

KNIGHT'S ARMS

Full plate armor came into use in the 15th century. While heavy and time-consuming to put on, a well-made suit distributed the weight evenly around the body, allowing reasonable mobility. The wearing of surcoats helped so owners could show off their expensive armor. The helmet was curved to deflect blows and had a moveable visor for better airflow. Plate armor gave such good protection against swords that percussive weapons such as hammers and maces grew in popularity.
