First Among Equals Emma Ashford,2025-08-26 A fresh concise roadmap for U S grand strategy in a multipolar world For the past thirty years post Cold War triumphalism and a desire to reshape the world have defined U S foreign policy But the failures of the global war on terror the return of conflict to Europe and growing tensions with China all suggest that this approach to the world is flawed For the United States the country that has ruled the international system largely alone since 1991 this moment is particularly perilous Can policymakers adapt American foreign policy to better fit the twenty first century and in doing so avoid the pitfalls and excesses of the past three decades In this book Emma Ashford proposes a return to a more pragmatic realist set of strategic principles ones better suited for the emerging multipolar world that would pursue narrower U S interests cultivate the capabilities of friendly states and emphasize room for maneuver over rigid alliances In this she provides a valuable counterpoint to today s liberal internationalist consensus as well as a road map for policymakers who seek to change the course of U S foreign policy **First Among Equals** Sybille A. Standardizing Diversity Amy H. Liu,2015-01-14 Languages have deep political significance beyond communication a

common language can strengthen cultural bonds and social trust or it may exacerbate cultural differences and power imbalances Language regimes that emerge from political bargains can centralize power by favoring the language of one ethnolinguistic group share power by recognizing multiple mother tongues or neutralize power through the use of a lingua franca Cultural egoism communicative efficiency or collective equality determines the choice As Amy H Liu demonstrates the conditions surrounding the choice of a language regime also have a number of implications for a nation s economy Standardizing Diversity examines the relationship between the distribution of linguistic power and economic growth Using a newly assembled dataset of all language in education policies in Asia from 1945 to 2005 and drawing on fieldwork data from Malaysia and Singapore Liu shows language regimes that recognize a lingua franca exclusively or at least above all others tend to develop social trust attract foreign investment and stimulate economic growth Particularly at high levels of heterogeneity the recognition of a lingua franca fosters equality and facilitates efficiency Her findings challenge the prevailing belief that linguistic diversity inhibits economic growth suggesting instead that governments in even the most ethnically heterogeneous countries have institutional tools to standardize their diversity and to thrive economically

A History of Preaching Volume 1 Rev. O.C. Edwards JR., 2016-04-25 A History of Preaching brings together narrative history and primary sources to provide the most comprehensive guide available to the story of the church s ministry of proclamation Bringing together an impressive array of familiar and lesser known figures Edwards paints a detailed compelling picture of what it has meant to preach the gospel Pastors scholars and students of homiletics will find here many opportunities to enrich their understanding and practice of preaching Volume 1 contains Edwards s magisterial retelling of the story of Christian preaching s development from its Hellenistic and Jewish roots in the New Testament through the late twentieth century s discontent with outdated forms and emphasis on new modes of preaching such as narrative Along the way the author introduces us to the complexities and contributions of preachers both with whom we are already acquainted and to whom we will be introduced here for the first time Origen Chrysostom Augustine Bernard Aquinas Luther Calvin Wesley Edwards Rauschenbusch Barth all of their distinctive contributions receive careful attention Yet lesser known figures and developments also appear from the ninth century reform of preaching championed by Hrabanus Maurus to the reference books developed in the thirteenth and fourteenth centuries by the mendicant orders to assist their members preaching to Howell Harris and Daniel Rowlands preachers of the eighteenth century Welsh revival to Helen Kenyon speaking as a layperson at the 1950 Yale Beecher lectures about the view of preaching from the pew Volume 2 available separately as 9781501833786 contains primary source material on preaching drawn from the entire scope of the church s twenty centuries The author has written an introduction to each selection placing it in its historical context and pointing to its particular contribution Each chapter in Volume 2 is geared to its companion chapter in Volume 1 s narrative history Ecumenical in scope fair minded in presentation appreciative of the contributions that all the branches of the church have made to the story
