Derrida And Autobiography:

Derrida and Autobiography Robert Smith, 1995-06 The work of Jacques Derrida can be seen to reinvent most theories In this book Robert Smith offers both a reading of the philosophy of Derrida and an investigation of current theories of autobiography Smith argues that for Derrida autobiography is not so much subjective self revelation as relation to the other not so much a general condition of thought as a general condition of writing what Derrida calls the autobiography of the writing which mocks any self centred finitude of living and dying In this context and using literary critical philosophical and psychoanalytical sources Smith thinks through Derrida's texts in a new but distinctly Derridean way and finds new perspectives to analyse the work of classical writers including Hegel Nietzsche Kierkegaard Freud and de Man

Autobiographics in Freud and Derrida Jane Marie Todd, 2015-08-14 Originally published in 1990 This uniquely fascinating study approaches the problem of autobiography from two directions first assessing theories of the self consciousness and language developed by both Freud and Derrida second through the reading of the autobiographical aspects of their writings The book begins with looking at the issue of making sense of a life by means of representation through autobiography within the field of psychological phenomena screen memories mourning obsession hysteria transference Part 1 focuses on Freud's case histories and psychoanalysis being used to make a narrative of behaviour in language Part two considers Freud's own Interpretation of Dreams and its autobiographical nature Part 3 examines intellectual movements such as phenomenology speed act theory and structuralism while Parts 4 and 5 turn to Derrida's use of autobiography as self criticism and his debt to Freud

Derrida Benoît Peeters, 2013-08-27 This biography of Jacques Derrida 1930 2004 tells the story of a Jewish boy from Algiers excluded from school at the age of twelve who went on to become the most widely translated French philosopher in the world a vulnerable tormented man who throughout his life continued to see himself as unwelcome in the French university system We are plunged into the different worlds in which Derrida lived and worked pre independence Algeria the microcosm of the cole Normale Supérieure the cluster of structuralist thinkers and the turbulent events of 1968 and after We meet the remarkable series of leading writers and philosophers with whom Derrida struck up a friendship Louis Althusser Emmanuel Levinas Jean Genet and Hélène Cixous among others We also witness an equally long series of often brutal polemics fought over crucial issues with thinkers such as Michel Foucault Jacques Lacan John R Searle and Jürgen Habermas as well as several controversies that went far beyond academia the best known of which concerned Heidegger and Paul de Man We follow a series of courageous political commitments in support of Nelson Mandela illegal immigrants and gay marriage And we watch as a concept deconstruction takes wing and exerts an extraordinary influence way beyond the philosophical world on literary studies architecture law theology feminism queer theory and postcolonial studies In writing this compelling and authoritative biography Benoît Peeters talked to over a hundred individuals who knew and worked with Derrida He is also the first person to make use of the huge personal archive built up by Derrida throughout his life and of his

extensive correspondence Peeters book gives us a new and deeper understanding of the man who will perhaps be seen as the major philosopher of the second half of the twentieth century **Jean-Jacques Rousseau: Politics, art, and**

