The Synod of Dordrecht 1618-1619 has monumental significance for Reformed churches. While officially assembled for the provinces of the Netherlands, it gathered an international cast of delegates to solidify a pan-European accord on Reformed doctrine. In this book, readers gain valuable historical perspective from Donald Sinnema, the world's leading authority on the Synod of Dordt. Sinnema opens with a helpful overview summarizing the agenda and proceedings of four phases of the synod to capture the scope and magnitude of the gathering. Then Sinnema tackles various aspects of the synod with astounding detail and analysis. You will learn of procedural wranglings, dealings of church and state, how the Belgic Confession and Heidelberg Catechism were involved, disagreements among the delegates, and plenty about the consensus document known as the Canons of Dordt. A standard resource on the synod for years to come.

Biblical Interpretation and Doctrinal Formulation in the Reformed Tradition Arie C. Leder, Richard A. Muller, 2014-04-16

The Reformed tradition is characterized by a rigorous commitment to theological formulation, yet it is equally known for its commitment to rooting its life and practice in the authority of God's Word. While these two commitments are commonly acknowledged, the path from biblical interpretation to doctrinal formulation is often overlooked. Examining a diverse group of thinkers across the chronological and international spectrum of the Reformed tradition, this book demonstrates the depth and intricacies involved in the tasks of exegesis and dogmatic construction, the ways they intersect, and the effect it has on the church.

Brown, Günter Frank, Bruce Gordon, Barbara Mahlmann-Bauer, Tarald Rasmussen, Violet Soen, Zsombor Tóth, Günther Wassilowsky, Siegrid Westphal, 2020-06-08 The Synod of Dort was an international conference of Reformed leaders held in 1618 1619 in the Netherlands It is famous for its so called Five Points of Calvinism which were a refutation of the Five Remonstrances of the followers of Arminius on the nature of divine grace and the perseverance of believers unto eternal salvation As an international Synod Dort made a significant impact on the definition and development of Reformed orthodoxy for decades and centuries to come In countries such as France the Canons of Dort served as a confessional boundary for Reformed orthodoxy and all pastors had to swear allegiance to them Despite its tremendous influence the decisions of the Synod of Dort remain a mystery to many today and are subject to caricatures and stereotypes of an extreme divine determinism and the hijacking of Calvin's pure theology This volume seeks to shed light on various aspects of the Synod of Dort in order to inform the contemporary reader of its proper historical and theological context and its experiential emphases Some leading scholars of post Reformation Reformed thought and the Synod have contributed essays to this work The book is divided into three major sections designed to deliver a better overall perspective on the Synod The first section focuses on the reception of the Canons of Dort among the Reformed churches in France where they were accepted and enforced However there were some internal questions concerns and even objections to the canons which are detailed in these chapters The second section hones in on the theology of the Canons of Dort with particular attention to the doctrines of election and the nature of the

atonement This section also includes an important chapter on the relationship between church and state always a central concern in the Reformation and post Reformation eras Finally the third major section looks at how believers could apply the theology to their daily lives and devotion to Christ These chapters indicate that this was not merely a theological conference but one that had practical and experiential implications as well The book concludes with a chapter on the application of the Synod for believers today

The Church Speaks James I. Cook, 1985

Reformed theology today: Biblical and systematic-theological perspectives Nico Vorster, Herculaas F. (Herrie) van Rooy, Hendrik (Hennie) de Goede, Francois P.

Viljoen, H.J.M. (Hans) van Deventer, C.F.C. (Callie) Coetzee, Benno Zuiddam, Petrus Paulus Kruger, Conrad Wethmar, 2017-11-23 This book contributes to an extensive number of scholarly works produced in 2017 which commemorate the scientific revolution and paradigm shift that occurred in 1517. The year 2017 marks the 500th celebration of the Reformation actuated by Martin Luther when he published what later became known as the Ninety Five Theses on indulgences. The Reformation was a religious, social, cultural, and political event that reshaped the landscape of modern Europe and has had an influence on parts of the world far beyond. This includes the far South such as South Africa where the legacy of the Reformers has moulded institutional and individual lives across boundaries of ethnicity and beliefs. Worldwide celebrations of this quinqucentenary anniversary provide scholars with an opportunity to reflect anew on the consequences and lasting import of the Reformation. This book provides one such a platform by discussing the scientific relevance of Reformed theology specifically with regard to biblical, historical, and systematic theological themes. Comprising a collection of essays by scholars belonging to the Reformed tradition, it aims at examining the historical heritage of the Reformation, the current state of discourse in Reformed theology, as well as the contemporary relevance of a Reformed approach to theology. It contains biblical, historical, theological, and systematic theological perspectives and addresses a variety of issues such as biblical interpretation, text criticism, translation, constructive impulses emanating from classical Reformed thought, Christian freedom, anthropology, and dialogue with non-Reformed traditions. Although the approaches followed are by no means exhaustive, they do provide the reader with some indication of approaches followed in Reformed discourse. Chapters 1-4 pertain to biblical interpretation. A variety of methods are discussed and employed, namely the grammatical-historical, text-immanent, socio-historical, redactional, historical, diachronic, and synchronic approaches. These analyses confirm that biblical interpretation requires a multi-faceted approach to biblical texts. Chapters 5-9 conversely discuss various historical and systematic theological themes. Classical texts from the Reformation, specifically works by Calvin and Luther, are examined and contemporary theological literature is analysed, compared, and evaluated while innovative new ideas are proposed. This book is written in the reformed spirit of *semper Reformanda*. While it enters into dialogue with other traditions such as Pentecostal, Neo-Pentecostal, Roman Catholic, and Lutheran theology, it also exhibits an attitude of self-reflection and self-correction. This contribution does not only affirm the Reformed heritage as a living tradition but it also attempts to invigorate the tradition with innovating new ideas by drawing on classical and recent theological literature. The target audience is mainly Reformed theologians but non-Reformed scholars who are interested in engaging with the Reformed tradition would find this book informative.

The Spirituality of the Heidelberg Catechism Arnold Huijgen, 2015-03-11 At the occasion of the 450th anniversary of the Heidelberg Catechism, an international conference on the spirituality of the Heidelberg Catechism was held at the Theological University Apeldoorn, 21-22 June 2013. This publication offers the plenary papers presented and a selection of the short papers. While the papers center on the Catechism's spirituality, a wide range of topics is covered from

both historical and theological perspectives These topics include the roles of Ursinus and Olevianus controverse theologians anabaptist spirituality comparisons with Calvin s Genevan Catechism and the later Synopsis of Purer Theology Also the distinct spirituality of faith regeneration the trinity the law and prayer in the Heidelberg Catechism are scrutinized besides the idea of mystical union and the art of dying and living Three contributions reflect on the controversy on the Eucharist which has stamped the Heidelberg Catechism From a practical theological perspective the preaching and teaching of the Catechism are discussed as well as the mode of gospel presentation and the permanent character of catechetical instruction So this volume offers a broad range of scholarly perspectives on the Catechism Its spirituality is famous for the first question and answer on the only comfort in life and death That I am not my own but belong body and soul in life and in death to my faithful Savior Jesus Christ
