Doctrines Of Religious Communities:

The Diversity of Religions J. A DiNoia, 1992 DiNoia approaches the debate in the theology of religions with a fresh lucid critical and informed mind This book is timely provocative and explores new territories and recasts old debates in a fresh and intelligent manner It will appeal to philosophers theologians indologists and those concerned with the meeting of Christianity and the world religions Gavin D Costa University of Bristol

The Genesis of Doctrine Alister E. McGrath, 1997-05 Alister E McGrath begins his book by critically engaging the views of George Lindbeck on doctrine before moving on to present a fresh understanding of the nature and function of Christian doctrine within the church Particular attention is paid to the way in which doctrine acts as a demarcator between communities of faith providing important insights into contemporary ecumenical debates McGrath also explores the crucial issue of the authority of the past in Christian theology focusing especially on how doctrine serves to maintain continuity within the Christian tradition The Genesis of Doctrine represents an exploration of a middle way in relation to the significance of Christian doctrine rejecting both those approaches that insist on the uncritical repetition of the doctrinal heritage of the past and those that disallow the authority of past doctrinal formulations The book concludes by considering whether doctrine has a future within the church answering this question in the affirmative on the basis of a number of important theological and cultural considerations

Product Description Explores the crucial issue of the authority of the past in Christian theology focusing especially on how doctrine serves to maintain continuity within the Christian tradition

Theology as an Ecclesial Discipline J Augustine Di Noia, 2024-07 The practice of theology depends in part on asking the right questions Not any sorts of questions not idle questions nor questions framed entirely by our own experience or the great issues of our times but good theological questions focus the mind of the inquirer on the endlessly intelligible self revelation of God to which the Sacred Scripture bears witness Our own questions and the great questions of our times have a place as long as they are purged of the ideological outlooks that can suppress or obscure the questions that the sacra pagina itself presses upon us Among the essays gathered in Theology as an Ecclesial Discipline the first set directs the reader s attention precisely to questions that trace the distinctive features of the nature of theology itself What are the principles and scope of the field of theology as practiced by believers in an ecclesial context Are historical critical methods of exegesis compatible with a properly theological interpretation of the Scriptures How can theology have a place in the academy as an intellectual discipline if the Magisterium seems to limit the scope of its inquiries The second part considers a range of questions that preoccupy contemporary Protestant and Catholic theologians Can the names Father Son and Holy Spirit be replaced by more inclusive titles in doctrine and liturgy By placing humanity at the center of theological investigation is Christian humanism distinct from secular humanism How can we be guilty of a sin committed by our first ancestors Can the Christian vision of procreative human sexuality survive the cultural onslaught of the sexual revolution The questions in the third part of this book arise from Catholic dialogue with non Christian religions or with other Christian

communities or with conceptions of a cosmos in ecological crisis Is there a future for Catholic theology of religions How can people who do not believe in Christ be saved Is the cosmos a safe environment for human beings or alternatively how can the cosmos be protected from human depredation Can the concept of church stretch far enough to encompass Christian communities that see themselves as strictly local and independent bodies Christian Doctrine Mike Higton,2024-01-31

Providing an accessible one volume guide to Christian doctrine this is a thorough re write of the first edition Since the original was published many students and teachers of doctrine in theological colleges and beyond have been learning to take more seriously the global context of their work and to recognise the difference made by facets of their identities and social locations like race class gender and disability In this edition Mike Higton seeks to do justice to this learning and invites readers to understand doctrine as an unfinished conversation between many different voices Fully updated for clarity and yet retaining its role as a rigorous introduction to its subject the book includes new interruptions which introduce voices that question the book s arguments and offer new directions for readers to pursue **A Companion to Philosophy of Religion**

