Geologic Excursions in Southwestern North America Philip A. Pearthree,2019-09-23 Over the course of his 43 year career James C Knox conducted seminal research on the geomorphology of the Driftless Area of southwestern Wisconsin His research covered wide ranging topics such as long term land scape evolution in the Driftless Area responses of floods to climate change since the last glaciation processes and timing of floodplain sediment deposition on both small streams and on

the Mississippi River impacts of European settlement on the landscape and responses of stream systems to land use changes This volume presents the state of knowledge of the physical geography and geology of this unglaciated region in the otherwise glaciated Midwest with contributions written by Knox prior to his passing in 2012 and by numerous of his former colleagues and graduate students Field Trips in Environmental Education Martin Storksdieck, 2011-01-01

Hauptbeschreibung Field trips are a popular method for introducing students to concepts ideas and experiences that cannot be provided in a classroom environment This is particularly true for trans disciplinary areas of teaching and learning such as science or environmental education While field trips are generally viewed by educators as beneficial to teaching and learning and by students as a cherished alternative to classroom instruction educational research paints a more complex picture At a time when school systems demand proof of the educational value of field trips large gaps often exist *Glendale* Debbie
