Anyone Can Teach Art: How to Confidently Teach Art in Your Classical Homeschool Julie Abels, 2020-04-11 Me Teach art I don t even know how to draw Many of us started there We felt a total lack of confidence about teaching art We wanted to give our children all the benefits of art in their education but didn t know how Some of us did a few colorful hands

on projects with our children but we could see they weren't really learning the basics of art. We had never learned the basics of art ourselves. But then after a few years of teaching art with the classical model of education we realized that teaching art can be as simple as teaching any other subject and we can learn it alongside our children. Now we've condensed our knowledge here for you. Instead of a how to draw book, *Anyone Can Teach Art* presents the scope and sequence of a classical Christian art curriculum for K-12 students. In this book we break it all down for you. By the end of this book you'll know why art should be included in everyone's education. What are the basics of art creation and art appreciation. How to use the ancient amazingly effective classical model of education to teach art. Which simple drills and exercises to include in art projects to help students advance their skills. How to proceed in art education once your students have mastered the basics. What's stopping you from including art in your child's education. Learn the basics and follow the plan in this book and you'll realize how easy it really is to teach art.

The Annotated Mona Lisa Carol Strickland, 1992 Art Scents Larry E. Shiner, 2020

In the last twenty years there has been a marked increase in artists using smells in their works at the same time that scents are being used to accompany plays, films and music. There is also an increase in ambient scenting in stores and hotels and leading chefs are adding unusual scents to cuisine. The book explores these olfactory activities and the aesthetic and ethical issues they raise as well as answering the traditional disparagement of the sense of smell by leading intellectuals such as Kant, Darwin and Freud, drawing on current science, social science and humanities as well as literature.

Arts Maria Burguete, Lui Lam, 2011

This book treats arts as part of science from the unified perspective of *Science Matters*. It contains 17 chapters with 18 contributors who are prominent humanists, professional artists or scientists. It consists of three parts: Part I Philosophy and History of Arts; Part II Arts in Action; Part III Understanding Arts. The book is aimed at both research scholars and lay people and is unique in two important aspects. It is probably the first and only book that academic professionals and practicing artists contribute to the same book as equals on the common theme of creating and understanding arts. Artists here include Cristina Leiria whose huge Kun Iam Goddess of Mercy sculpture is an important landmark in Macau and the famous movie director Hark Tsui who is publishing his first ever article on movie making. Perhaps more importantly a new understanding of the origin and nature of art is offered for the first time which is more convincing than all the other hypotheses put forth in the last two thousand years.
