Human Rights Discourse in a Global Network Lena Khor, 2016-05-13 In her innovative study of human rights discourse Lena Khor takes up the prevailing concern by scholars who charge that the globalization of human rights discourse is becoming yet another form of cultural, legal and political imperialism imposed from above by an international human rights regime based in the Global North To counter these charges she argues for a paradigmatic shift away from human rights as a hegemonic immutable and ill-defined entity toward one that recognizes human rights as a social construct comprised of language and of language use She proposes a new theoretical framework based on a global discourse network of human rights supporting her model with case studies that examine the words and actions of witnesses to genocide Paul Rusesabagina and humanitarian organizations Doctors Without Borders She also analyzes the language of texts such as Michael Ondaatje's *Anil's Ghost* Khor's idea of a globally networked structure of human rights discourse enables actors textual and human who tap into or are linked into this rapidly globalizing system of networks to increase their power as speaking subjects and in so doing to influence the range of acceptable meanings and practices of human rights in the cultural sphere Khor's book is a unique and important contribution to the study of human rights in the humanities that revitalizes viable notions of agency and liberatory network power in fields that have been dominated by negative visions of human capacity and moral action

The Anglophone Question and Postcolonial Hegemony in Cameroon Lyombe Eko, 2025-01-15 The Anglophone Question Postcolonial Hegemony in Cameroon The Past that Did Not Pass is a comprehensive collection of essays and analyses that explore the historical colonial postcolonial legal and international relations aspects of the politico cultural and linguistic crisis between the English speaking former British Southern Cameroons now divided into the Northwest and Southwest regions and the French speaking majority of the former French Cameroon la R publique du Cameroun This conflict has shaken Cameroon to its core since the 1990s and led to an armed conflict between the government of Cameroon and Anglophone non state armed groups The premise of this book is that the Anglophone Question the problematic situation of the muted English and Pidgin speaking minority in French Cameroon is one of the unfinished items of business of World War I and the Treaty of Versailles of 1919 that resolved the conflicts of that great conflict The Anglophone conflict has been exacerbated by the authoritarian republican chieftaincy that was installed in Cameroon after independence and reunification This neo patrimonial kleptocratic regime of Cameroon has with the support of its international partners emphasized the argument of force rather than the force of argument thereby creating yet another frozen African conflict The Anglophone Question cannot

vanish by some political maneuver as Cameroon's senile nonagenarian president has done over the decades with his ossified knee excruciatingly painful on the nation's neck That is my takeaway after reading this insightful well argued exhaustively researched highly intellectualized yet practical compendium of chapters that bear an unapologetic witness to the horrific Anglophone Problem I celebrate the authors fearlessness articulation and lucid presentation as the establishment continues to seal its ears with candle wax I'll reverse President Paul Biya's mantra and say Rule 1 There is an Anglophone Problem Rule 2 When in doubt consult Rule 1 Uche Onyebadi PhD Texas Christian University Texas USA [Encyclopedia of World Poverty](#) Mehmet Odekon,2006 Provides extensive and current information as well as insight into the contemporary debate on poverty and contains over 800 original articles written by more than 125 renowned scholars [War crimes and politics of terror in Chechnya 1994-2004](#) Laurence Binet,2016-06-02 The War crimes and politics of terror in Chechnya 1994 2004 case study describes the constraints questions and dilemmas experienced by MSF while speaking out during the two Russian Chechen wars and the following years of normalization Was speaking out the right thing to do with regard to Russia a power with a veto at the UN Security Council and a tradition of propaganda control of the public arena Was it realistic to rely on raising the awareness of other UN member states via their public's opinion In a context of terror when dealing with a regime in denial of the reality of a conflict was it useful and was it up to MSF to call for having this situation qualified as war Should MSF take into account the possibility of a causal link between instances of its public speaking out and the security incidents involving its staff When one of its staff members was taken hostage should MSF speak out in the media to create visibility that affords him/her some protection or conversely remain as discrete as possible so as to avoid a rise in his/her market value Should MSF publically point out responsibilities negligence or even complicity of the government on which soil the kidnapping had occurred thereby taking active steps to secure the hostage's release or should it refrain from such a discourse so as to avoid the opposite effect Should MSF continue to publically denounce the violence inflicted on people in the region at the risk of radicalising those parties to the conflict responsible for the kidnapping and place the hostage's life in danger **Global Health 101** Richard Skolnik,2015-08-07 Rated by an independent panel as the best introductory Global Health text for undergraduates Global Health 101 Third Edition is a clear concise and user friendly introduction to the most critical issues in global health It illustrates key themes with an extensive set of case studies examples and the latest evidence Particular attention is given to the health development link to developing countries and to the health needs of poor and disadvantaged people The Third Edition is a thorough revision that offers an extensive amount of new and updated information while maintaining clarity simplicity and ease of use for faculty and students Offering the latest data on the burden of disease the book presents unique content on key topics that are often insufficiently covered in introductory materials such as immunization and adolescent health **Re-envisioning Peacekeeping** François Debrix,1999 Kritisk gennemgang af de seneste FN interventioner i Irak Somalia og Bosnien hvor man let var at skabe international orden Den Nye