Oreille de L'autre Jacques Derrida, Christie V. Mac Donald, 1988-01-01 Originally published in French in 1982 this collection is a good representation of the range of Derrida's working styles South Atlantic Review **The Ear of the Other** Jacques Derrida, Claude Levesque, 1992 **An Event, Perhaps** Peter Salmon, 2020-10-13 Philosopher film star father of post truth the real story of Jacques Derrida Who is Jacques Derrida For some he is the originator of a relativist philosophy responsible for the contemporary crisis of truth For the far right he is one of the architects of Cultural Marxism To his academic critics he reduced French philosophy to little more than an object of ridicule For his fans he is an intellectual rock star who ranged across literature politics and linguistics In *An Event Perhaps* Peter Salmon presents this misunderstood and misappropriated figure as a deeply humane and urgent thinker for our times Born in Algiers the young Jackie was always an outsider Despite his best efforts he found it difficult to establish himself among the Paris intellectual milieu of the 1960s However in 1967 he changed the whole course of philosophy outlining the central concepts of deconstruction Immediately his reputation as a complex and confounding thinker was established Feted by some abhorred by others Derrida had an exhaustive breadth of interests but as Salmon shows was moved by a profound desire to understand how we engage with each other It is a theme explored through Derrida's intimate relationships with writers such as Althusser Genet Lacan Foucault Cixous and Kristeva Accessible provocative and beautifully written *An Event Perhaps* will introduce a new readership to the life and work of a philosopher whose influence over the way we think will continue long into the twenty first century *Postcolonialism & Autobiography* Michelle Cliff, Alfred Hornung, 1998 The two volumes on Postcolonialism and Autobiography examine the affinity of postcolonial writing to the genre of autobiography The contributions of specialists from Northern Africa Europe and the United States focus on two areas in which the interrelation of postcolonialism and autobiography is very prominent and fertile the Maghreb and the Anglophone and Francophone Caribbean The colonial background of these regions provides the stimulus for writers to launch a program for emancipation in an effort to constitute a decolonized subject in autobiographical practice While the French volume addresses issues of the autobiographical genre in the postcolonial conditions of the Maghreb and the Caribbean with reference to France the English volume analyzes the autobiographical writings of David Dabydeen Guyana Michelle Cliff Opal Palmer Adisa George Lamming Wilson Harris Jamaica and Jamaica Kincaid Antigua who have maintained their cultural Caribbean origin while living in England or the United States Critics such as William Boelhower Leigh Gilmore Sidonie Smith and Gayatri Spivak reveal the many layers of different cultures Indian African European American that are covered over by the colonial powers The homeland exile the

experience of migration and hybridity condition the postcolonial existence of writers and critics The incorporation of excerpts from the writers works is meant to show the great variety and riches of a hybrid imagination and to engage in an interactive dialogue with critics (Dis)location Jacques Derrida,D. Pal S. Ahluwalia,Arvind-pal Singh Mandair,2007 **Postcolonial Theory and Autobiography** David Huddart,2008-04-18 Cultural theory has often been criticized for covert Eurocentric and universalist tendencies Its concepts and ideas are implicitly applicable to everyone ironing over any individuality or cultural difference Postcolonial theory has challenged these limitations of cultural theory and Postcolonial Theory and Autobiography addresses the central challenge posed by its autobiographical turn Despite the fact that autobiography is frequently dismissed for its Western masculine bias David Huddart argues for its continued relevance as a central explanatory category in understanding postcolonial theory and its relation to subjectivity Focusing on the influence of post structuralist theory on postcolonial theory and vice versa this study suggests that autobiography constitutes a general philosophical resistance to universal concepts and theories Offering a fresh perspective on familiar critical figures like Edward W Said and Gayatri Chakravorty Spivak by putting them in the context of readings of the work of Jacques Derrida Gilles Deleuze and Alain Badiou this book relates the theory of autobiography to expressions of new universalisms that together with postcolonial theory rethink and extend norms of experience investigation and knowledge **Derrida and Feminism** Ellen Feder,Mary C. Rawlinson,Emily Zakin,2015-12-22 The first ever compilation of articles that highlights the intersection of Derridean and feminist theories a work that represents the extensive and diverse response feminist theorists have had to Derrida particularly to the issues of gender identity and the construction of the subject **Jacques Derrida** Jason Powell,2006-05-24 At the time of his death in 2004 Jacques Derrida was arguably the most influential and the most controversial thinker in contemporary philosophy Deconstruction the movement that he founded has received as much criticism as admiration and provoked one of the most contentious philosophical debates of the twentieth century Jacques Derrida A Biography offers for the first time a complete biographical overview of this important philosopher drawing on Derrida s own accounts of his life as well as the narratives of friends and colleagues Powell explores Derrida s early life in Algeria his higher education in Paris and his development as a thinker Jacques Derrida A Biography provides an essential and engaging account of this major philosopher s remarkable life and work **The Animal that Therefore I Am** Jacques Derrida,2008 The Animal That Therefore I Am is the long awaited translation of the complete text of Jacques Derrida s ten hour address to the 1997 C risy conference entitled The Autobiographical Animal the third of four such colloquia on his work The book was assembled posthumously on the basis of two published sections one written and recorded session and one informal recorded session The book is at once an affectionate look back over the multiple roles played by animals in Derrida s work and a profound philosophical investigation and critique of the relegation of animal life that takes place as a result of the distinction dating from Descartes between man as thinking animal and every other living species That starts with the very

