Into The Tunnel Steven G. Kellman, Irving Malin, 1998 During its twenty five years as a work in progress William H Gass's mammoth magnum opus became a legend of the literary world the Sasquatch of contemporary American fiction Along with an included interview with the author the contributors to this study help situate Gass's challenging narrative within the remarkable career of a notable philosopher essayist and author of fiction Contributors examine the book's quarrel with history its engagement with issues of ethics and aesthetics its representation of personality its distinctive style and structure its sophisticated metafictional texture along with much else What is going on in *The Tunnel* is not always immediately apparent but the essays included in here tease out its secrets and concentrate our attention on details of an exasperating and exhilarating literary achievement

Down from the Attic John T. Soister, Henry Nicolella, 2016-06-23 Much has been written and rewritten about classic horror and science fiction films like *Nosferatu* and *Metropolis* as well as not so classic pictures like *Bride of the Monster* and *The Hideous Sun Demon* Yet some genre films have fallen through the cracks The 24 films some elusive some easily found on YouTube examined in this book all suffered critical neglect and were prematurely stacked in the attic The authors bring them back into the light beginning with *Der Tunnel* 1915 about the building of a transatlantic tunnel and ending with *The Emperor's Baker* The Baker's Emperor 1951 a bizarre Marxist take on the Golem legend A variety of thrillers are covered *Fog* 1933 *Return of the Terror* 1934 *Forgotten Faces* 1928 along with such sci fi leaps into the future as *The Sky Ranger* 1921 *High Treason* 1929 and *Just Imagine* 1930 Early adaptations include *The Man Who Laughs* 1921 *The Monkey's Paw* 1923 *Hound of the Baskervilles* 1937 and *Sweeney Todd* 1928 Rare stills and background material are included in a discussion of Hispanic vintage horror The career of exploitation auteur Bud Pollard *The Horror* 1933 is examined

6th International *Geotechnical Engineering for the Preservation of Monuments and Historic Sites* Emilio Bilotta, Alessandro Flora, Stefania Lirer, Carlo Viggiani, 2013-05-10 All the traces of historic heritage are a fundamental part of our environment and reward us in the form of cultural enrichment with the ability to have a positive effect both on our lifestyle and economy Therefore the preservation of ancient monuments historic towns and sites has increasingly drawn the attention of public opinion governmental agencies as well as consultants and contractors This interest must be however carefully controlled and directed since the conservation of monuments and historic sites is one of the most challenging problems of our age Careless attempts at preservation can be detrimental not only to their iconic value formal integrity but even to their structural characteristics and the materials they are built with material integrity Geotechnical Engineering for the Preservation of Monuments and Historic Sites collects one opening address four special lectures and 82 contributions from all over the world giving a unique sample of the geotechnical problems to be tackled the solutions currently being proposed and the strategies being carried out to preserve the overall integrity of monuments and historic sites It is clearly apparent that differences exist around the world not only in terms of the characteristics of the monuments or sites to be preserved but also in the approaches adopted to achieve this aim Hence no unique solution is available to the geotechnical engineer dealing with the delicate structures and sites that represent our cultural heritage and knowledge of previous experiences may be a unique guide in any technical decision making process **Skylab 1 Investigation Report, Hearing Before the Subcommittee on Manned Space Flight... 93-1, August 1, 1973** United States.
