Depictions and Images of War in Edwardian Newspapers, 1899-1914 Glenn R. Wilkinson, 2003 Through a detailed examination of newspaper coverage from 1899 1914 this book seeks to understand the vicarious experience of warfare held by Edwardians at the outset of World War I The attitudes towards and perceptions of war held by those who participated in it or encouraged others to do so are crucial to the understanding of the origins of World War I *Depictions and Images of War in Edwardian Newspapers, 1899-1914* G. Wilkinson, 2002-12-13 Through a detailed examination of newspaper coverage from 1899 1914 this book seeks to understand the vicarious experience of warfare held by Edwardians at the outset of the First World War The attitudes towards and perceptions of war held by those who participated in it or encouraged others to do so are crucial to our understanding of the origins of the First World War Taking into account media history cultural studies and military history Wilkinson argues that the press depicted war as distant and safe beneficial and desirable and even as some kind of sport or game We are cautioned to avoid the same misconceptions of war in our own contemporary discussions of armed conflict **A Century of Postgraduate Anglo Boer War (1888-1902) Studies** André

Wessels, 2010-01-01 This study provides students historians other academics and scholars as well as other researchers and anyone interested in the history of the Anglo Boer War with as comprehensive a list as possible of all postgraduate studies completed on any conceivable aspect of the war as well as any other postgraduate studies which refer to some extent to the conflict **"The Blessings of War"** Glenn Ralph Wilkinson, 1999 **Science, Fiction, and the Fin-de-Siècle Periodical Press** Will Tattersdill, 2016-03-29 Explores the first appearance of science fiction in the pages of late nineteenth century general interest periodicals *Late-Victorian Heroic Lives in the Writings of Frank Mundell* Moniez Baptiste, 2017-08-21 This study explores the work of Frank Mundell a late Victorian author for the Sunday School Union Mundell focused on heroism and represented various kinds of heroic deeds and figures regardless of gender in his books Writing for educative as well as entertaining purposes he avoided the use of didacticism and he endeavoured to combine the traditional and the modern in the stories he chose to tell Mundell s favourite format was that of the prosopography putting together several heroic lives or incidents He was careful to dedicate each of his volumes to one topic in particular thus distinguishing the different types of heroic deeds from one another His writings belong to four series or collections each highlighting a specific version of heroism from instances of the mundane performed in a familial context to extraordinary deeds He wrote about such bold acts as those featuring in the stories of brave firemen fighting devouring flames fearless sailors in tempestuous seas determined miners risking their lives to save their comrades or intrepid explorers facing perils in the wide world This book analyses each of his publications highlighting the elements belonging to his representation of heroism as a whole

Bellamy, 2019 This book investigates world peace what it is whether it might be achieved and how The News of the World and the British Press, 1843-2011 Laurel Brake, Chandrika Kaul, Mark W. Turner, 2016-03-16 This volume is the first scholarly treatment of the News of the World from news rich broadsheet to sensational tabloid Contributors uncover new facts and discuss a range of topics including Sunday journalism gender crime empire political cartoons the mass market investigative techniques and the Leveson Inquiry Baroness Orczy's The Scarlet Pimpernel Sally Dugan, 2016-04-15 Since its publication in 1905 The Scarlet Pimpernel has experienced global success not only as a novel but in theatrical and film adaptations Sally Dugan charts the history of Baroness Orczy's elusive hero from the novel's origins through its continuing afterlife including postmodern appropriations of the myth Drawing on archival research in Britain the United States and Australia her study shows for the first time how Orczy's nationalistic superhero was originally conceived as an anarchist Pole plotting against Tsarist Russia rather than a counter revolutionary Englishman Dugan explores the unique blend of anarchy myth and magic that emerged from the story's astonishing and complex beginnings and analyses the enduring elements of the legend To his creator the Pimpernel was not simply a swashbuckling hero but an English gentleman spreading English values among benighted savages Dugan investigates the mystery of why this imperialist crusader has not only survived the decline of the meta narratives surrounding his birth but also continues to enthrall a multinational audience Offering readers insights into the Pimpernel's appearances in print in film and on the stage Dugan provides a nuanced picture of the trope of the Scarlet Pimpernel and an explanation of the phenomenon's durability **Selling Science in the Age of Newton** Jeffrey R. Wigelsworth, 2016-04-01 Selling Science in the Age of Newton explores an often ignored avenue in the popularization of science It is an investigation of how advertisements in London newspapers from approximately 1687 to 1727 enticed consumers to purchase products relating to science books lecture series and instruments London's readers were among the first in Europe to be exposed to regular newspapers and the advertisements contained in them This occurred just as science began to captivate the nation's imagination due in part to Isaac Newton's rising popularity following the publication of his Principia 1687 This unique moment allows us to see how advertising helped shape the initial public reception of science This book fills a substantial gap in our understanding of science and the culture in which it developed by examining the medium of advertising and its function in the discourse of both early modern science and commerce It answers questions such as what

happens to science once it is a commodity how are consumers tempted to purchase science amidst a sea of other commodities how is the reading public encouraged to give social acceptance to facts of nature and how did marketing campaigns craft newspapers readers into a source of validation for the items of science advertised In an age where the production of scientific knowledge increasingly relied upon sales to many rather than the endorsement of a single wealthy patron marketing was the key to success

