Catastrophic Disaster Risks Using Alternative Risk Financing and Pooled Insurance Structures John D. Pollner, 2001-01-01

This report examines the existing constraints and opportunities to implement a catastrophe insurance system which can resolve the key obstacles currently impeding broader implementation of a risk funding approach. The four main pillars in such a strategy involve strengthening the insurance sector regulatory requirements and supervision, establishment of broad based pooled catastrophe funding structures with efficient risk transfer tools, promoting public insurance policies linked to programs for loss reduction in the uninsured sectors and strengthening the risk assessment and enforcement of structural measures such as zoning and building code compliance.

Services Trade in the Balkans Constantine Michalopoulos, Vasileios Panousopoulos, 2013 **Reforms in Albanian Agriculture** Severin Kodderitzsch, 1999-01-01

Agriculture provides the livelihood to 60% of the Albanian population. Even though it is still fairly primitive and it will never probably ensure self sufficiency in major agricultural commodities, it represents a useful shock absorber in the current situation of economic and social unrest. Since it started its transition to a market economy in 1991, Albania has carried out major reforms in the agricultural sector at large, achieving remarkable increases both in output and total factor productivity. However, more needs to be done to reduce rural poverty, stop environmental degradation and increase integration with regional and international economies. The paper provides an overview of the different policy and institutional aspects that will need to be considered for a balanced outcome.

The Armenians Edmund Herzig, Marina Kurkchian, 2004-11-10. A comprehensive introduction to the historical forces and recent social and political developments that have shaped today's Armenian people. With contributions from leading Armenian American and European specialists, the book focuses on identity formation, exploring how the Armenians' perceptions of themselves and their place in the world are informed by their history, culture, and present day situation. The book also covers contemporary politics, economy, and society, and relates these to ongoing debates over future directions for the Armenian people both in the homeland and in the diaspora communities.

Food and Agricultural Policy in Russia Csaba Csáki, 2002-01-01. The agricultural sector in Russia has considerable untapped productive potential. Given this potential, agriculture could provide a solid foundation for growth and poverty alleviation, particularly in rural areas of Russia. The objectives of this book are to facilitate debate of issues key to agricultural policy, to contribute to a greater understanding of the Russian agricultural sector outside of Russia, and to identify a framework for further collaboration between the Russian government and the World Bank in the rural sector.

Institutional Elements of Tax Design and Reform John McLaren, 2003 A Guide to the World Bank, 2003. The World Bank Group works in more than 100 developing economies and is one of the world's largest sources of development assistance. In 2002, the institution provided US \$19.5 billion in loans to its client countries. This guide reviews the organization's history, objectives, and operations, and looks at the five institutions that make up the World Bank Group: the International Bank for Reconstruction and Development (IBRD), the International Development Association (IDA), the International Finance Corporation (IFC), the

Multilateral Investment Guarantee Agency MIGA and the International Centre for Settlement of Investment Disputes ICSID

Forest Concession Policies and Revenue Systems John Andrew Gray, 2002-01-01 Forest concessions have been an important element of forestry and forest management in many countries including developing countries. However, if sustainable management of tropical forests is to be achieved and deforestation brought under control, the allocation, management and supervision of forest concessions will need to be strengthened. This study examines the failures of forest concessions over the last 20 years and highlights the potential gains resulting from concentrating on improving procedures, introducing performance incentives and monitoring key performance elements.

The Challenge of Rural Development in the EU Accession Countries Csaba Csáki, Zvi Lerman, 2001-01-01 From the Abstract: This volume examines the reforms and policy changes necessary in the rural sectors of the ten countries that have started the accession process for eventual membership in the European Union: Bulgaria, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Poland, Romania, Slovakia and Slovenia. The papers in this volume are selected from the presentations at the Third World Bank/FAO EU Accession Workshop held in Sofia, Bulgaria, on June 17-20, 2000, and are organized around four topics: i) defining the concepts of rural development options for EU accession candidate countries; ii) rural development in the European Union; iii) rural development in Central and Eastern Europe; and iv) international experiences and the role of international organizations in supporting rural development in the EU accession candidate countries. This volume is intended for agricultural policy makers and government officials in the candidate countries, EU officials, World Bank and FAO staff, development scholars, and all others interested in the process of rural development in Central and Eastern Europe.
