Contesting Citizenship in Latin America Deborah J.

Yashar,2005-03-07 Indigenous people in Latin America have mobilized in unprecedented ways demanding recognition equal protection and subnational autonomy These are remarkable developments in a region where ethnic cleavages were once universally described as weak Recently however indigenous activists and elected officials have increasingly shaped national political deliberations Deborah Yashar explains the contemporary and uneven emergence of Latin American indigenous movements addressing both why indigenous identities have become politically salient in the contemporary period and why they have translated into significant political organizations in some places and not others She argues that ethnic politics can best be explained through a comparative historical approach that analyzes three factors changing citizenship regimes social networks and political associational space Her argument provides insight into the fragility and unevenness of Latin America s third wave democracies and has broader implications for the ways in which we theorize the relationship between citizenship states identity and social action *The New Pocket Dictionary, of the Spanish and English Languages. Reckoning with Harm Amelia M. Fiske,2023-10-17 The book aims to clarify what it means to be harmed by the petroleum extraction industry and how residents of Amazonia have in fact been harmed The author critiques legalistic technocratic definitions of harm which are routinely used to deny accountability for widespread industry driven damage and examines the contingencies involved in building an evidentiary base that takes into consideration not only legal documents scientific studies and soil samples but also the feel of crude between the fingers family stories of miscarriages and polluted streams toxic tours arranged for tourists and political campaigns to call for corporate accountability *Neuman and*

State and Society in Conflict Paul W. Drake,Eric Herschberg,2006-06-25 State and Society in Conflict analyzes one of the most volatile regions in Latin America the Andean states of Colombia Venezuela Ecuador Peru and Bolivia For the last twenty five years crises in these five Andean countries have endangered Latin America s democracies and strained their relations with the United States As these nations struggle to cope with demands from Washington on security policies

emphasizing drugs and terrorism neoliberal economics and democratic politics their resulting domestic travails can be seen in poor economic growth unequal wealth distribution mounting social unrest and escalating political instability The contributors to this volume examine the histories politics and cultures of the Andean nations and argue that due to their shared history and modern circumstances these countries are suffering a shared crisis of deteriorating relations between state and society that is best understood in regional not purely national terms The results in some cases have been semi authoritarian hybrid regimes that lurch from crisis to crisis often controlled through force though clinging to a notion of democracy The solution to these problems whether through democratic authoritarian peaceful or violent means will have profound implications for the region and its future relations with the world

Ideología Construída Fernando Grasa,2022-06-01 Within the Mediterranean construction tradition sacred architecture has always played a very prominent role giving rise to the most numerous and best preserved historical buildings prior to the 18th century that have survived Throughout 5 000 years the visual plot has been shown as the systematic alphabet that Mediterranean cultures have used to write multiple architectural accounts of a sacred and ceremonial nature We will begin this memory a true travel notebook by presenting what the Christian temples of

discipline have taught us Then we travel to Egypt Rome and finally to Malta and Gozo The systematicity and similarities in the crystallization of the ideological discourse were incredible and we invite the reader to verify those teachings To facilitate this the text includes more than 360 sketches and 300 images of more than 200 buildings belonging to 17 countries Regla de Osha Afrocubana en Venezuela Francisco A.-Garrett,2020-03-20 Regla de Osha Afrocubana es una Religión Monoteísta con un solo Dios representado en la trilogía Olodun Olodum Olorun Pero también es un Culto animista porque afirma que todo ser natural está vivificado por un espíritu Los Orishas son profetas intermediarios entre Dios y los hombres que transmiten sus profecías por medio del Oráculo Merindilogún caracoles *Import Duties of Peru* Peru,1892 **Bulletins of the Bureau of the American Republics** International Bureau of the American Republics,1893 **God in the Rainforest** Kathryn T. Long,2019-01-10 In January of 1956 five young evangelical missionaries were speared to death by a band of the Waorani people in the Ecuadorian Amazon Two years later two missionary women the widow of one of the slain men and the sister of another with the help of a Wao woman were able to establish peaceful relations with the same people who had killed their loved ones The highly publicized deaths of the five men and the subsequent efforts to Christianize the Waorani quickly became the defining missionary narrative for American evangelicals during the second half of the twentieth century God in the Rainforest traces the formation of this story and shows how Protestant missionary work among the Waorani came to be one of the missions most celebrated by Evangelicals and most severely criticized by anthropologists and others who accused missionaries of destroying the indigenous culture Kathryn T Long offers a study of the complexities of world Christianity at the ground level for indigenous peoples and for missionaries anthropologists environmentalists and other outsiders For the first time Long brings together these competing actors and agendas to reveal one example of an indigenous people caught in the cross hairs of globalization **Anfiteatro anatómico español y el Pabellón médico** ,1876 Senate Documents USA.
