Art and Symbols of the Occult James Wasserman, 1995-02-01 **Art and Symbols of the Occult** James Wasserman, 1993 Presents 150 examples of symbols and images from alchemy astrology and other occult traditions

Lavinia Fontana's Mythological Paintings Liana De Girolami Cheney, 2020-08-18 This volume investigates emblematic and art historical issues in Lavinia Fontana's mythological paintings Fontana is the first female painter of the sixteenth century in Italy to depict female nudes as well as mythological and emblematic paintings associated with concepts of beauty and wisdom Her paintings reveal an appropriation of the antique a fusion between patronage and culture and a humanistic pursuit of Mannerist conceits Fontana's secular imagery provides a challenging paragone with the male tradition of history painting during the sixteenth century and paves the way for new subjects to be depicted and interpreted by female painters of the seventeenth century

Spirit and Art Van James, 2002 Stumbling through life gazing at the stars we can miss the greatest treasure beneath our feet For the ordinary faculties of our soul how we think how we feel how we act are the rough and fallen forms of our highest spiritual capacities This book shows how six of these common abilities thinking feeling doing loving opening thanking can be intensified infinitely We already think we can learn to think more deeply more livingly We already feel we can learn to train our feeling life away from ourselves so that we feel the world in its richness We already thank we can learn a depth of gratitude that makes life and love intensely real These exercises are simple but demanding By strengthening our capacity to pay attention they allow us to say the right word and have the fresh thought just when we need to They gradually lead us out of the mire of distraction and confusion and allow us to practice what we need most continual presence of mind

The Secret History of Freemasonry Paul Naudon, 2005-03-28 Explores the hidden history of Freemasonry from ancient Rome through the Middle Ages to the present Shows the close connection between medieval masons and the Knights Templar Illustrates the sacred nature of Roman and medieval trade associations Reveals the missing link that connects the lodges of modern Freemasonry to the medieval brotherhoods of builders Historians often make a sharp distinction between the operative Masonry of the Middle Ages and the speculative Masonry of modern times emphasizing that there is no direct bridge connecting the two Modern historians also have scoffed at Masonic claims concerning the close relationship between the Lodge and the Temple Using medieval archives housed throughout Europe historian Paul Naudon reveals that there was in fact a very intimate connection between the Masons and the Knights Templar Church records of medieval Paris show that most if not all the Masons of that time were residents of the Templar censive which allowed them to enjoy great exemptions and liberties from both church and state as a result of the protection afforded them by this powerful order Naudon shows that the origins of Freemasonry can be traced back to the collegia of ancient Rome He traces the evolution of organizations such as the Comacine Masters the Arab *turuqs* and the brotherhoods of builders created under the aegis of the Benedictines and the Knights Templar all of which provide the vehicle for the transmission of a sacred tradition

from pre Christian times to the modern era This tradition is the source of Masonic ritual and symbolism and it provides the missing link in the transformation of the operative Masonry of the medieval cathedral builders to the spiritual principles of modern speculative Masonry **The Kabbalah of the Soul** Leonora Leet,2003-03-25 Leet has erected a new framework for understanding the mechanisms that enable the human soul to reach increasingly higher dimensions of consciousness The Templars and the Ark of the Covenant Graham Phillips,2004-09-13 Offers compelling evidence that the Knights Templar may have taken the Ark of the Covenant to the British Isles Presents scientific evidence affirming the powers attributed to the Ark Traces the Ark and the Stones of Fire from Jerusalem to Jordan and finally to central England where the Knights Templar hid them in the 14th century According to legend the Ark of the Covenant was an ornate golden chest that was both a means of communicating with God and a terrible weapon used against the enemies of the ancient Israelites In order to use it the high priest had to wear a breastplate containing twelve sacred gemstones called the Stones of Fire These objects were kept in the Great Temple of Jerusalem until they vanished following the Babylonian invasion in 597 B C E At the ancient ruins of Petra in southern Jordan Graham Phillips uncovered evidence that 13th century Templars found the Ark and the Stones of Fire and that they brought these treasures back to central England when they fled the persecution of French king Philip the Fair a century later The author followed ciphered messages left by the Templars in church paintings inscriptions and stained glass windows to what may well be three of the Stones of Fire When examined by Oxford University scientists these stones were found to possess odd physical properties that interfered with electronic equipment and produced a sphere of floating light similar to ball lightning The Bible asserts that the Ark had the power to destroy armies and bring down the walls of cities Now Graham Phillips provides scientific evidence that these claims may be true and offers compelling documentation that the Ark may be located in the English countryside not far from the birthplace of William Shakespeare at Stratford upon Avon

The Science of Planetary Signatures in Medicine Jennifer T. Gehl,2017-01-27 A comprehensive guide to the cosmic influences that underlie health and how to apply them for profound health and healing Examines how ancient and modern traditions of healing interconnect through the doctrine of signatures As above so below Reveals how one s astrological chart has implications for personal health and healing Explains how each sign of the zodiac corresponds not only to parts of the body and its chakras but also to specific plants herbs colors and emotions Explores how to use sound healing to harmonize astrological imbalances When we look at the vast and intricate cosmos galaxies planets organisms organs cells molecules atoms there is a fundamental order a music or harmony of the spheres Our cells reflect the images of galaxies seen through our telescopes We are the microcosm reflecting the macrocosm of the heavens Our ancestors understood these patterns and connections between humanity and the universe and developed spiritual and healing traditions in line with these cosmic truths Yet in the 19th century knowledge of these connections was set aside as medical science sought to create the one size fits all approaches to healing that dominate modern medicine today In this comprehensive exploration of the celestial

influences that underlie health and healing Jennifer Gehl with Marc Micozzi examines how ancient and modern traditions of healing interconnect through the doctrine of signatures As above so below She reveals how one's celestial nature the arrangement of the cosmos at the moment of birth has implications for personal health and how each sign of the zodiac corresponds to parts of the body the chakras and specific plants herbs colors and emotions She explains how sound rearranges forms according to the principles of harmony leveraging not only the human self-regulating capacity to restore health but also that of the Earth to restore balance and harmony Also explored are the recurrence of geometric forms in nature and how to apply this knowledge in sound healing and medical astrology Weaving together the threads of ancient science and spirit that formed the original tapestry of medicine Gehl explains how to restore the cosmic foundations of healing for personal planetary and universal health and wellbeing
