The Goodman of Paris (Le Ménagier de Paris) Eileen Power, 2006 A first hand view of life in medieval France as seen through the eyes of an elderly man instructing his young wife The Goodman of Paris *Le Ménagier de Paris* wrote this book for the instruction of his young wife around 1393 He was a wealthy and learned man a member of that enlightened haute bourgeoisie upon which the French monarchy was coming to lean with increasing confidence When he wrote his *Treatise* he was at least sixty but had recently married a young wife some forty years his junior It fell to her to make his declining years comfortable but it was his task to make it easy for her to do so The first part deals with her religious and moral duties as well as giving a unique picture of the medieval view of wifely behaviour it is illustrated by a series of stories drawn from the Goodman's extensive reading and personal experience In the second part he turns from theory to practice and from soul to body compiling the most exhaustive treatise on household management which has come down to us from the middle ages Gardening hiring of servants the purchase and preparation of food are all covered culminating in a detailed and elaborate cookery book Sadly the author died before he could complete the third section on hawking games and riddles This unique glimpse of medieval domestic life presents a worldly dignified and compelling picture in the words of a man of sensibility and substance The distinguished historian EILEEN POWER was Professor of Economic History at the University of Cambridge

Illuminated Paris S. Hollis Clayson, 2019-05-16 The City of Light For many these four words instantly conjure late nineteenth century Paris and the garish colors of Toulouse Lautrec's iconic posters More recently the Eiffel Tower's nightly show of sparkling electric lights has come to exemplify our fantasies of Parisian nightlife Though we reflect longingly on such scenes in *Illuminated Paris* Hollis Clayson shows that there's more to these clichés than meets the eye In this richly illustrated book she traces the dramatic evolution of lighting in Paris and how artists responded to the shifting visual and cultural scenes that resulted from these technologies While older gas lighting produced a haze of orange new electric lighting was hardly an improvement the glare of experimental arc lights themselves

dangerous left figures looking pale and ghoulish As Clayson shows artists representations of these new colors and shapes reveal turn of the century concerns about modernization as electric lighting came to represent the harsh glare of rapidly accelerating social change At the same time in part thanks to American artists visiting the city these works of art also produced our enduring romantic view of Parisian glamour and its Belle poque *Bulletins Et Mémoires de la Société Médicale Des Hôpitaux de Paris* ,1899 *First Nights at the Opera* Thomas Forrest Kelly,2006-05-01 A renowned music scholar narrates the social history of European opera during its golden age in the 18th and 19th centuries by taking readers behind the scenes at the premiere performances of five extraordinary and influential operas 88 illustrations