God's Wounds: Hermeneutic of the Christian Symbol of Divine Suffering, Volume One Jeff B. Pool,2009-01-01 This book constitutes the first volume of a three volume study of Christian testimonies to divine suffering God s Wounds Hermeneutic of the Christian Symbol of Divine Suffering Divine Vulnerability and Creation This study first develops an approach to interpreting the contested claims about the suffering of God Thus the larger study focuses its inquiry into the testimonies to divine suffering themselves seeking to allow the voices that attest to divine suffering to speak freely to discover and elucidate the internal logic or rationality of this family of testimonies rather than defending these attestations against the dominant claims of classical Christian theism that have historically sought to eliminate such language altogether from Christian discourse about the nature and life of God Through this approach this volume of studies into the Christian symbol of divine suffering then investigates the two major presuppositions that the larger family of testimonies to divine suffering normally hold an understanding of God through the primary metaphor of love God is love and an understanding of the human as created in the image of God with a life though finite analogous to the divine life the imago Dei as love When fully elaborated these presuppositions reveal the conditions of possibility for divine suffering and divine vulnerability with respect to creation

The Past, Present, and Future of Theologies of Interreligious Dialogue Terrence Merrigan,John Friday,2017 A collection of thirteen essays which reflect on the problematic relationship between religious diversity and interreligious dialogue by examining key issues that arise from attempting to do justice to the doctrinal tradition of Christianity **Ethnography of**

Religious Beliefs and Social Orders in Ethnic Areas Liming Zhang, 2025-07-28 This book presents a fascinating study of the religion of minority groups living in rural areas in Yunnan province in the early twenty first century and how they use religious rituals to show their own nationality and spiritual culture By exploring these minority groups e g the Dai Bulang and De ang the book makes a major contribution to our understanding of the relationship between religion and social functions and of the ways in which globalization and modernity are experienced at the most personal level It provides valuable insights into how minority people negotiate sacred secular demands and requirements how they experience a sense of satisfaction and comfort in Buddhist temples and how that experience shapes their sense of identity worldview values and relations with others In closing the book gives a voice to the experiences of Buddhists who are one of the most important and yet least visible signs of religion freedom in China s reform processes It offers a unique guide for all readers who are interesting in oriental studies and an ideal reference book for Anthropology and Buddhism courses at colleges and universities

Freedom of Religion and Belief: A World Report Kevin Boyle, Juliet Sheen, 2013-03-07 This report the first of its kind yet to be published provides a detailed and

impartial account of how the individual's right to hold beliefs is understood protected or denied throughout the world. Consisting of accessible short edited entries based on drafts commissioned from experts living in the countries surveyed, it exposes persecution and discrimination in virtually all world regions. The book provides an analysis of United Nations standards of freedom of religion and belief covers over fifty countries divided into regions and introduced by a regional overview covers themes including the relationships between belief groups and the state, freedom to manifest belief in law and practice, religion and schools, religious minorities, new religious movements, the impact of beliefs on the status of women and the extent to which conscientious objection to military service is recognised by governments, draws on examples of accommodation and co-operation between different religions and beliefs and identifies the main challenges to be overcome if the diversity of human conviction is to be established.

Liberalism Versus Postliberalism John Allan Knight, 2013. The book provides an original analysis of the central philosophical differences between liberal and postliberal theology. Knight argues that important developments in philosophy of language reveal serious problems with the central methodological commitments of liberalism and postliberalism and suggest ways in which the divide can be bridged.

State Security Regimes and the Right to Freedom of Religion and Belief Karen Murphy, 2013-01-25. The question of to what extent manifestations of religious beliefs should be permitted in the European public sphere has become a salient and controversial topic in recent years. Despite the increasing interest, however, debates have rarely questioned the conventional wisdom that an increase in the range of security measures employed by a government inevitably leads to a decrease in the human rights enjoyed by individuals. This book analyses the relationship between state security regime changes and the right to religious freedom in the EU. It presents a comparative analysis of the impact these regime changes have had on the politics, policies and protections of religious freedom across the EU member states in the post 2001 environment. The book provides a timely investigation into the role of national legislation, the European Court of Human Rights and societal trends in the protection of religious freedom and in so doing demonstrates why the relationship between state security and religious freedom is one of the most socially significant challenges facing policymakers and jurists in Europe at the present time.
