Derrida's Legacies Simon Glendinning, Robert Eaglestone, 2008-01-22. This volume brings together some of the most well known and highly respected commentators on the work of Jacques Derrida from Britain and America in a series of essays written to commemorate the life and come to terms with the death of one of the most important intellectual presences of our time. The sometimes personal, always insightful essays reflect on the multiple ways in which Derrida's work has marked intellectual culture in general and the literary and philosophical culture of Britain and America in particular. The outstanding contributors offer an interdisciplinary view, investigating areas such as deconstruction, ethics, time, irony, technology, location, and truth. This book provides a rich and faithful context for thinking about the significance of Derrida's own work as an event that arrived and perhaps still remains to arrive in our time.

Reading the Impossible Elizabeth Weed, 2024-05-07. Reading the impossible has never seemed less possible. A few decades ago, critical readings could view the collapse of foundationalism optimistically. With meaning no longer soldered onto being, there was hope for all those beings whose meaning had been forever ordained by Nature or the Divine. Critical reading thus became a way of exploring the devious workings of knowledge and power. But as non-foundational systems of meaning have proven to be so perfectly suited to the transactional logics of the market, reading for the impasses of meaning has come to be seen as quixotic, impractical, and dated. To concur with that view, Elizabeth Weed argues, is to embrace the fantasy told by the neoliberal order. To read the impossible is to disrupt that fantasy with its return to stable categories of marketable identity in order to contest the inexorable workings of misogyny and racism. This book seeks to disturb the positivity of identity in the hope of retrieving the

impossibility of sexual difference an impossibility that has its effects in the Real of misogyny A return to the famous debate between Derrida and Lacan on the impossibility of sexual difference yields two different readings of the impossible In reconsidering these questions Weed shows how the practice of reading can powerfully stage the wiles of language and the unconscious In returning to that earlier moment in the context of current debates on the role of reading and interpretation Weed offers a fresh perspective on what is at stake for critical reading in the neoliberal university *Double Reading* Jeffrey Thomas Nealon, 1993 Looks beyond the apparent fall of deconstruction and shows that its insights have a continuing role to play in postmodernist critical debates Outlines a postmodern approach based on Derrida's overlooked notion of double reading critical analysis that begins within a traditional meaning but is supplemented by an additional reading that undermines the first Annotation copyright by Book News Inc Portland OR *Late Derrida* Ian Balfour, 2007 This special issue of SAQ commemorates and interrogates with varying measures of appreciation and critique the late work of the philosopher Jacques Derrida Resisting simple memorialization of Derrida since his death in 2004 this collection contends that the late work of this prolific theorist remains to be better understood The contributors explore the peculiar intensity a combined sense of both patience and urgency that characterizes Derrida's late writing suggestive among other things of his preoccupation with mortality of time running out and of so many pressing things to be done The essays address a wide array of Derrida's concerns human rights justice religion the performative the gift of death mourning and sovereignty They often put Derrida's texts in conjunction with the works of others Wordsworth Agamben Schelling and Benjamin to name a few that resonate with and on occasion resist Derrida's own thinking and writing One essay offers a reading of Wordsworth's elegy Distressful gift as a dialogue with questions posed by Derrida using as its frame the kind of nonnormative mourning that Derrida advocated together with a haunting analysis of the character of survival Other essays look at Derrida's theory of performativity as advanced in his late works continuing his emphasis on the power of language and in general they emulate his vigilance in attending to force and violence everywhere Contributors Ian Balfour David L Clark Mary Jacobus David E Johnson David Lloyd J Hillis Miller Marc Redfield Rei Terada Elisabeth Weber *Rethinking Inclusive Education: The Philosophers of Difference in Practice* Julie Allan, 2007-11-07 One of the important responsibilities that advocates of inclusion need to continually practise is that of self criticism This includes examining and re-examining the assumptions informing our perspectives the concepts that we use including inclusive education and our intentions especially in relation to the question of change We need to beware of the danger of unexamined orthodoxies the possibilities of adopting inclusive language with little if any changes in our thinking and practice and a sterile and insensitive position with regard to the pursuit of new or alternative ideas In this very important book Allan powerfully reminds us of the necessity and centrality of these concerns and provides a direct perceptive and thoughtful examination and critique of the varied barriers to the task of how to make inclusion happen Allan challenges the reader to step back and re-examine the rationale for inclusion through an alternative

mindset She challenges the varied attacks upon inclusion including those in the education business to stop using economic it costs too much and pedagogical it is bad for the other children in the class and traumatic for the disabled children and social just too much for the teacher s workload reasons for closing the door and doing the right thing and those who argue that inclusion was an experiment that did not work

Reading and Responsibility Derek Attridge,2010-05-27 What is the importance of deconstruction and the writing of Jacques Derrida in particular for literary criticism today Derek Attridge argues that the challenge of Derrida s work for our understanding of literature and its value has still not been fully met and in this book which traces a close engagement with Derrida s writing over two decades and reflects an interest in that work going back a further two decades shows how that work can illuminate a variety of topics Chapters include an overview of deconstruction as a critical practice today discussions of the secret postcolonialism ethics literary criticism jargon fiction and photography and responses to the theoretical writing of Emmanuel Levinas Roland Barthes and J Hillis Miller Also included is a discussion of the recent reading of Derrida s philosophy as radical atheism and the book ends with a conversation on deconstruction and place with the theorist and critic Jean Michel Rabate Running throughout is a concern with the question of responsibility as exemplified in Derrida s own readings of literary and philosophical texts responsibility to the work being read responsibility to the protocols of rational argument and responsibility to the reader

A Practical Reader in Contemporary Literary Theory Peter Brooker,Peter Widdowson,2014-05-22 This introduction to practicing literary theory is a reader consisting of extracts from critical analyses largely by 20th century Anglo American literary critics set around major literary texts that undergraduate students are known to be familiar with It is specifically targeted to present literary criticism through practical examples of essays by literary theorists themselves on texts both within and outside the literary canon Four example essays are included for each author text presented

Developing Inclusive Teacher Education Tony Booth,Marit Strømstad,2003-12-16 Inclusion has been adopted as an overall aim for compulsory education in most countries This book explores the way teachers are prepared for inclusion in their initial and in service teacher education

Derrida David Wood,1992 Jacques Derrida s prolific output has been the delight and sometimes the despair of philosophers and literary theorists for over twenty years His influence on the way we read theoretical texts continues to be profound No serious contemporary thinker can fail to come to terms with deconstruction and there have been a number of monographs devoted to his work Very few however have combined a critical edge with a detailed knowledge of his writing The contributors to this volume were each asked in the most positive sense to take just such a critical approach There are substantive papers by Jean Luc Nancy Manfred Frank John Sallis Robert Bernasconi Irene Harvey Michel Haar Christopher Norris Geoff Bennington John Llewelyn and an introduction by David Wood
