Verdächtig ist Steffens' Ex-Verlobte Leonie, die kurz vor der Hochzeit ungebeten auf der Insel erschien und kryptisch tödliches Unheil ankündigte. Walther Kabel was a prominent figure in German literature whose career spanned significant political and social upheavals in Europe. His experiences as a translator and editor, coupled with his deep engagement with contemporary philosophical discussions, profoundly shaped his literary voice. This book is an investigation of the cultural phenomenon of branding and its transformational effects on the contemporary spatial and urban reality. It develops a novel understanding of the rationale behind the construction of large-scale architectural complexes that relate to corporate brands and of its tremendous cultural effects. The author suggests that what we see today is the creation of global mass ornaments of a thorough ornamentalization of the entire globe. The origins of this are discussed with regard to examples of corporate brand

building from Europe and China Autostadt Wolfsburg BMW Welt Munich and Anting New Town Additional cases are several simulated spaces in Berlin and the space branding activities of companies like Apple or Prada Theoretically the author develops an innovative poststructuralist framework combining ideas from Gilles Deleuze with the space philosophy of Peter Sloterdijk He analyzes how the corporate redefinition of space makes the city enter into a mode of virtual urbanity This idea leads to a notion of a global urban and ultimately the global mass ornament This concept of a global mass ornament is developed here with reference to Sloterdijk s concept of a world of spheres The latter is used to understand the new mode of spatiality of mediatized spaces The book makes the point that our world is involved in a process of mass ornamentalization that has only just begun The concept of the global mass ornament is the first to come to grips with a culture in which branding is effectively changing the physiognomy of the earth The global mass ornament is a banner for a cultural transformation that employs architecture sign theory and mechanisms borrowed from traditional advertising and from social media as well as social processes and that we have yet to properly understand This book is a significant step forward in this respect
