Handbook of Research Design and Social Measurement Delbert C. Miller, Neil J. Salkind, 2002-01-16 If a student researcher had only one handbook on their bookshelf Miller and Salkind's Handbook would certainly have to be it With the updated material the addition of the section on ethical issues which is so well done that I'm recommending it to the departmental representative to the university IRB and a new Part 4 on Qualitative Methods the new Handbook is an indispensable resource for researchers Dan Cover Department of Sociology Furman University I have observed that most instructors want to teach methodology their way to imbue the course with their own approach Miller Salkind allows one to do this easily The book is both conceptually strong e.g. very good coverage of epistemology research design and statistics and at the same time provides a wealth of practical knowledge scales indices professional organizations computer applications etc In addition it covers the waterfront of methodology Michael L. Vasu Director of Information Technology North Carolina State University A unique and excellent reference tool for all social science researchers and a good textbook for graduate students and senior year undergraduate classes These students are about to enter the real life of research and need a handy and comprehensive tool as a starting point that offers shortcuts for getting into real research projects For a small project the book offers enough information to get the project started For big projects the book is ideal for information on where to look for things and examples Jianhong Liu Department of Sociology Rhode Island College The book considered a necessity by many social science researchers and their students has been revised and updated while retaining the features that made it so useful The emphasis in this new edition is on the tools graduate students and more advanced researchers need to conduct high quality research Features Benefits Provides step by step instruction for students research training by beginning with how to find a creative idea a middle range theory and initial hypothesis and proceeds through design proposal collection and analysis of data followed by writing reporting and publication Section on scales and indices are organized so that readers can quickly locate and find the type of scale or index in which they may be interested All sections are now followed by useful and well considered reference sections so that readers can read more about each topic Includes updated coverage on new scales internal and external validity and new analytic techniques with extensive references on each Presents extensive coverage of how to prepare manuscripts for publication including a list of all journals covered by Sociological Abstracts along with the editorial office address and URL for each entry Discusses the importance of policy research with presentation and discussion of specific models as an adjunct

to both applied and basic research techniques Provides extensive coverage of funding opportunities including those offered by the National Institutes of Health the National Science Foundation and a directory of private funding sources including relevant contact information New to this edition New Part 4 by John Creswell and Ray Maietta provides a comprehensive introduction to qualitative methods including a review of existing computer applications for collecting and analyzing data New and more current reviews and commentaries have replaced dated or no longer relevant excerpts Thousands of new references on the assessment of important sociological variables as well as references to such topics as statistical analysis computer applications and specific topics Thoroughly updated information on the use of computers and online research techniques including beginning and intermediate material about the Internet and its use by the modern research scientist Coherent and thoughtful review of the most popular statistical analysis software packages New guidelines and discussion of ethical practices in social and behavioral science research including extensive coverage of institutional review board procedures and activities Expansion of social indicators to include international coverage Plus there is an extensive and well organized table of contents with four levels of headings and for the first time in the history of the book a comprehensive index

Journal of Narrative and Life History ,1995 Social Anthropology in the Arab World Abdullah Alajmi,Daniele Cantini,Irene Maffi,Imed Melliti,2025-08-01 There are ongoing efforts in anthropology to decolonise its history and give fairer space to marginalised traditions This book examines the history and institutionalisation of anthropology in the Maghreb the Mashreq and the Gulf in an open and collaborative manner and from various perspectives Its primary focus is two fold first to reorient the anthropological focus towards studies conducted in the region particularly on the conditions conducive to the institutionalisation of anthropological knowledge second to shed light on anthropological studies in languages other than English offering different theoretical and epistemological perspectives SAGE Biographical Research

