Describes events leading up to Hitler s rise to power **Der Fuehrer: Hitler's Rise to Power** Konrad Heiden,1968 *Der Fuehrer* Konrad Heiden,1969 **Der Fuhrer** Konrad Heiden,1969 Germany's War and the Holocaust Omer Bartov,2013-04-15 Omer Bartov a leading scholar of the Wehrmacht and the Holocaust provides a critical analysis of various recent ways to understand the genocidal policies of the Nazi regime and the reconstruction of German and Jewish identities in the wake of World War II Germany s War and the Holocaust both deepens our understanding of a crucial period in history and serves as an invaluable introduction to the vast body of literature in the field of Holocaust studies Drawing on his background as a military historian to probe the nature of German warfare Bartov considers the postwar myth of army resistance to Hitler and investigates the image of Blitzkrieg as a means to glorify war debilitate the enemy and hide the realities of mass destruction The author also addresses several new analyses of the roots and nature of Nazi extermination policies including revisionist views of the concentration camps Finally Bartov examines some paradigmatic interpretations of the Nazi period and its aftermath the changing American European and Israeli discourses on the Holocaust Victor Klemperer s view of Nazi Germany from within and Germany s perception of its own victimhood **National Planning and Strategy, a Working Bibliography for the Educational Systems of Officers in the Army** United States. War Department. Library,1946 **Hitler's Imperfect Victories** Rex Bashford,2023-08-31 A comprehensive analysis of Hitler s role as the supreme military leader of the Third Reich across all the major campaigns There have been many books on Adolf Hitler and specific military campaigns and battles during the time of the Third Reich However there has never been a comprehensive analysis of Hitler s role as the supreme military leader of the Third Reich across all the major campaigns He combined every senior position in government and the armed forces until he was at the same time Supreme Commander of the Armed Forces Chancellor Minister of War and Commander in Chief of the Army He was involved in every aspect of the German war effort including new weapons development How well did he perform these roles He called himself a genius and was described as the greatest German military leader of all time by one of his most senior military leaders was he What does the evidence show This book analyses each of the Third Reich s military campaigns paying special attention to Hitler s role in them The book is based entirely on the evidence of the most senior military personnel who were there at the time from their contemporaneous diaries and subsequent writings The sources used include the diaries and recollections of three Chiefs of the Army General Staff Field Marshals Rommel von Rundstedt von Bock von Kliest von Manstein numerous other senior generals Hitler s military adjutants ministers of his government and evidence from the Trial of the Major War Criminals at Nuremberg Is there a consistent thread in this evidence The first Volume is called Imperfect Victories and deals with the

Polish Scandinavian and French campaigns Hitler at the Obersalzberg J.C. Boone,2008-09-27 Hitler at the Obersalzberg is a comprehensive history of Hitlers activities at the mountain community from 1923-1945 The study begins with legends surrounding the area long before the arrival of Hitler and his cronies Attention is given to the physical setting the development of the Nazi community and the important conferences and meetings which took place there There is considerable discussion concerning everyday life and activities centered at the Berghof Hitlers mountain retreat A glimpse of the competition which developed between Hermann Goering and Martin Bormann became evident Interspersed throughout the narrative are interviews by the author with Paula Hitler Johann Langwieder and Hans Baur which provide interesting perceptions of the Fuehrer Adolf Hitler *The Roots of Nazi Psychology* Jay Y. Gonen,2013-07-24 Was Hitler a moral aberration or a man of his people This topic has been hotly argued in recent years and now Jay Gonen brings new answers to the debate using a psychohistorical perspective contending that Hitler reflected the psyche of many Germans of his time Like any charismatic leader Hitler was an expert scanner of the Zeitgeist He possessed an uncanny ability to read the masses correctly and guide them with new ideas that were merely reflections of what the people already believed Gonen argues that Hitler s notions grew from the general fabric of German culture in the years following World War I Basing his work in the role of ideologies in group psychology Gonen exposes the psychological underpinnings of Nazi Germany s desire to expand its living space and exterminate Jews Hitler responded to the nation s group fantasy of renewing a Holy Roman Empire of the German nation He presented the utopian ideal of one large state where the nation represented one extended family In reality however he desired the triumph of automatism and totalitarian practices that would preempt family autonomy and private action Such a regimented state would become a war machine designed to breed infantile soldiers brainwashed for sacrifice To achieve that aim he unleashed barbaric forces whose utopian features were the very aspects of the state that made it most cruel *Social Conservatism and the Middle Class in Germany, 1914-1933* Herman Lebovics,2015-12-08 Uprooted by the war exposed to the full brunt of economic dislocation and fearful of losing status in face of the growing might of big business and organized labor the middle classes in Weimar Germany longed for a solution to their plight that neither the capitalism nor the socialism of their day could offer This work examines the attempts of a number of scholars and publicists Sombart Salin Spann Niekisch Spengler and Fried to provide such a solution in the form of an ideology of social conservatism Originally published in 1969 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Peace and Hope in Dark Times** ,2023-05-25 The papers collected here apply the insights of the philosophy of peace to contemporary issues and the larger problem of what it

