Art and Culture of the Cyclades Badisches Landesmuseum Karlsruhe, 1977 **Art and Culture of the Cyclades**, 1977 Personal Styles in Early Cycladic Sculpture Pat Getz-Gentle, 2001-11-26 Getz Gentle an independent scholar has seen many of the examples that exist in the course of her career studying Cycladic sculpture She presents in this volume a catalog of Cycladic sculpture which she has organized into stylistic categories based on formal analysis The methods she used to arrive at her conclusions as well as her theory of how the sculptures were produced are discussed at length Annotation copyrighted by Book News Inc Portland OR The "Keros Hoard" Panagiōta I. Sōtērakopoulou, Peggy Sotirakopoulou, 2005 Keros is a small mountainous and now deserted island situated between Naxos Amorgos and Ios in the southeast Cyclades Keros became widely known after a series of extensive and clandestine excavations in the 1950s and early 1960s which concentrated on a particularly rich deposit of material at the site of Kavos situated at its barren western extremity These major lootings resulted in the illegal export from Greece of a large number of Early Cycladic objects mostly fragmentary marble figurines that flooded the international antiquities market under the general name the Keros Hoard The cache was said to have included at least 350 Cycladic objects and is now widely dispersed This study features a review of the archaeological investigations on Keros a discussion of the so called Keros Hoard an extensive account of the various aspects of Cycladic figurines and a catalogue of the objects identified as coming from the Hoard Also included are an analysis of the data derived from the Hoard the results of the study comparing the fragments in the Museum of Cycladic Art with those discovered at Kavos during official archaeological investigations an interpretation of the Hoard *Early Cycladic Sculpture in Context from beyond the Cyclades* Marisa Marthari, Colin Renfrew, Michael J. Boyd, 2019-12-31 This second volume on Early Cycladic and Cycladicising sculptures found in the Aegean examines finds from mainland Greece along with the rarer items from the north and east Aegean with the exception of those discovered in the Cyclades covered in the preceding volume and of those found in Crete The significance of these finds is that these are the principal testimonies of the influence of the Early Bronze Age Cycladic cultures in the wider Aegean This influence is shown both by the export of sculptures produced in the Cyclades and made of Cycladic marble and of their imitations produced elsewhere in the Aegean usually of local marble They hold the key therefore to the cultural interactions developing at this time the so called international spirit manifest particularly during the Aegean Early Bronze II period This was the time when the foundations of early Aegean civilisation were being laid and the material documented is thus of considerable significance The volume is divided into sections wherein contributions examine finds and their archaeological social and economic contexts from specific regions It concludes with an overview of the significance and role of these objects in Early Bronze Age societies of the Aegean and eastern Mediterranean region This will be the first time that this material has been systematically gathered together Highly illustrated it follows and builds on the successful preceding volume *Early Cycladic Sculpture in Context* Oxbow 2016 *Art and Culture of the*

Boyd, 2017-01-04 The sculpture of the early bronze age Cyclades has been systematically studied since the time of Christos Tsountas at the end of the 19th century But that study has been hampered by the circumstance that so many of the subsequent finds come from unauthorized excavations where the archaeological context was irretrievably lost Largely for that reason there are still many problems surrounding the chronology the function and the meaning of Early Cycladic sculpture This lavishly illustrated and comprehensive reassessment sets out to rectify that situation by publishing finds which have been recovered in controlled excavations in recent years as well as earlier finds for which better documentation can now be provided Using the material from recent excavation projects and drawing on the papers presented at a symposium held in Athens in 2014 it is possible now to undertake a fresh overview of the entire body of sculpture from the Cycladic islands which has been found in secure archaeological contexts Beginning with early examples from Neolithic settlement sites and extending into a consideration of material found in later contexts the 35 chapters are divided into sections which examine sculpture from settlements cemeteries and the sanctuary at Kavos concluding with a discussion of material techniques and aspects of manufacture **Aegean Waves** Nikolaos Chr Stampolidēs, Panagiōta I.
