Slaves of One Master Matthew S. Hopper,2015-08-25 In this wide ranging history of the African diaspora and slavery in Arabia in the nineteenth and early twentieth centuries Matthew S Hopper examines the interconnected themes of enslavement globalization and empire and challenges previously held conventions regarding Middle Eastern slavery and British imperialism Whereas conventional historiography regards the Indian Ocean slave trade as fundamentally different from its Atlantic counterpart Hopper s study argues that both systems were influenced by global economic forces The author goes on to dispute the triumphalist antislavery narrative that attributes the end of the slave trade between East Africa and the Persian Gulf to the efforts of the British Royal Navy arguing instead that Great Britain allowed the inhuman practice to continue because it was vital to the Gulf economy and therefore vital to British interests in the region Hopper s book links the personal stories of enslaved Africans to the impersonal global commodity chains their labor enabled demonstrating how the growing demand for workers created by a global demand for Persian Gulf products compelled the enslavement of these people and their transportation to eastern Arabia His provocative and deeply researched history fills a salient gap in the literature on the African diaspora

strains of conservative influenced sentiment Does rural heritage play an exceptional role in the perpetuation of these attitudes Have such outlooks been continuous J Blake Perkins searches for the roots of rural defiance in the Ozarks and discovers how it changed over time Eschewing generalities Perkins focuses on the experiences and attitudes of rural people themselves as they interacted with government from the late nineteenth century through the twentieth century He uncovers the reasons local disputes and uneven access to government power fostered markedly different reactions by hill people as time went by Resistance in the earlier period sprang from upland small farmers conflicts with capitalist elites who held the local levers of federal power But as industry and agribusiness displaced family farms after World War II a conservative cohort of town business elites local political officials and midwestern immigrants arose from the region s new low wage union averse economy As Perkins argues this modern antigovernment conservatism bore little resemblance to the backcountry populism of an earlier age but had much in common with the movement elsewhere