fact of the line of separation drawn between the human and the millions of other species that are reduced to a single the animal Derrida finds that distinction or versions of it surfacing in thinkers as far apart as Descartes Kant Heidegger Lacan and Levinas and he dedicates extended analyses to the question in the work of each of them The book's autobiographical theme intersects with its philosophical analysis through the figures of looking and nakedness staged in terms of Derrida's experience when his cat follows him into the bathroom in the morning In a classic deconstructive reversal Derrida asks what this animal sees and thinks when it sees this naked man Yet the experiences of nakedness and shame also lead all the way back into the mythologies of man's dominion over the beasts and trace a history of how man has systematically displaced onto the animal his own failings or b tises The Animal That Therefore I Am is at times a militant plea and indictment regarding especially the modern industrialized treatment of animals However Derrida cannot subscribe to a simplistic version of animal rights that fails to follow through in all its implications the questions and definitions of life to which he returned in much of his later work *Autobiographical Poetry in England and Spain, 1950-1980* Menotti Lerro, 2017-03-07

The volume traces the founding critical theories of the autobiographical genre from the Enlightenment period to the most recent developments which since the Sixties and the essays of Roy Pascal and Jean Starobinski have had a greater and greater influence It offers in contrast to the essential and by now classic definition of Philippe Lejeune an increased effectiveness of the poem to express the narrative purposes of autobiography recognizing poetic writing that has the extraordinary ability to say what the mortal language does not say to quote Leopardi The works of Seamus Heaney Thom Gunn Carlos Barral and Jaime Gil de Biedma are analyzed here and show an unveiling of the self through memories places and objects that often characterize them and that allow to whomever recalls one's own experience through writing the recovery and restoration of essential meanings to the reconstruction not only of subjective identity but also of one's own community **Jacques Derrida** Jason Powell, 2006-06-23 At the time of his death in 2004 Jacques Derrida was arguably the most influential and the most controversial thinker in contemporary philosophy Deconstruction the movement that he founded has received as much criticism as admiration and provoked one of the most contentious philosophical debates of the twentieth century Jacques Derrida A Biography offers for the first time a complete biographical overview of this important philosopher drawing on Derrida's own accounts of his life as well as the narratives of friends and colleagues Powell explores Derrida's early life in Algeria his higher education in Paris and his development as a thinker Jacques Derrida A Biography provides an essential and engaging account of this major philosopher's remarkable life and work [\(Dis\) Locations](#) Pal Ahluwalia, Arvind Mandair, 2007 **Handbook of Autobiography / Autofiction** Martina Wagner-Egelhaaf, 2019-01-29 Autobiographical writings have been a major cultural genre from antiquity to the present time General questions of the literary as e g the relation between literature and reality truth and fiction the dependency of author narrator and figure or issues of individual and cultural styles etc can be studied preeminently in the autobiographical genre Yet the tradition of life

writing has in the course of literary history developed manifold types and forms Especially in the globalized age where the media and other technological cultural factors contribute to a rapid transformation of lifestyles autobiographical writing has maintained even enhanced its popularity and importance By conceiving autobiography in a wide sense that includes memoirs diaries self portraits and autofiction as well as media transformations of the genre this three volume handbook offers a comprehensive survey of theoretical approaches systematic aspects and historical developments in an international and interdisciplinary perspective While autobiography is usually considered to be a European tradition special emphasis is placed on the modes of self representation in non Western cultures and on inter and transcultural perspectives of the genre The individual contributions are closely interconnected by a system of cross references The handbook addresses scholars of cultural and literary studies students as well as non academic readers

The Domestication of Derrida Lorenzo Fabbri, 2008-08-08 An important new book analyzing the way in which Richard Rorty has tried to reconcile the thought of Jacques Derrida with the American pragmatist and liberal tradition
