point to the qualities of today's so called celebrity CEOs: charisma, virtuoso communication skills and a confident management style. But what really matters when you run an organization? What is the hallmark of exceptional CEO performance? Quite simply, it is the returns for the shareholders of that company over the long term. In this refreshing, counterintuitive book, author Will Thorndike brings to bear the analytical wisdom of a successful career in investing, closely evaluating the performance of companies and their leaders. You will meet eight individualistic CEOs whose firms' average returns outperformed the S&P 500. An exceptional talent for allocating capital and human resources and the belief that cash flow, not reported earnings, determines a company's long-term value. Drawing on years of research and experience, Thorndike tells eye-opening stories, extracting lessons and revealing a compelling alternative model for anyone interested in leading a company or investing in one and reaping extraordinary returns.
