Der Islam Als Alternative:

Islam, the Alternative Murad Wilfried Hofmann, 1993 This work firmly rooted in classical Islam is written by a Muslim schooled in law and philosophy with an intimate knowledge of the Arab world That he is also a German diplomat in Morocco and a convert to Islam gives his work unique importance amongst those Europeans who seek to understand Islam on a personal level In an attempt to build bridges he tackles all those difficult issues which have helped to form both the old and the new images of Islam amongst Europeans An important and provocative book it will further our understanding of the true dimensions of a religion so near to us yet of which we have so little genuine knowledge a religion which shapes the lives of a billion people including increasing numbers of Europeans It is a book which will also further our understanding of the conflicts between our different religious cultures and perhaps through greater awareness find the means to resolve them

Sacred Assemblies and Civic Engagement Paul D Numrich, Fred Kniss, 2007-07-11 Immigration to the United States has been a major source of population growth and cultural change throughout much of America's history. Currently about 40 percent of the nation's annual population growth comes from the influx of foreign born individuals and their children. As these new voices enter America's public conversations they bring with them a new understanding of Buddhism, Hinduism, Islam, Judaism and Christianity to a society that has been marked by religious variety. *Sacred Assemblies and Civic Engagement* takes an in depth look at one particular urban area, the Chicago metropolitan region and examines how religion affects the civic engagement of the nation's newest residents. Chapters focus on important religious factors including sectarianism, moral authority and moral projects on several areas of social life including economics, education, marriage and language where religion impacts civic engagement and on how notions of citizenship and community are influenced by sacred assemblies.

A Geo-Legal Approach to the English Sharia Courts Anna Marotta, 2021-12-20 *A Geo Legal Approach to the English Sharia Courts: Cases and Conflicts* adopts a new methodological perspective that combines Comparative Law with Geopolitics to understand the phenomenon of the English sharia courts. This term is used as a geopolitical representation of specific Islamic ADR institutions. The geo legal analysis illustrates the competition of the legal systems involved and brings you in the middle of the related conflict where official and unofficial legal rules are used by various actors to defend their ideas of Law and implement their strategies. Accordingly the geo legal operational analysis helps assess the possible changes occurring in the relationship between the legal systems and their substratum of values. Funding for the research associated with this book was provided by the University of Campania Luigi Vanvitelli Dept of Political Science and by the Italian Ministry of University and Research through the National Project PRIN 2017 n. 20174EH2MR on International Migrations, State Sovereignty, Human Rights, open legal issues directed by Prof Angela Di Stasi and Prof Ida Caracciolo.

Law and Religion in the 21st Century Rinaldo Cristofori, Silvio Ferrari, 2016-04-15 This book brings together leading international scholars of law and religion to provide an overview of current issues in State religion relations. The first part of the collection offers a picture of recent developments in key countries and regions. The second part is focused on Europe and in particular on the Nordic States and the post communist countries where State religion systems have undergone most profound change. The third and final part is devoted to four issues that are currently debated all over the world: the relations between freedom of expression and freedom of religion, proselytism and the right to change religion, the religious symbols and the legal status of Islam in Europe and Canada. The work will be a valuable resource for academics, students and policy makers with an interest in the interaction between law and religion.
