History is the first series to assemble in full color state by state an in depth collection of rare historically significant maps of the cities states counties towns and events that make up each of America s fifty states Produced in collaboration with the Library of Congress it offers an extraordinary glimpse into the history of the United States through the maps and their narrative captions as well as Vincent Virga s foreword and historical essays by local writers Each map thus becomes a virtual time machine that tells us much about the places we live in today
