Happier at Home Gretchen Rubin, 2012-09-13 In the spirit of the 1 New York Times bestseller *The Happiness Project* Gretchen Rubin embarks on a new project to make home a happier place In *The Happiness Project* she worked out general theories of happiness Here she goes deeper on factors that matter for home such as possessions marriage time and parenthood How can she control the cubicle in her pocket How might she spotlight her family's treasured possessions And it really was time to replace that dud toaster And what does she want from her home A place that calms her and energises her A place that by making her feel safe will free her to take risks Also while Rubin wants to be happier at home she wants to appreciate how much happiness is there already So starting in September the new January Rubin dedicates a school year September through May to making her home a place of greater simplicity comfort and love Each month Rubin tackles a different theme as she experiments with concrete manageable resolutions and this time she coaxes her family to try some resolutions as well With her signature blend of memoir science philosophy and experimentation Rubin's passion for her subject jumps off the page and reading just a few chapters of this book will inspire readers to find more happiness in their own lives
