Soldiering on – Finding My Homes

Christine Kriha Kastner, 2011-04-27 Some military brats rode camels in Arabia others leaped from parachute training towers but this little army brat rode backwards in the rear jump seat of the family station wagon all the way across America without a seatbelt Christine Kriha Kastner grew up the only way she knew on military bases stateside and around the world By the time she turned in her military I D card when her father retired from the U S Army she had lived in fifteen different houses and attended ten different schools Situation normal for an army brat Living on Okinawa was a memorable overseas assignment So when an opportunity to return to that little island in the Pacific Ocean arose after forty years she couldn't pass it up Kastner returned to the island she remembered from her youth with the 73 year old mother of one of her best friends Together they took a Kubasaki High School reunion trip timed to coincide with the 4th Uchinanchu Festival that brought thousands of Okinawans back to the island from all over the world It was the adventure of their lifetimes just not quite the karaoke sake and pachinko experience they expected

Army Brat, Army Bride, Civilian: a Life Darlene

Gravett, 2013-11-19 Army Brat Army Bride Civilian A Life reveals the ups and downs of military living through the experiences of one who was both a sergeant's daughter and an officer's wife The military teaches many lessons but not how to transition to civilian life after more than thirty years of moving around in the Army including attending five different high schools as a teenager While in the Army families learn to adapt to renting or buying an apartment or house in town or to being assigned a set of Army quarters on a military post If in quarters they must not paint walls or install carpet or leave holes in walls where pictures used to hang Although the Army is a highly structured organization flexibility is a key word for its families Dealing with snafus making decisions which seem right at the time but turn out to be trumped by the demands of the military adjusting to new places and making new friends every two to three years are all part of living the military life Yet the adventure and excitement of this life are evident throughout

Daughter of the

Regiment Mary Leefe Laurence, 1999-09-01 The young daughter of an English born U S infantry officer on the post Civil War frontier Mary Leefe had the childhood of an army nomad accompanying the regiment from south Texas to the boundary with Canada In faithfully recording her varied experiences as a camp follower she offers extensive and unique memoirs on life as a child and adolescent in the twilight of the Indian fighting army She considered herself a part of her father's unit ever mindful of the heritage of noblesse oblige the honor of the army and esprit de corps of the regiment We were part and parcel of this and must never disgrace it Leefe's formative memories were of the death of the regimental colonel in battle with the

Cheyennes and of the dangerous thrill of watching an Ute war dance When her father's company was assigned to guard Apache prisoners of war in Alabama she came to know and fear Geronimo whose terrible eyes haunted my dreams but she developed a lasting respect and admiration for such leaders as Chihuahua Nana and Naiche Leefe offers the reader much more than frontier anecdotes of a youth who comes of age in the fading West A largely uncritical observer Leefe was indeed a product of her place and time and so can report on the military community with affection humor and sympathetic understanding

Memoirs of a Dromomaniac V Traven, 2011-04-30 MEMOIRS OF A DROMOMANIAC A Randy Romp from one Side of the Earth to the Other **Memoirs of Myths and Truths** Carl B. Allen, 2008-07-02 Memoirs of Myths and Truths in an Ordinary Pebble's Extraordinary Life We find the author considers himself an ordinary pebble among others of his time who has gone on a desperate search for love and approval But even an ordinary pebbles like him can have an extraordinary life because he is not ordinary from the start finding at an early age confusion and embarrassment regarding whether an accident or his mind makes him that way It's not until into his young adult stream does he discover another reason for his rebel behavior in school and life Which as a reader you'll recognized some problems in the text of the book cover and in the

book's written words or spelling or sentence structure being a struggle. You'll see it's not his schooling it's his battle with being dyslexic. Yet there is some great writing and inspiration plus the help of a few photos to bring you into his or your memories and times when some myths emerged from stories and some being real truths. Pebbles we all are, truths are maybe what we think they should be and myths are longer lasting than we may know. The author finds himself slowly aware of being in his September years, having a sense of belonging to the past and present but a much shorter future. With that comes a sense of family and the closeness of friends which has brought him to this place of wonderment that has continued from those wonderful years of youth. They have brought him to these joyous thoughts while writing these memoirs and making reflecting on his extraordinary life. Starting at first writing this for all his kin and others within that stream surround him but then realize other pebbles of this time can bring back some reflection on these times with a little smile, some sadness and reflection too. He may have wandered through those youthful years winding through life's paths and finding some running on empty or full or too fast or too slow at the time like the automobiles of the day. His nurturing as a child not always satisfying resulted in the building many protective walls around his self. Yet like James Dean in *East of Eden* or *Rebel Without a Cause* or *Giant* there was this desperate search for love and approval not always available for many reasons and questionable behavior leading to myths or truths. Seeking his own needs while being an ordinary pebble has resulted in finding an extraordinary life. There is an expression of views from his heart and mind trying to embrace so much of that extraordinary life that lies hidden deeper within his self and yet always trying to hold and consider that these are parts of his life whether shining with beauty or happiness or sadness, finding only to be viewed as an expression of soul. He has tried painting but now the written word in expressing some of those myths, spoken truths found within the soul and trusted memories. They carry simple but complex myths in the life of an ordinary pebble, always amazed by the course of the streams found. These memoirs are a reflection of our times, history, love for the automobile, then adding the racing with many encounters with lovers and places that have been traveled that brings this extraordinary life into view. The book is about people encountered in his life's stream, the persons who have enriched this life and helped him to find out who he is. Also that going through this journey gathering memories, myths or truths, these moments sustained his notion of an ordinary pebble's extraordinary life. These events have allowed reflection on moral issues and things that are questionable judgment. He hopes that you enjoy this time traveling in this stream. Pebbles we are, yet we are still the most important part in those streams surrounding us, finding most everyone else's lives continue similarly within those same small stream we live in, rubbing shoulders and sharing our life's stream with others matter more than we know because as others enrich our lives we can do.

1983-05 *The Madness of Art* Robert Phillips, 2003-03-01 Robert Phillips's conversational yet penetrating approach yields self assessments that read like new essays by the writers themselves. Conducted over the course of twenty years, many of these pieces were first published in the *Paris Review*. Taken from a passage Henry James the title speaks to the madness that

drives our greatest works of creativity Phillips's interviews bring out this madness in its most important sense the writers are seers and visionaries whose works inspire us beyond the limits of reason The conversations recorded in *The Madness of Art* attain that same level of inspiration and power Phillips questions his interviewees about their work methods daily lives influences sources of inspiration relationship to other literary figures response to critics choice of genre audience and reasons for writing
