Professional Practice in Health, Education and the Creative Arts Joy Higgs, Angie Titchen, 2008-04-15. Society is rapidly changing its expectations of professionals in all arenas. In this book we focus on changing patterns of professional practice in health, education and the creative arts. In each of these areas professional practice is undergoing major reform in a complex and rapidly changing environment. This multi-authored text explores professional practice in four key dimensions: doing, knowing, being and becoming. These concepts have been chosen to represent professional practice as much more than applying learned knowledge in practice situations. The authors present professional practice as a lived and dynamic experience as well as a process, a service for and with others, and a way of being and behaving. The text explores the essential unity of knowledge and practice through discourse, narrative, imagery and critical debate. This is a book for all those seeking to learn and to improve practice.
