Mawgan Porth Rupert Bruce Mitford,2014-04-15 *Mawgan Porth* lies c 55m from the sea on the northern slope of the Vale of Lanherne near the North Cornish coast and faces south on to the floodplain of the River Menalhyl Excavations in 1950 52 1954 and 1974 uncovered three distinct but similar groups of buildings known as courtyard houses and a cemetery all

containing evidence of a date of occupation between c AD 850 and 1050 Each courtyard group comprised a long main room along one side with a partitioned end for livestock several smaller rooms or walls around the remaining sides and a narrow entrance The living area of the main room included a hearth and various vertical slab features and wall cupboards Traces of earlier buildings and occupational materials were found beneath the courtyard houses The cemetery contained adult and child burials enclosed in slab graves Pottery from the excavations forms a homogenous group with distinctive forms and fabric partly inspired by the bar lug tradition of Scilly and Cornwall with possible derivations from similar devices on contemporary Continental pottery Other finds included simple stone tools made from local and regional materials an abundance of perforated local slates a few bone artefacts iron traces and a silver penny of Aethelred the Unready struck between AD 990 and 995 from a small room in Courtyard House 1 Associated animal bones indicate a domestic economy supplemented by shell fishing Abandonment and possibly resettlement inland at St Mawgan appears to have been caused by difficult sandy and windy seashore conditions

Designs on Democracy Neal Shasore, 2022 Designs on Democracy provides an ambitious revision of how we understand the pivotal period of the formation of the profession of architecture in twentieth century Britain spanning the excitable discussions about the reconstruction of the profession for a democratic age after WWI and the reconstruction and planning following WWII Liverpool and Manchester Photographic Journal ,1991

A History of Architectural Modelmaking in Britain David Lund, 2022-12-16 Architectural modelmakers have long carried out their work hidden behind the scenes of architectural design and in presenting a history of architectural modelmaking in Britain for the first time this book casts a new light on their remarkable skills and achievements By telling the story of the modelmakers who make architectural models rather than architects who commission and use them this book seeks to celebrate their often overlooked contribution to the success and endurance of the architectural model in Britain over the past one hundred and forty years Drawing from extensive archival research and interviews with practicing and retired modelmakers this book traces the complete history of architectural modelmaking in Britain from its initial emergence as a specialist occupation at the end of the nineteenth century through to the present day It reveals the legacy of John Thorp the first professional architectural modelmaker in Britain who opened his business in London in 1883 and charts the lives and careers of the innovative and creative modelmakers who followed him It examines the continually evolving materials tools and processes of architectural modelmaking and outlines the profound ideological economic and technological influences that have shaped the profession's development Illustrated with over one hundred photographs of architectural models from previously undocumented archives this book will be of great interest to architectural modelmakers academics and historians as well as anyone with an interest in architectural history and modelmaking Edward I's Regent Michael Ray, 2022-05-05 Born at Christmas 1249 to Richard Edmund of Cornwall was nephew to Henry III and cousin to Edward I His eventful childhood took him to Germany when his father was elected king there He was captured at the battle of Lewes and

imprisoned for more than a year Returning from crusade he witnessed the brutal murder of his half brother which left him as heir to his father the richest man in the kingdom Throughout his life Edmund played a crucial role in medieval England As Regent of England Earl of Cornwall and the richest man in the land he was a leading force of the late thirteenth century This book considers Edmund s life his use of his wealth to lend to the king and others and to be a major benefactor of religious houses His piety saw him found two new religious houses rebuild another and bring the Holy Blood relic from Germany to Hailes abbey His record as Regent of England for three years is assessed The wide spread of his lands which included 13 castles and more than 800 places in 27 counties and his tenants are set out as is his place in the local community The basis of his wealth and its sources including money from his lands but also from tin mining and marine dues in Cornwall is explored and his knightly affinity and his close associates and officials are considered On a personal level the book examines his unsuccessful childless marriage with the sister of the Earl of Gloucester Edmund was a key figure throughout Edward I s reign and the late thirteenth century In this insightful account the man behind England s greatest king is at long last brought to the fore