Managing the South African War, 1899-1902 Keith Terrance Surridge, 1998 Of all the wars fought by Britain between 1815 and 1914 the South African War was the most extensive and costly This book offers a survey of the disputes which arose between the British government and the era's most famous soldiers

From Ally to Enemy Philip Towle, 2021-11-01 This study closely researched by Philip Towle over the past thirty years is principally concerned with the military relations between Britain and Japan during the first half of the twentieth century and the ambivalence misunderstandings and misconceptions that informed their relationship described by the author as an epic tragedy Following the signing of the Anglo Japanese Alliance in 1902 Japan was held up as a model in Britain and Britain in Japan But within a generation the British came to see Japan as the first country to challenge the League of Nations and to begin a new age of imperialism Conversely the Japanese armed forces saw Britain as the greatest obstacle to Japanese ambitions in China and elsewhere In 1936 Lieutenant Commander Tota Ishimaru's book *Japan Must Fight Britain* was printed in Britain its significance ignored at many levels and five years later the two countries were at war The feelings stirred up by that conflict notes Towle still have resonance today *From Ally to Enemy* brings together a most important body of research that is long overdue in book form and will be widely welcomed by historians and researchers of the period as well as those seeking more detailed analysis of specific aspects of the pre war Anglo Japanese military relationship

The Handbook of European Communication History Klaus Arnold, Paschal Preston, Susanne Kinnebrock, 2019-10-15 A groundbreaking handbook that takes a cross national approach to the media history of Europe of the past 100 years The Handbook of European Communication History is a definitive and authoritative handbook that fills a gap in the literature to provide a coherent and chronological history of mass media public communication and journalism in Europe from 1900 to the late 20th century With contributions from teams of scholars and members of the European Communication Research and Education Association the Handbook explores media

innovations major changes and developments in the media systems that affected public communication as well as societies and culture The contributors also examine the general trends of communication history and review debates related to media development To ensure a transnational approach to the topic the majority of chapters are written not by a single author but by international teams formed around one or more lead authors The Handbook goes beyond national perspectives and provides a basis for more cross national treatments of historical developments in the field of mediated communication Indeed this important Handbook Offers fresh insights on the development of media alongside key differences between countries regions or media systems over the past century Takes a fresh cross national approach to European media history Contains contributions from leading international scholars in this rapidly evolving area of study Explores the major innovations key developments differing trends and the important debates concerning the media in the European setting Written for students and academics of communication and media studies as well as media professionals The Handbook of European Communication History covers European media from 1900 with the emergence of the popular press to the professionalization of journalists and the first wave of multimedia with the advent of film and radio broadcasting through the rapid growth of the Internet and digital media since the late 20th century *The Journal of Military History*, 2005-04 *The Blessings of War'* Glenn Ralph Wilkinson, Lancaster Univ. (GB), 1994 *Doctrine and Reform in the British Cavalry 1880-1918* Stephen Badsey, 2016-12-05 A prevalent view among historians is that both horsed cavalry and the cavalry charge became obviously obsolete in the second half of the nineteenth century in the face of increased infantry and artillery firepower and that officers of the cavalry clung to both for reasons of prestige and stupidity It is this view commonly held but rarely supported by sustained research that this book challenges It shows that the achievements of British and Empire cavalry in the First World War although controversial are sufficient to contradict the argument that belief in the cavalry was evidence of military incompetence It offers a case study of how in reality a practical military doctrine for the cavalry was developed and modified over several decades influenced by wider defence plans and spending by the experience of combat by Army politics and by the rivalries of senior officers Debate as to how the cavalry was to adjust its tactics in the face of increased infantry and artillery firepower began in the mid nineteenth century when the increasing size of armies meant a greater need for mobile troops The cavalry problem was how to deal with a gap in the evolution of warfare between the mass armies of the later nineteenth century and the motorised firepower of the mid twentieth century an issue that is closely connected with the origins of the deadlock on the Western Front Tracing this debate this book shows how despite serious attempts to learn from history both European style wars and colonial wars produced ambiguous or disputed evidence as to the future of cavalry and doctrine was largely a matter of what appeared practical at the time *Visions of the Press in Britain, 1850-1950* Mark Hampton, 2004 Hampton surveys a diversity of sources to demonstrate that British theories of the press were intimately tied to definitions of the public and the emergence of mass democracy in the late nineteenth and early twentieth centuries
