Extraordinary Archive of Arthur J. Munby Sarah Edge, 2020-12-17 In the mid 1860s Arthur J Munby began to collect the first mass produced photographic images of working class women in England recording fascinating details about the women the places he purchased the photographs and the raging debates on this new commercial practice of photography in accompanying diaries Many of these images not to mention Munby's fascinating diaries have never been published before This book examines this previously uninvestigated archive offering a fresh and arresting perspective on the interrelationships between photographic representations of working class women the creation of new identities of class and gender and the evolution of popular conceptions of photography itself *British Fiji Class Cruisers and their Derivatives* Conrad Waters, 2024-05-30 A follow up to the author's highly regarded history of British Town class cruisers this book takes the same approach combining coverage of the development design details and career highlights of the original class as well as the Uganda Minotaur and Tiger designs that were derived from them Often called the Colony class they were an attempt to incorporate the characteristics of the preceding Town class within the reduced 8 000 ton limit agreed under the 1936 London Treaty In general layout they resembled the earlier class but adopted upright rather than raked funnels and masts The use of a flat transom stern conferred both hydrodynamic and internal space advantages Not surprisingly they turned out to be very cramped ships which struggled to accommodate all the wartime additions of extra electronics and light AA guns as well as the increased crew needed to man them Many of the later modifications to existing ships and alterations to the succeeding designs were attempts to alleviate these issues most visibly the reduction of the main armament from four to three turrets Nevertheless they were available in significant numbers and gave sterling service across all theaters of the naval war In this major study Conrad Waters makes extensive use of archive material to provide a technical evaluation of the Fiji class design and its subsequent performance He outlines the class's origins in the context of inter war cruiser policy explains the design and construction process and describes the characteristics of the resulting ships and how these were

adapted in the light of wartime developments An overview of service focuses on major engagements assessing the extent to which the class met its designers expectations and detailing the consequences of action damage Later chapters continue the story into the Cold War era examining the various post war modernization programs and concluding with the radical redesign of the Tiger class that produced the Royal Navy s last conventional cruisers Heavily illustrated with contemporary photographs original plans and drawings by Dave Baker John Jordan and George Richardson British Fiji Class Cruisers provides a definitive reference to one of the Royal Navy s most important Second World War warship designs **The British National Bibliography** Arthur James Wells,2000 *The British Journal of Photography* ,2007 Pioneer Photographers of the Far West Peter E. Palmquist,Thomas R. Kailbourn,2000 This extraordinarily comprehensive well documented biographical dictionary of some 1 500 photographers and workers engaged in photographically related pursuits active in western North America before 1865 is enriched by some 250 illustrations Far from being simply a reference tool the book provides a rich trove of fascinating narratives that cover both the professional and personal lives of a colorful cast of characters **Creative Camera** ,1987 **Quill & Quire** ,2009 **The Transformation of British Naval Strategy** James Davey,2012 Shows how the system of supply was perfected during the later part of the Napoleonic Wars enabling fleets to stay at sea on a permanent basis After the Battle of Trafalgar the navy continued to be the major arm of British strategy Decades of practice and refinement had rendered it adept at executing operations fighting battles blockading and convoying across the globe And yet as late as 1807 fleets were forced from their stations due to an ineffective provisioning system The Transformation of British Naval Strategy shows how sweeping administrative reforms enacted between 1808 and 1812 established a highly effective logistical system changing an ineffective supply system into one which successfully enabled a fleet to remain on station for as long as was required James Davey examines the logistical support provided for fleets sent to Northern Europe during the Napoleonic War and shows how this new supply system successfully transformed naval operations enabling the navy to pursue crucial objectives of national importance protect essential exports and imports and attack the economies of the Napoleonic Empire The Transformation of British Naval Strategy is a detailed study of national policy administrative and political reform and strategic viability It delves into the nature of the British state its relationship with the private sector and its ability to reform itself in a time of war Bureaucratic restructuring represented the last stage in a century long process of logistical improvement As a result of the reforms the navy was able to conduct operations beyond the realms of possibility even twenty years earlier and saw the reach of its power transformed Military and Napoleonic historians will find this book invaluable JAMES DAVEY is Research Curator at the National Maritime Museum and Visiting Lecturer at the University of Greenwich where he teaches British naval history The Scrolls of Bishop Eubulus, and Other Stories Rebecca Bradley,2025-08-11 What would you sacrifice to uncover the truth What price would you pay to survive its revelation In The Scrolls of Bishop Eubulus and Other Stories Rebecca Bradley invites you to

explore thirteen chilling realms where the extraordinary lurks just beneath the surface From the harrowing depths of zombie apocalypses to cryptids hiding in plain sight and the restless dead who refuse to stay silent each tale promises a unique journey into the unknown Join an inspector as he unravels mysteries among the ruins of a shattered humanity and encounter a cursed Egyptian relic that twists fate in unimaginable ways Each story masterfully weaves together dark fantasy archaeology and the complexities of human frailty challenging your perceptions and igniting your imagination Will you find yourself laughing defiantly in the face of danger or trembling with fear at the turn of each page Fans of Roald Dahl's *Tales of the Unexpected* and H P Lovecraft will delight in this unsettling collection where every ending is merely a new beginning if you dare to turn the page Dare to uncover what lies beneath

Sailing and Social Class Alan

O'Connor, 2024-04-23 This book explores the sociology of sailing and yachting Drawing on original research and employing a theoretical framework based on the work of Pierre Bourdieu the book argues that sailing is still an upper middle class activity that has much to tell us about the wider sociology of leisure and sport The book examines the historical foundations of blue water sailing as established by naval and colonial shipping to trace the roots of contemporary sailing and yachting culture It also examines archives of sailing narratives and cruising guides as well as the children's books of Arthur Ransome arguing that this archival material offers a social rather than a psychological interpretation of the bodily investment in sailing The

book uses Bourdieu's concepts of *illusio* an investment of time emotion and body into a worthwhile activity and *habitus* or lifeworld alongside contemporary data sets to examine the yacht club as a social institution including why many boats never go out on the water the relationship between yacht clubs and the state and social issues as manifested in yacht clubs such as sexism racism and homophobia Offering a vigorous sociological critique of yachting and sailing this book is fascinating reading for anybody with an interest in the sociology of leisure and sport subcultures social theory or social issues in wider society
