Doc Memories From A Life In Public Service:

Surgeon General's Warning Mike Stobbe, 2014-06-26 What does it mean to be the nation's doctor In this engaging narrative journalist Mike Stobbe examines the Office of the U S Surgeon General underlining how it has always been an anomaly within the federal government with a unique ability to influence public health But now Surgeon Generals compete with other high profile figures like the Secretary of Health and Human Services and the Director of the Centers for Disease Control and Prevention Furthermore in an era of declining budgets when public health departments eliminate tens of thousands of jobs some argue that a lower profile and ineffective surgeon general is a waste of money Tracing stories of how surgeons general such as Luther Terry C Everett Koop and Jocelyn Elders created policies and confronted controversy in response to issues like smoking AIDS and masturbation Stobbe highlights how this office is key to shaping the nation's health and explains why its decline is harming our country's well being

Desperate Surgery in the Pacific War Thomas Helling, M.D., 2017-01-25 Caring for the wounded in the World War II Pacific Theater posed serious challenges to doctors and surgeons The thick jungles remote atolls and heavily defended Japanese islands of the Pacific presented dangers to medical personnel never before encountered in modern warfare as did the devastating new kamikaze attacks Sophisticated treatments including complex surgery were by necessity far removed from the fighting requiring front line doctors to do the minimum often under fire to stabilize patients until they could be evacuated damage control it would later be called Navy doctors responsible for thousands of sailors aboard fleets in battle found caring for the wounded daunting or nearly impossible Yet to save lives medical resources had to be kept as close as possible to the action This book systematically details the efforts and innovations of the doctors and surgeons who worked to preserve life under extreme peril

A Century of Eugenics in America Paul A. Lombardo, 2011-01-06 This volume assesses the history of eugenics in the United States and its status in the age of the Human Genome Project The essays explore the early support of compulsory sterilization by doctors and legislators

Statesmen and Mischief Makers: Scott Crass, 2015-08-31 Historically when sweeping policy changes or legislation of indelible consequence are signed into law Presidents receive the credit There is a good reason for that Without the Chief Executive putting his pen to paper these advancements would have nary a chance of becoming reality In most cases though a President's signature is simply the culmination of a long fight to make an idea or actual proposal a reality In fact quite often it is members of Congress who nurture proposals from inception to the President's desk Like a train leaving its first station the legislative process often starts with a handful of people on board until slowly a few more passengers hop on at each stop and before long there is a full car with people standing in the aisles Often times a bill becoming a law is no different

Bowen, William Du Bois, 2000-09-22 Being governor is like no other job although it has similarities to being a country doctor Like a physician a governor is on call 24 hours a day seven days a week asleep awake eating in the shower traveling in a car or at a meeting There are emergencies so he lives with unpredictability As earlier noted many state government activities involve health and medical questions areas in which I have expertise There the similarities end There is nothing like being governor not even being a member of a president's Cabinet from Doc No Indiana governor in the 20th century has been more popular or successful than Otis R Bowen In his long awaited autobiography Doc writes in rich detail about the hard work and persistence that got him into and through medical school His commitment to serving people made him a beloved family physician in Bremen a respected state legislator and legislative leader and one of the most esteemed governors in Indiana history Otis Bowen grew up poor in Fulton County but was rich in the things that matter With the support of his parents siblings teachers and friends he pursued a dream of becoming a family physician making many sacrifices to finance his way through medical school As a newly minted doctor Bowen first practiced medicine in the Army He describes his experience on the field of combat in the Pacific during the last major battle of World War II and tells of his life after coming home from the war to serve the medical needs of a small northern Indiana community We learn too of his personal life about his own family and his first two wives Beth Bowen and Rose Bowen the loneliness and emptiness he endured after they died painfully of cancer and how his third wife Carol has filled that void An almost accidental entry into politics and public life led Bowen to the capitals of Indiana and the nation Drafted as a candidate for Marshall County coroner in 1952 Bowen moved up from that office to become a member of the Indiana House of Representatives to House leadership as Minority Leader and Speaker to the governor's office in 1973 and to President Ronald Reagan's cabinet in 1985 The first person to serve eight consecutive years as Indiana's Governor Bowen candidly explores the challenges crises and triumphs of that period In an equally candid way he recounts his efforts and frustrations as Secretary of the U S Department of Health and Human Services As warm down to earth and genuine as its subject Doc will be welcomed by all Hoosiers no matter their political stripe *Traces of Indiana and Midwestern History*, 2001 **America, History and Life**, 2002 Article abstracts and citations of reviews and dissertations covering the United States and Canada *The Life and Public Services of Abraham Lincoln, Sixteenth President of the United States* Henry Jarvis Raymond, 1865 **Life and Public Services of Abraham Lincoln** David Brainerd Williamson, 1864 *The Life and Public Services of Abraham Lincoln, Sixteenth President of the United States Together with His State Papers...* Henry J.
