Art Deco Advertising No 5:

Buyways Catherine Gudis, 2004-05-15 The highway has become the buyway Along the millions of miles the public travels advertisers spend billions on images of cola cars vodka fast food and swimming pools that blur past us catching our fleeting attention and turning the landscape into a corridor of commerce A smart succinct and visually compelling history of the billboard in America *Buyways* traces how the outdoor advertising industry changed the face of American commercialism Taking us from itinerant bill stickers of circus posters in the 19th century to the blinking beeping 3 D eyesores of today Gudis argues that roadside advertising has turned the landscape itself into a commodity to be bought and sold as advertising space *Buyways* vividly chronicles the battles between environmentalists and businessmen as well as the response of artists from New Deal photographers who satirized the billboard infested landscape to commercial artists who embraced the kitsch of it all It also shows how advertisers tapped into the American mythology of the open road promoting mobile consumption as the American Dream on four wheels Entertaining and brilliantly illustrated *Buyways* is a vibrant road map of the new geography of consumption Also includes an eight page color insert *Books in Print* ,1994 *Art Deco Chicago* Robert Brueggemann, 2018-10-02 An expansive take on American Art Deco that explores Chicago's pivotal role in developing the architecture graphic design and product design that came to define middle class style in the twentieth century Frank Lloyd Wright's lost Midway Gardens the iconic Sunbeam Mixmaster and Marshall Field's famed window displays despite the differences in scale and medium each belongs to the broad current of an Art Deco style that developed in Chicago in the first half of the twentieth century This ambitious overview of the city's architectural product industrial and graphic design between 1910 and 1950 offers a fresh perspective on a style that would come to represent the dominant mode of modernism for the American middle class Lavishly illustrated with 325 images the book narrates Art Deco's evolution in 101 key works carefully curated and chronologically organized to tell the story of not just a style but a set of sensibilities Critical essays from leading figures in the field discuss the ways in which Art Deco created an entire visual universe that extended to architecture advertising household objects clothing and even food design Through this comprehensive approach to one of the 20th century's most pervasive modes of expression in America *Art Deco Chicago* provides an essential overview of both this influential style and the metropolis that came to embody it **Subject Guide to Books in Print** ,1997 **Advertising to the American Woman, 1900-1999** Daniel Delis Hill, 2002 The author focuses on the marketing perspective of the topic and illustrates how women's roles in society have shifted during the past century Among the key issues explored is a peculiar dichotomy of American advertising that served as a conservative reflection of society and at the same time became an underlying force of progressive social change The study shows how advertisers of housekeeping products perpetuated the Happy Homemaker stereotype while tobacco and cosmetics marketers dismantled women's stereotypes to create an entirely new type of consumer **Subject Guide to Children's Books in Print 1997** Bowker Editorial Staff, R R Bowker
