Visual Rhetoric and the Eloquence of Design Leslie Atzmon, 2011-03-11 The essays in VISUAL RHETORIC AND THE ELOQUENCE OF DESIGN foreground the rhetorical functions of design artifacts Rhetoric normally understood as verbal or visual messages that have a tactical persuasive objective a speech that wants to convince us to vote for someone or an ad that tries to persuade us to buy a particular product becomes in Visual Rhetoric and the Eloquence of Design the persuasive use of a broad set of meta beliefs Designed objects are particularly effective at this second level of persuasion because they offer audiences communicative data that reflect and also orchestrate a potentially broad array of cultural concerns Persuasion entails both the aesthetic form and material composition of any object

The Shaping of Popular Consent Alexander McGregor (Ph. D.), 2007 This book questions the view of the current orthodoxy which argues that the Soviet Union and the United States were binary opposites in the 1930s The Shaping of Popular Consent presents a comparative analysis of one specific facet of the USSR and the US namely the manner in which their ruling elites sought to win popular consent A key dimension in the analysis of any political order this issue recommends itself precisely because the assumption that in this the two were quite dissimilar is the virtual point of departure for the current thinking To sharpen the focus of the comparison the book concentrates on the role of the visual arts and the manner and extent to which those in power employed them to attempt to win popular consent Therefore this book poses two questions Firstly to what extent did the ruling elites in both the USSR and the US believe they needed the people's faith trust in the system Secondly different as the two societies were to what extent might they have employed similar use of visual cultural media in their attempts to win hearts and minds The study explores the interwar years specifically 1929-1941 This was an era of great upheaval in both the USSR and the US and marks the beginning of the age of mass communication The book examines if how and to what extent Soviet and American cultural producers during the years 1929-1941 employed the visual arts cinema in particular but also painting the plastic arts theatre and architecture to promote essentially the establishments rights and wrongs heroes and villains It does so exploring both the domestic and the international scene It illustrates that despite giant differences between the two countries in the way the two establishments sought to win popular consent the binary view is simply inaccurate Perhaps more importantly it demonstrates the need for a plethora of wide ranging comparative studies of the Soviet Union and the United States Indeed through recognizing the importance of comparing and contrasting the USSR and the US and by attempting to do just that we might learn to better understand how in what ways and for what purposes these two countries so central to our understanding of the modern world were organized Thus this work is genuinely comparative interdisciplinary and cultural Indeed the study is part of a vanguard movement It is of significant value to scholars of both the USSR Stalinism and Soviet art and the US the New Deal and Hollywood Finally

building on work by Noam Chomsky Antonio Gramsci and others such as Benedict Anderson's book *Imagined Communities* the book will be of tremendous interests to many both students and interested parties alike who have an interest in how identities are constructed how propaganda is manufactured and just how the ostensibly divergent philosophies of modern governments are represented in popular culture American Preservation ,1978
