*Around Cresson and the Alleghenies* Anne Frances Pulling, Sr., Sr Anne Frances Pulling, 1997-03-01 The Allegheny Mountains constantly challenged early settlers to use their creativity and skills to conquer what seemed an almost insurmountable barrier The founding fathers recognized potential in the area both as a resort and as a thriving town that would attract industry Through hard work and innovation an all rail route over the mountains was established linking the area with important industrial and trade centers Many people came to Cresson to enjoy the health and recreational benefits of its natural springs and the area's pike afforded the first stage link between Philadelphia and Pittsburgh When the Pennsylvania Railroad established headquarters here with a roundhouse machine shops and branch lines the area entered an era of industrial prosperity In this remarkable volume over 200 rare images are combined with informative and insightful text Early views of the famous Horseshoe Curve the Gallitzin Tunnels and the Mountain House are delightfully intertwined with photographs of homes workplaces churches and the people who made the area prosper and grow Readers visit Loretto a town founded by a Prince Priest Demetrius A Gallitzin Apostle of the Alleghenies and they are transported to Portage and Lilly areas of woodlands that gave rise to numerous sawmills

**Babylon by the Sea** Anne Frances Pulling, 2004 Babylon by the Sea focuses on a seaside community that once rich in salt marshes attracted many of the area's first settlers Originally called Sumpawam it was purchased from Native Americans in 1670 The township was formed from South Huntington and named Babylon in 1802 by Mrs Conklin a staunch advocate of the Bible Babylon includes the villages of Lindenhurst and Amityville and the hamlets of North and West Babylon Copaque Deer Park Farmingdale and Wyandanch This vibrant community evolved from a humble beginning of farming fishing and whaling into an attractive resort community The area was unknown until the nearby barrier beach Fire Island gained prominence as a summer resort The South Shore line of the Long Island Railroad gave the seaside locality impetus when the train reached Babylon in 1867 Hotels and boardinghouses sprang up around town and beside the sea Among the pleasure seekers were many wealthy New Yorkers who came in quest of the invigorating air and relaxation outside the city The trip from New York took just over an hour a trolley would meet the visitors and transport them to the

Great South Bay For many years the South Shore Railroad was the only electrified train and Babylon became the point of convergence for travelers bent on speed The village also witnessed the birth of radio and wireless communication when Marconi contacted ships at sea from Babylon

*Northern Cambria* Anne Frances Pulling,2000 Northern Cambria is not only the upper region of Cambria County it is also the new name of two century old villages Barnesboro and Spangler that have merged to become a millennium entity Located high in the Allegheny Mountains of western Pennsylvania the region was once covered by virgin forests In time the dense acreage led to the development of numerous sawmills from which logs were floated all the way downriver to what was then the lumbering capital of the world Williamsport Miles of scenic farmland were cleared and cultivated Then in the mid 1800s rich coal veins were found beneath the Cambrian hills As word of this discovery spread mines opened throughout the region Within a short time immigrants from far and near streamed into the region to work in the mines Soon rail lines were constructed to serve the coal fields High school graduates became miners and dubbed the mines Dust College Coal had become king

**Altoona** Anne Frances Pulling,2001 Altoona is a city built by the Pennsylvania Railroad Cities usually grow to maturity and then sprout suburbs With Altoona it was the opposite The suburban towns are older than the city and form a larger community In 1849 Altoona was farmland a little hamlet in the mountains of central Pennsylvania The site was chosen by the railroad for locomotive repair shops Situated at the eastern base of the Allegheny Mountains Altoona was destined to become the largest railroad yard in the world The complex occupied 217 acres and included two huge roundhouses Centered around the railroad the city and its population grew In this historic city were various shops that provided employment to early settlers and the old furnaces of the ironmasters Also here were the Logan House hotel where a meeting of governors saved the Union and Cricket Field where great athletes from across the country competed Over the years Altoona has been visited by not only presidents and statesmen but also celebrities of stage and opera It is home to the world famous Horseshoe Curve and to Lakemont Park which has the world s oldest roller coaster