means to have hope and to work for peace in dark times The authors included in this volume respond to contemporary challenges posed by the Trump Era and the COVID 19 crisis This represents a novel application and exploration of concepts and ideas found in the philosophy of peace and nonviolence The authors elucidate the philosophy of peace and general approaches to building peace while applying these ideas to current crises Decades of Crisis Ivan T. Berend,2023-11-15 Only by understanding Central and Eastern Europe s turbulent history during the first half of the twentieth century can we hope to make sense of the conflicts and crises that have followed World War II and after that the collapse of Soviet controlled state socialism Ivan Berend looks closely at the fateful decades preceding World War II and at twelve countries whose absence from the roster of major players was enough in itself he says to precipitate much of the turmoil As waves of modernization swept over Europe the less developed countries on the periphery tried with little or no success to imitate Western capitalism and liberalism Instead they remained as Berend shows rural agrarian societies notable for the tenacious survival of feudal and aristocratic institutions In that context of frustration and disappointment rebellion was inevitable Berend leads the reader skillfully through the maze of social cultural economic and political changes in Hungary Czechoslovakia Yugoslavia Poland Romania Bulgaria Albania Austria Latvia Lithuania Estonia and the Soviet Union showing how every path ended in dictatorship and despotism by the start of World War II Only by understanding Central and Eastern Europe s turbulent history during the first half of the twentieth century can we hope to make sense of the conflicts and crises that have followed World War II and after that the collapse of Soviet controlled st *Anti-Semitism and the Final Solution* Ann Byers,2014-07-16 Fanatical anti-Semitism and the persecution of Jews ended in the Holocaust s horrific legacythe murder of nearly 6 million Jews In ANTI SEMITISM AND THE FINAL SOLUTION THE HOLOCAUST OVERVIEW author Ann Byers analyzes the factors that led to the persecution of Jews as well as the rise and fall of Hitler s Third Reich This book is developed from THE HOLOCAUST OVERVIEW to allow republication of the original text into ebook paperback and trade editions **Unholy Alliance** Peter Levenda,2019-11-15 In June of 1979 Peter Levenda flew to Chile then under martial law to investigate claims that a mysterious colony and torture center in the Andes Mountains held a key to the relationship between Nazi ideology and its post war survival on the one hand and occult ideas and practices on the other He was detained there briefly and released with a warning You are not welcome in this country The people who warned him were not Chileans but Germans not government officials but agents of the assassination network Operation Condor They were also Nazis providing a sanctuary for men like Josef Mengele Hans Ulrich Rudel and Otto Skorzeny In other words ODESSA Published in 1995 Unholy Alliance was the first book in English on the subject of Nazi occultism to be based on the captured Nazi archives themselves as well as on the author s personal investigations and interviews often conducted under dangerous conditions The book attracted the attention of historians and journalists the world over and has been translated into six languages A later edition boasts the famous foreword by Norman Mailer How did occultism come to play such an important role in the

development of Nazi political ideology What influence did such German and Austrian occult leaders as Lanz von Liebenfels and Guido von List have over the fledgling Nazi party What was the Thule Gesellschaft and who was its creator Baron von Sebottendorf Did the Nazi high command really believe in occultism In astrology In magic and reincarnation This is a new and expanded edition of the original text with much additional information on the rise of extremist groups in Europe Latin America Asia and the United States and the esoteric beliefs that are at their foundations It is the first book in a trilogy that includes *Ratline* and *The Hitler Legacy* This is where it all began **Elites Against Democracy** Walter Struve, 2015-03-08 Since the beginning of the current era of imperialism in the late nineteenth century there has been a striking contrast between bourgeois political thought in Germany and the West Walter Struve demonstrates how German political culture went through a phase in which great emphasis was placed on the establishment of a new political elite recruited on the basis of merit and skill but ruling in an authoritarian way and not controlled by the populace He suggests that this type of elitism many aspects of which were vital to the political culture of Nazi Germany seems today to be widespread in the West The development of this concept of an open yet authoritarian elite is approached through the analysis of the political ideas and activities of nine elitists among them Max Weber Walther Rathenau and Oswald Spengler The author relates biography to intellectual political social and economic history so that his work becomes a study in the political and social context of intellectual history Originally published in 1973 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **The Birth of Modernism** Leon Surette, 1993 In *The Birth of Modernism* Leon Surette challenges our traditional understanding of modernism by situating the origins of modernist aesthetics in the occult
