Sadness or Depression? Jerome C. Wakefield, Steeves Demazeux, 2015-12-21 The World Health Organization states that depression is the leading cause of disability worldwide and predicts that by 2030 the epidemic of depression raging across the world will be the single biggest contributor to the overall burden of disease of all health conditions Yet this gloomy picture masks a number of paradoxes concerning the diagnosis and cultural interpretation of depression that appear to challenge the claimed prevalence rates on which it is based This book's essays by some of the world's leading researchers and scholars on depression explores these anomalies in detail from multidisciplinary and multicultural perspectives and in doing so reshapes the debate on the nature of depression that is currently under way in the US and abroad At the book's core is the exploration from the multiple perspectives of a key dilemma is the epidemic of depression real or is it just apparent In particular could it be the result of criteria laid down in the official American classification system of mental disorders the DSM interacting with cultural changes to reshape our view of melancholy pathologizing what were formerly normal symptoms of grief or intense sadness The debate over the DSM's conception of depression has an international relevance with the WHO's upcoming revisions to its International Classification of Diseases requiring coordination with the DSM This collection of perspectives has an unprecedented international dimension as scholars from Europe and around the world join US academics to explore a central and controversial element of contemporary psychiatric diagnosis and one that has enormous practical implications for the future of mental health care and

how we view our emotions The book s accessible essays will make it useful to scholars practitioners and students across a wide range of disciplines

Stephanie Y. Evans, Kanika Bell, Nsenga K. Burton, 2017-06-01 This book offers a unique interdisciplinary and thoughtful look at the challenges and potency of Black women's struggle for inner peace and mental stability. It brings together contributors from psychology, sociology, law, and medicine, as well as the humanities, to discuss issues ranging from stress, sexual assault, healing, self-care, and contemplative practice to health policy considerations and parenting. Merging theory and practice with personal narratives and public policy, the book develops a new framework for approaching Black women's wellness in order to provide tangible solutions. The collection reflects feminist praxis and defines womanist peace in terms that reject both superwoman stereotypes and victim caricatures. Also included for health professionals are concrete recommendations for understanding and treating Black women; this book speaks not only to Black women but also educates a broader audience of policymakers and therapists about the complex and multilayered realities that we must navigate and the protests we must mount on our journey to find inner peace and optimal health. Foreword by Linda Goler Blount. For access to an online resource created by the editors, visit Black Women's Mental Health: <http://www.bwmentalhealth.net>

The Mental Health Handbook for Ministry Mark Mayfield, 2025-09-23 Poor mental and emotional health are two of the great crises of our times, and yet most pastors and ministry leaders are not adequately trained or equipped to understand and come alongside the hurting. As a result, our efforts to help those who are wrestling with mental or emotional health struggles are at best inadequate and at worst harmful. Combining the best of clinical research with a biblical worldview, *The Mental Health Handbook for Ministry* is a practical and accessible resource to help pastors, church leaders, and others who are called on to offer counsel identify the symptoms of particular mental and emotional health challenges, express love and support to those who are hurting, recommend healthy coping strategies, discern when to offer help and when to refer someone to a mental health professional. With chapters dedicated to common manifestations of mental and emotional distress, including depression, anxiety, trauma, suicide, self-harm, addiction, personality disorders, grief, and more, this will quickly become the go-to resource for ministry leaders who long to offer help to the hurting.
