Magical Nominalism Martin Jay,2025-01-22 A bold and wide ranging study across centuries examining the conflict between conventional and magical nominalism in philosophy history aesthetics political theory and photography In this magisterial new book intellectual historian Martin Jay traces the long standing competition between two versions of nominalism the conventional and the magical Since at least William of Ockham according to Jay the conventional form of nominalism has contributed to the disenchantment of the world by viewing general terms as nothing more than mere names we use to group particular objects together rejecting the idea that they refer to a further higher reality Magical nominalism instead performs a reenchanting function by investing proper names disruptive events and singular objects with an auratic power of their own Drawing in part on Jewish theology it challenges the elevation of the constitutive subject resulting from Ockham s reliance on divine will in his critique of real universals Starting with the fourteenth century revolution of nominalism against Scholastic realism Jay unpacks various counterrevolutions against nominalism itself including a magical alternative to its conventional form Focusing on fundamental debates over the relationship between language thought and reality Jay illuminates connections across thinkers disciplines and vast realms of human experience Ranging from theology and philosophy of history to aesthetics and political theory this book engages with a range of artists and thinkers including Adorno Ankersmit Badiou Barthes Bataille Benjamin Blumenberg Derrida Duchamp Foucault Kracauer Kripke and Lyotard

Ultimately Magical Nominalism offers a strikingly original way to understand humanity's intellectual path to modernity

The Critique of Nonviolence Mark Christian Thompson, 2022-06-28 How does Martin Luther King Jr understand race philosophically and how did this understanding lead him to develop an ontological conception of racist police violence In this important new work Mark Christian Thompson attempts to answer these questions examining ontology in Martin Luther King Jr's philosophy Specifically the book reads King through 1920s German academic debates between Martin Heidegger Rudolf Bultmann Hans Jonas Carl Schmitt Eric Voegelin Hannah Arendt and others on Being gnosticism existentialism political theology and sovereignty It further examines King's dissertation about Tillich as well other key texts from his speculative writings sermons and speeches positing King's understanding of divine love as a form of Heideggerian ontology articulated in beloved community Tracking the presence of twentieth century German philosophy and theology in his thought the book situates King's ontology conceptually and socially in nonviolent protest In so doing *The Critique of Nonviolence* reads King's Letter from a Birmingham Jail 1963 with Walter Benjamin's *Critique of Violence* 1921 to reveal the depth of King's political theological critique of police violence as the illegitimate appropriation of the racialized state of exception As Thompson argues it is in part through its appropriation of German philosophy and theology that King's ontology condemns the perpetual American state of racial exception that permits unlimited police violence against Black lives **Sparks Will Fly** Andrew Benjamin, Dimitris Vardoulakis, 2015-02-23

Collected essays consider points of affinity and friction between Walter Benjamin and Martin Heidegger Despite being contemporaries Walter Benjamin and Martin Heidegger never directly engaged with one another Yet Hannah Arendt who knew both men pointed out common ground between the two Both were concerned with the destruction of metaphysics the development of a new way of reading and understanding literature and art and the formulation of radical theories about time and history On the other hand their life trajectories and political commitments were radically different In a 1930 letter Benjamin told a friend that he had been reading Heidegger and that if the two were to engage with one another sparks will fly Acknowledging both their affinities and points of conflict this volume stages that confrontation focusing in particular on temporality Romanticism and politics in their work **Songs of Experience** Martin Jay, 2005-01-10

Martin Jay is one of the most influential intellectual historians in contemporary America and here he shows once again a willingness to tackle the big issues in the Western cultural tradition A remarkable history of ideas about the nature of human experience Lloyd Kramer author of *Threshold of a New World* A magisterial study of one of the most elusive contested and pervasively important concepts of the Western philosophical tradition Ranging from epistemology and aesthetics to the philosophy of history religion and politics *Songs of Experience* brilliantly traces the major lines of theory and debate Insightful rich and masterfully narrated Jay's book sings with that well tempered voice of erudition synthetic intelligence and generous grace that has become his enviable trademark Richard Shusterman author of *Pragmatist Aesthetics* This illuminating provocative volume consolidates Martin Jay's standing as our leading modern intellectual

historian Ranging sure footedly from ancient to postmodern discourse Jay offers finely balanced readings of thinkers who have wrestled with the elusive concept of experience Because Jay respects and presents so clearly and sympathetically positions different from his own Songs of Experience gives readers the resources necessary to embrace or resist his own bold interpretations of philosophers from Kant and Burke through Dilthey and Dewey to Foucault and Rorty This book will prove as indispensable to intellectual historians as the idea of experience itself James T Kloppenberg author of The Virtues of Liberalism

Nietzsche's Nihilism in Walter Benjamin Mauro Ponzi, 2016-11-21 This book reconstructs the lines of nihilism that Walter Benjamin took from Friedrich Nietzsche that define both his theory of art and the avant garde and his approach to political action It retraces the eccentric route of Benjamin's philosophical discourse in the representation of the modern as a place of permanent catastrophe where he attempts to overcome the Nietzschean nihilism through messianic hope Using conventions from literary criticism this book explores the many sources of Benjamin's thought demonstrating that behind the materialism which Benjamin incorporates into his Theses on the Concept of History is hidden Nietzsche's nihilism Mauro Ponzi analyses how Benjamin's Arcades Project uses figures such as Baudelaire Marx Aragon Proust and Blanqui as allegories to explain many aspects of modernity The author argues that Benjamin uses Baudelaire as a paradigm to emphasize the dark side of the modern era offering us a key to the interpretation of communicative and cultural trends of today
