**In Search of the Primitive** Stanley Diamond, 2017-06-21 Anthropology is a kind of debate between human possibilities a dialectical movement between the anthropologist as a modern man and the primitive peoples he studies In Search of the Primitive is a tough minded book containing chapters ranging from encounters in the field to essays on the nature of law schizophrenia and civilization and the evolution of the work of Claude Lévi Strauss Above all it is reflective and self critical critical of the discipline of anthropology and of the civilization that produced that discipline Diamond views the anthropologist who refuses to become a searching critic of his own civilizations as not merely irresponsible but a tool of Western civilization He rejects the associations which have been made in the ideology of our civilization consciously or unconsciously between Western dominance and progress imperialism and evolution evolution and progress

Primitivism and Twentieth-Century Art Jack Flam, Miriam Deutch, 2003-03-27 This is a much needed important collection a goldmine of sources for scholars and students The texts articulate the key Primitivist aesthetic discourses of the period offering crucial insight into the complex and always changing nexus between culture politics and representation Because of the breadth of the materials covered and the controversies they raise this anthology is one of the all too rare volumes that not only will provide reference materials for years to come but also will feature centrally in classroom discussions Suzanne Preston Blier author of African Vodun Art Psychology and Power For almost a century art historians have fretted about the notion of primitivism in the arts This comprehensive in both senses of the word anthology is a peerless source of the history of

responses to works categorized as primitive In its range the book touches upon all the troubling questions formal anthropological political historical that have bedeviled the study of the arts of Oceania Africa and North and South America and provides the grounds at last for intelligent pursuit of keener distinctions I regard this book as a superb contribution to the study of Modern art in fact indispensable Dore Ashton author of *Noguchi East and West* An extraordinarily useful and complete collection of primary documents many translated for the first time into English and almost all unlikely to be encountered elsewhere without serious effort Its five sections each with a lively and scholarly introduction reveal the diverse views of artists and writers on primitive art from Matisse Picasso and Fry to many far less known and sometimes surprising figures The book also uncovers the politics and aesthetics of the major museum exhibitions that gained acceptance for art that had been both reviled and mythologized Recent texts included are all germane This book will be invaluable for any college course on the topic Shelly Errington author of *The Death of Authentic Primitive Art and Other Tales of Progress* An exceptionally valuable anthology of seventy documents most heretofore unavailable in English on the ongoing controversies surrounding Primitivism and Modern art Insightfully chosen and annotated the collection is brilliantly introduced by Jack Flam s essay on the historical progression contexts and cultural complexities of more than one hundred years ideas about Primitivism Rich timely illuminating Herbert M Cole author of *Icons Ideals and Power in the Art of Africa* *Lipstick Traces* Greil Marcus, 1990 Greil Marcus author of *Mystery Train* widely acclaimed as the best book ever written about America as seen through its music began work on this new book out of a fascination with the Sex Pistols that scandalous antimusical group invented in London in 1975 and dead within two years which sparked the emergence of the culture called punk eoel am an antichrist e shouted singer Johnny Rotten ewhere in the world of pop music did that come from Looking for an answer with a high sense of the drama of the journey Marcus takes us down the dark paths of counterhistory a route of blasphemy adventure and surprise This is no mere search for cultural antecedents Instead what Marcus so brilliantly shows is that various kinds of angry absolute demands edemands on society art and all the governing structures of everyday life eseem to be coded in phrases images and actions passed on invisibly but inevitably by people quite unaware of each other Marcus lets us hear strange yet familiar voices of such heretics as the Brethren of the Free Spirit in medieval Europe and the Ranters in seventeenth century England the dadaists in Zurich in 1916 and Berlin in 1918 wearing death masks chanting glossolalia one Michel Mourre who in 1950 took over Easter Mass at Notre Dame to proclaim the death of God the Lettrist International and the Situationist International small groups of Paris ebased artists and writers surrounding Guy Debord who produced blank screen films prophetic graffiti and perhaps the most provocative social criticism of the 1950s and e tm 60s the rioting students and workers of May e tm 68 scrawling cryptic slogans on city walls and bringing France to a halt the Sex Pistols in London recording the savage eoeAnarchy in the U K e and eoeGod Save the Queen e Although the Sex Pistols shape the beginning and the end of the story *Lipstick Traces* is not a book about music it is about a common voice discovered and

transmitted in many forms Working from scores of previously unexamined and untranslated essays manifestos and filmscripts from old photographs dada sound poetry punk songs collages and classic texts from Marx to Henri Lefebvre Marcus takes us deep behind the acknowledged events of our era into a hidden tradition of moments that would seem imaginary except for the fact that they are real a tradition of shared utopias solitary refusals impossible demands and unexplained disappearances Written with grace and force humor and an insistent sense of tragedy and danger Lipstick Traces tells a story as disruptive and compelling as the century itself *New Opportunities for Artistic Practice in Virtual Worlds* Doyle, Denise, 2015-06-26 Although virtual worlds continue to grow in popularity a substantial amount of research is needed to determine best practices in virtual spaces The artistic community is one field where virtual worlds can be utilized to the greatest effect New Opportunities for Artistic Practice in Virtual Worlds provides a coherent account of artistic practices in virtual worlds and considers the contribution the Second Life platform has made in a historical theoretical and critical context within the fields of art and technology This volume is intended for both artists and scholars in the areas of digital art art and technology media arts history virtual worlds and games studies as well as a broader academic audience who are interested in the philosophical implications of virtual spaces *Flight Out of Time* Hugo Ball, 1996-05-06 A key document Indispensable for an understanding of the beginnings of the Dada movement and Dada in Zurich Rudolf Kuenzli Director International Dada Archive In Flight Out of Time one can follow Dada s unfolding and expansion almost day by day Charles Haxthausen coeditor Berlin Culture and Metropolis *Memoirs of a Dada Drummer* Richard Huelsenbeck, 1991-06-06 Huelsenbeck s memoirs bring to life the concerns intellectual artistic and political of the individuals involved in the Dada movement and document the controversies within the movement and in response to it *Stardust Melody* Richard M. Bruce Elder,2015-10-15 This book deals with the early intellectual reception of the cinema and the manner in which art theorists

philosophers cultural theorists and especially artists of the first decades of the twentieth century responded to its advent While the idea persists that early writers on film were troubled by the cinema's lowly form this work proposes that there was another largely unrecognized strain in the reception of it Far from anxious about film's provenance in popular entertainment some writers and artists proclaimed that the cinema was the most important art for the moderns as it exemplified the vibrancy of contemporary life This view of the cinema was especially common among those whose commitments were to advanced artistic practices Their notions about how to recast the art media or the forms forged from those media's materials and the urgency of doing so formed the principal part of the conceptual core of the artistic programs advanced by the vanguard art movements of the first half of the twentieth century This book a companion to the author's previous *Harmony and Dissent* examines the Dada and Surrealist movements as responses to the advent of the cinema