The Heart of Drawing Michael J. Strauss, Mags Phelan Stones, Abrah Griggs, 2023-02-20 In this unique new book *The Heart of Drawing* 59 artists from 22 countries exhibit their art and talk about their process of creation to inspire readers and help them find inspiration for their own creative efforts The book is about what happens during the creation of a drawing NOT just about the final result Drawing is described as an act of cognition that can help you develop eye brain hand coordination conceptualize and analyze ideas think creatively and express yourself and communicate with others It s about Drawing to Learn which is the main focus of the book The words and images you see express a journey and the artists are exploring their internal and external realities with shape line and value The book promotes gestural or expressive drawing not necessarily a perfect finished work Because of this many of the drawings show restated lines drawn over erasures and other tentative marks and draw overs showing the process of creation They are not all flawless finished pieces Though from many countries and with various backgrounds most of the artists say they began drawing at an early age And most had someone in their lives encouraging them to create What most have in common is their gestural and exploratory approach to drawing Some describe entering a meditative state while drawing when nothing matters except putting marks on a surface Such drawing is sometimes a felt bodily experience more than an intellectual one For example one artist notes I keep a journal of my thoughts a kind of reservoir for fleeting feelings and impressions where like a primordial soup ideas congeal and give birth to strange creatures that crawl onto the shore discover wings and take flight What s best about *The Heart of Drawing* is the drawings themselves How these artists create is as diverse as humanity itself and the whole collection will give aspiring artists ideas for their own creative efforts

Cold War Stephen Twigge, 2020-07-30 *Cold War* tells the story of half a century of superpower confrontation from the end of the Second World War to the collapse of the Soviet Union The book describes in chilling detail the military and ideological struggle between the United States and the Soviet Union that

dominated the postwar landscape The book highlights the role played by Britain during the Cold War and its involvement in Cold War flash points including the Berlin Blockade the Cuban Missile Crisis and the Soviet invasion of Afghanistan The book describes the devastating consequences of nuclear war the growth and influence of the peace movement and the exploits of the Cold War spy networks built up by both sides Based on previously secret government reports and papers the book tells a compelling story of global conflict and superpower politics set against a backdrop of dramatic social and cultural change

The Bombing of London 1940-41: The Blitz and its impact on the capital John Conen, 2023-01-28 A concise and balanced view of what is known as the Blitz on London The title emphasizes bombing over blitz and recognises that the meaning of the Blitz has now acquired other general connotations and is often equated to Britain in wartime or the spirit of carrying on

Night Raiders Eloise Moss, 2019 Lurking in the shadowy depths of the night time city burglars inspired both fear and fascination during the nineteenth and twentieth centuries Night Raiders is the first history of burglary in modern Britain exploring how burglary fundamentally reshaped the meanings of home and urban lifestyles during this important period of change

Doing Museology Differently Duncan Grewcock, 2013-09-05 One might believe that museum studies is a stable field of academic inquiry based on a set of familiar institutional forms and functions But as institutions museums have never been stable or singular and neither has the discipline of museum studies Museum studies as a field of academic inquiry has received little critical attention One result of this neglect has arguably been a lack of invention in museum studies another is the distancing of academic museum studies from museum practice Doing Museology Differently charts a different course A critical creative reflection on academic practice the book takes the form of a narrative account of museological fieldwork A research story unfolds challenging academic conventions at the level of its own presentation the book combines critical museum visiting with an autobiographical voice The identification of a previously underexplored interdisciplinary space leads the author to experiment with museum studies using contemporary developments in the theory and practice of human geography The new approaches to museological research and representation that emerge from this unique inquiry challenge assumed institutional and intellectual boundaries and act as a call to further creative experimentation

Eugenics, Literature, and Culture in Post-war Britain Clare Hanson, 2013 This book explores eugenics in its wider social context and in literary representations in post war Britain Drawing on a wide range of sources in medicine social and educational policy genetics popular science science fiction and literary texts Hanson tracks the dynamic interactions between eugenic ideas across diverse cultural fields demonstrating the strength of the eugenic imagination Challenging assumptions that eugenics was fatally compromised by its association with Nazi atrocities or that it petered out in the context of changed social attitudes in an egalitarian post war society the book demonstrates that eugenic thought not only persisted after 1945 but became more prominent Throughout eugenics is defined as a cultural movement rather than more narrowly as a science and the study is focused on its border crossing capacity as a style of thought By tracing the expression of eugenic ideas

across disciplinary boundaries and in both high and low culture this book demonstrates the powerful and pervasive influence of eugenics in the post war years Authors visited include Raymond Williams John Braine Agatha Christie Muriel Spark Anthony Burgess Doris Lessing and J G Ballard
