**Staging Christ's Passion in Eighteenth-Century Nahua Mexico** Louise M. Burkhart,2023-06-15 Staging Christ s Passion in Eighteenth Century Nahua Mexico explores the Passion plays performed in Nahuatl Aztec by Indigenous Mexicans living under Spanish colonial occupation Though sourced from European writings and devotional practices that emphasized the suffering of Christ and his mother this Nahuatl theatrical tradition grounded the Passion story in the Indigenous corporate community Passion plays had courted controversy in Europe since their twelfth century origin but in New Spain they faced Catholic authorities who questioned the spiritual and intellectual capacity of Indigenous people and in the eighteenth century sought to suppress these performances Six surviving eighteenth century scripts variants of an original play possibly composed early in the seventeenth century reveal how Nahuas passed along this model text while modifying it with new dialogue characters and stage techniques Louise M Burkhart explores the way Nahuas merged the Passion story with their language cultural constructs social norms and religious practices while also responding to surveillance by Catholic churchmen Analytical chapters trace significant themes through the six plays and key these to a composite play in English included in the volume A cast with over fifty distinct roles acted out events extending from Palm Sunday to Christ s death on the cross One actor became a localized embodiment of Jesus through a process of

investiture and mimesis that carried aspects of pre Columbian materialized divinity into the later colonial period The play told a far richer version of the Passion story than what later colonial Nahuas typically learned from their priests or catechists And by assimilating Jesus to an Indigenous or macehualli identity the players enacted a protest against colonial rule The situation in eighteenth century New Spain presents both a unique confrontation between Indigenous communities and Enlightenment era religious reformers and a new chapter in an age old power game between popular practice and religious orthodoxy By focusing on how Nahuas localized the universalizing narrative of Christ's Passion Staging Christ's Passion in Eighteenth Century Nahua Mexico offers an unusually in depth view of religious life under colonial rule Burkhart's accompanying website also makes available transcriptions and translations of the six Nahuatl language plays four Spanish language plays composed in response to the suppression of the Nahuatl practice and related documentation providing a valuable resource for anyone interested in consulting the original material

**Visualizing the Miraculous, Visualizing the Sacred** Robert H. Jackson, 2014-10-21 French historian Robert Ricard postulated a quick and facile evangelization of the

native populations of central Mexico However evidence shows that native peoples incorporated Catholicism into their religious beliefs on their own terms and continued to make sacrifices to their traditional deities In particular the deities of rain Tlaloc and Dzahui and the fertility of the soil Xipe Totec continued to be important following the conquest and the beginning of the so called spiritual conquest This study examines visual evidence of the persistence of traditional religious practices including embedded pre hispanic stones placed in churches and convents and pre hispanic iconography in what ostensibly were Christian murals

**Christian Images and Their Jewish Desecrators** Katherine Aron-Beller,2024-01-09

In *Christian Images and Their Jewish Desecrators* historian Katherine Aron Beller analyzes the common Christian charge that Jews habitually and compulsively violated Christian images identifying this allegation as one that functioned alongside other anti Jewish allegations such as ritual murder blood libel and host desecration to ultimately inform dangerous and long lasting prejudices in medieval and early modern Europe Through an analysis of folk tales myths legal proceedings and religious art Aron Beller finds that narratives alleging that Jews committed violence against images of Christ Mary and the disciples flourished in Europe between the fifth and seventeenth centuries She then explores how these narratives manifested differently across the continent and the centuries finding that their potency reflected not Jewish actions per se but Christians own concerns about slipping into idolatry when viewing depictions of religious figures In addition Aron Beller considers Jews own attitudes toward Christian imagery and the ways in which they responded to and rejected or embraced such allegations By examining how desecration allegations affected Jewish individuals and communities spanning Byzantium medieval England France Germany and early modern Spain and Italy Aron Beller demonstrates that this charge was a powerful expression of the Christian majority s anxiety around committing idolatry and their eagerness to participate in practices of veneration that revolved around visual images an anxiety that evolved through the centuries and persists to this day
