reading raised by these novels to Samuel Beckett's *Comment c'est* *How It Is* and Jean Rhys's short stories. Since the late twentieth century, new understandings of modernism have come with new attention to a range of writers. Yet if the academic study of modernism took shape around an older, narrower selection of writers and works, how can its modes of reading be relevant to newly recovered modernist writing? This book considers how close reading may change as the subjects of literary study change. Elizabeth Pender asks what reading meant for critics of modernist literature around 1930 and around 1960 and then what close reading might look like now for three new modernist novels: Djuna Barnes's *Nightwood*, John Rodker's *Adolphe* (1920), and Mina Loy's *Insel*. They tend to resist some of the strategies of reading that helped construct a narrowed modernist canon at mid-century, such as the pursuit of coherence. These novels offer new thinking about the temporality of reading style and the ethics of narration. Reading these novels now suggests that other new modernist fiction too may require revisions to vocabularies with which modernist literature has sometimes been read.

On Tropical Grounds Francisco-J. Hernandez Adrian, 2024-10-11 *On Tropical Grounds* develops a new approach to the avant-garde and Surrealism in Caribbean and Atlantic studies. The book examines how islands and their tropical associations figure in the cultural and political imaginaries of the Caribbean and the Atlantic and identifies genealogies of local responses to continental fantasies of exotic insularity. Examining written and visual works that reflect on the Hispanic and Francophone Caribbean and the Canary Islands, as well as critical debates around discourses of insularity in island and metropolitan spaces, this book considers notions of ethnic purity, originality, imitation, appropriation, cosmopolitanism, and self-exoticism to challenge the idea that avant-garde practices were pre-eminently urban and metropolitan cultural forms. The book argues that attention to the relational dimension implicit in exchanges around ideas of anticolonial struggle, radical social transformation, and anti-fascist resistance should inform analyses of cultural production in Caribbean and Atlantic insular spaces. *On Tropical Grounds* develops a persuasive critical model for the investigation of politically and aesthetically situated archipelagic relations that transgresses disciplinary boundaries and reconfigures our conception of the avant-garde as a global movement that was overdetermined by racial, gender, and colonial conflicts. This book will be of value to anyone interested in Caribbean and Atlantic studies, avant-garde and visual culture studies, and literary and cultural studies.

Merveilleux et surréalisme Claude Letellier, 2000 **Historical Dictionary of Surrealism** Keith Aspley, 2010-10-16 Surrealism was a broad movement which attracted many adherents. It was organized and quite strictly disciplined at least until the death of its leader, André Breton, in 1966. As a consequence, its membership was in a constant state of flux; persons were constantly being admitted and excluded, and often the latter continued to regard themselves as Surrealists. The wide-ranging nature of the Surrealist movement was spread over many countries and many different art forms, including painting, sculpture, cinema, photography, music, theater, and literature, most notably poetry. *The Historical Dictionary of Surrealism* relates the history of this movement through a chronology, an introductory essay, a bibliography, and over 600 cross-referenced dictionary entries on persons.
