Catalog of audiovisual productions United States. Assistant Secretary of Defense (Public Affairs),1984 **Hollywood Vault** Eric Hoyt,2014-07-03 Hollywood Vault is the story of how the business of film libraries emerged and evolved spanning the silent era to the sale of feature libraries to television Eric Hoyt argues that film libraries became valuable not because of the introduction of new technologies but because of the emergence and growth of new markets and suggests that studying the history of film libraries leads to insights about their role in the contemporary digital marketplace The history begins in the mid 1910s when the star system and other developments enabled a market for old films that featured current stars After the transition to films with sound the reissue market declined but the studios used their libraries for the production of remakes and other derivatives The turning point in the history of studio libraries occurred during the mid to late 1940s when changes in American culture and an industry wide recession convinced the studios to employ their libraries as profit centers through the use of theatrical reissues In the 1950s intermediary distributors used the growing market of television to harness libraries aggressively as foundations for cross media expansion a trend that continues today By the late 1960s the television marketplace and the exploitation of film libraries became so lucrative that they prompted conglomerates to acquire the studios The first book to discuss film libraries as an important and often underestimated part of Hollywood history Hollywood Vault presents a fascinating trajectory that incorporates cultural legal and industrial history **Billboard** ,1942-04-18 In its 114th year Billboard remains the world s premier weekly music publication and a diverse digital events brand content and data licensing platform Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music video gaming media digital and mobile entertainment issues and trends Billboard ,1943-08-28 In its 114th year Billboard remains the world s premier weekly music publication and a diverse digital events brand content and data licensing platform Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music video gaming media digital and mobile entertainment issues and trends Billboard ,1942-06-06 In its 114th year Billboard remains the world s premier weekly music publication and a diverse digital events brand content and data licensing platform Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music video gaming media digital and mobile entertainment issues and trends **Fluid Flow in Fractured Porous Media** Yujing Jiang,Richeng Liu,2019-09-30 The fluid flow in fracture porous media plays a significant role in the assessment of deep underground reservoirs such as through CO2 sequestration enhanced oil recovery and geothermal energy development Many methods have been employed from laboratory experimentation to theoretical analysis and numerical simulations and allowed for many useful conclusions This Special Issue aims to report on the current advances related to this topic This collection of 58 papers represents a wide variety of topics including on granite permeability investigation grouting coal mining roadway and concrete to name but a few We sincerely hope that the papers published in this Special Issue will be an invaluable resource for our readers