John Goodwin,2012-06-25 Biographical research may take a range of forms and may vary in its application and approach but has the unified and coherent aim to give voice to individuals The central concern of this collection is to assemble articles from sociology social psychology education health criminology social gerontology epidemiology management and organizational research that illustrate the full range of debates methods and techniques that can be combined under the heading biographical research Volume One Biographical Research Starting Points Debates and Approaches explores the different biographical methods currently used while locating these within the history of social science methods Volume Two Biographical Interviews Oral Histories and Life Narratives focuses on the more established interview based biographical research methods and considers the analytical strategies used for interview based biographical research Volume Three Forms of Life Writing Letters Diaries and Auto Biography considers the value of data contained within letters diaries and auto biography and illustrates how this data has been analyzed to reveal biographies and their social context Volume Four Other Documents of Life Photographs Cyber Documents and Ephemera focuses on the other human documents and objects

White Ethnicity Yiorgos Anagnostou,2009-11-15 In *Contours of White Ethnicity* Yiorgos Anagnostou explores the construction of ethnic history and reveals how and why white ethnics selectively retain rework or reject their pasts Challenging the tendency to portray Americans of European background as a uniform cultural category the author demonstrates how a generalized view of American white ethnics misses the specific identity issues of particular groups as well as their internal differences Interdisciplinary in scope *Contours of White Ethnicity* uses the example of Greek America to illustrate how the immigrant past can be used to combat racism and be used to bring about solidarity between white ethnics and racial minorities Illuminating the importance of the past in the construction of ethnic identities today Anagnostou presents the politics of evoking the past to create community affirm identity and nourish reconnection with ancestral roots then identifies the struggles to neutralize oppressive pasts Although it draws from the scholarship on a specific ethnic group *Contours of White Ethnicity* exhibits a sophisticated interdisciplinary methodology which makes it of particular interest to scholars researching ethnicity and race in the United States and for those charting the directions of future research for white ethnicities *The SAGE Handbook of Qualitative Methods in Health Research* Ivy Bourgeault,Robert Dingwall,Ray de

Vries,2010-08-19 The Sage Handbook of Qualitative Methods in Health Research is a comprehensive and authoritative source on qualitative research methods The Handbook compiles accessible yet vigorous academic contributions by respected academics from the fast growing field of qualitative methods in health research and consists of A series of case studies in the ways in which qualitative methods have contributed to the development of thinking in fields relevant to policy and practice in health care A section examining the main theoretical sources drawn on by qualitative researchers A section on specific techniques for the collection of data A section exploring issues relevant to the strategic place of qualitative research in health care environments The Sage Handbook of Qualitative Methods in Health Research is an invaluable source of reference for all students researchers and practitioners with a background in the health professions or health sciences **Doing Cultural**

Anthropology Michael V. Angrosino,2006-08-10 As a practical bridge between the classroom and the field this down to earth hands on collection offers an impressive range of insightful focused vignettes about cultural research that will jumpstart

students thinking about the practice of anthropology Reflecting the contributions of nearly two dozen practicing social scientists each clearly written chapter of *Doing Cultural Anthropology* covers the fundamentals of a different data collection technique Following an overview of a particular ethnographic method each author describes his or her own research project and shows how that technique is utilized Learning by doing remains the thrust of the latest edition which includes two new chapters plus significant revisions to five of the original contributions Each chapter ends with suggestions for student projects that promote hands on exposure to what ethnographers actually do Readers are given just enough information to appreciate the technique and to practice it for themselves *Auto/ethnography* Deborah Reed-Danahay, 2021-01-07 In departing from the traditional stance taken by anthropologists who study others ethnographically this timely book explores forms of self inscription on the part of both the ethnographer and those others who are studied Informed by developments in postmodernism postcolonialism and feminism this is an original contribution to the growing dialogue across disciplinary boundaries The chapters build upon recent reconsiderations of the uses and meaning of personal narrative to examine the ways in which selves and social forms are culturally constituted through biographical genres Ethnic autobiography self reflexivity in ethnography and native ethnography raise provocative questions about a range of issues for the contemporary scholar authenticity of voice ethnographic authority and the degree to which autoethnography constitutes resistance to hegemonic bodies of discourse Examined here in a variety of cultural and political contexts writing about the self offers challenging insights into the construction and transformation of identities and cultural meanings **Biography** ,1993