Verdensorden under indtryk af fredelig intervention og humanitær bistand Humanitarianism from Below Alejandro Olayo-Méndez, 2025-08-05 Challenges the definition of humanitarian aid Aside from being one of the most important migration corridors in the world Mexico is becoming an immigrant destination itself with more and more migrants deciding or needing to stay in the country after failing to enter the United States In the absence of state aid migrant shelters have emerged as an informal welfare system for migrants asylum seekers refugees and deportees in Mexico Largely run by faith based humanitarian organizations these shelters have grown significantly in recent years Humanitarianism from Below examines the significance of these casas de migrantes migrant shelters in the migration process in Mexico The book also reviews the role of faith based humanitarian organizations whose engagement with migrants is perceived more as charity work than professional humanitarian work The volume argues that faith based humanitarian organizations work challenges traditional understandings of what counts as humanitarian aid It makes the case that in order to understand the full ecology of migration we need to understand not only how large organizations like the Red Cross work but also how these smaller and local entities with fewer resources interact with migrants on their journeys Most migration research tends to focus on its impact within home countries or in destination contexts rarely focusing on the actual migration process including the interactions that influence the course of the migration journey itself In conducting this research Alejandro Olayo Méndez traveled along migrant routes several times in order to gain knowledge about how migrants move and how they interact with the migrant shelters He offers a detailed look at the experiences and challenges of casas de migrantes in Mexico situating these faith based shelters as an integral part of Mexico's humanitarian ecosystem The Nobel Peace Prize and the Laureates Irwin Abrams, 2001 Presents brief biographical portraits of the 106 recipients of the Nobel Peace Prize during its 100 year history **Violence against Kosovar Albanians, NATO's intervention 1998-1999** Laurence Binet, 2016-05-18 The Violence against Kosovar Albanians NATO's intervention 1998 1999 case study describes the constraints and dilemmas facing Médecins Sans Frontières teams that witnessed a process of terror and expulsion which they described as the deportation of Kosovar Albanians by Serb forces It also described MSF's reaction to NATO aerial bombings and the control exercised over the refugee camps by this party to the conflict Should MSF denounce the violence being committed against Kosovars at the risk of being excluded from access to these people and of encouraging the NATO intervention Should MSF take a stance on the NATO intervention What sort of relationship should be established with countries that were committed either militarily such as NATO members or politically Greece in the conflict and their civil societies Should MSF raise the alarm about the absence of the UNHCR in the management of the refugee camps at the risk of reinforcing this marginalization Is it justifiable to carry out an assessment mission that sacrifices the principle of operational independence by invoking an interpretation of the principle of impartiality that implies a responsibility to assist victims on both sides of a conflict Nonprofit Management: Principles and Practice Michael J.
