warlord who forged a powerful realm which evolved into the nation of England The book reveals how Cerdic emerged from the ashes of Rome in the 6th century with a warband known as the Gewisse which offered protection to civilians from barbarians roaming the land and then fought for territory with rival kingdoms before evolving into the Anglo Saxon kingdom of Wessex During an unprecedented climate disaster which blocked out normal sunlight and led to a plague pandemic which killed millions Cerdic carved out a new domain that shapes Britain up to the present day One by one mysteries are solved including the identity of his shadowy son the location of every bloody battle against enemy warlords the links to an iconic medieval poem and the King Arthur legend     Geological Survey Professional Paper ,1975     U.S. Geological Survey Professional Paper ,1902     **Holstein-Friesian Herd-book** Holstein-Friesian Association of America,1889     **The Tracker** ,2001     **Gazetteer of Natural Drainage Areas of Streams and Water Bodies Within the State of Connecticut** Mendall Patterson Thomas,1972
