Documentation For Ancient Arabia Part 1 Chronological Framework:

Documentation For Ancient Arabia Kenneth Anderson Kitchen, 1994 This first volume in the World of Ancient Arabia Series presents an entirely fresh treatment of the vexed problems of the dating of the kingdoms of ancient pre Islamic Arabia offering a new minimal chronology for the whole peninsula In Part One the first chapter refines recent work on SW Arabian dates for the first six centuries AD and lists documented dates for the Himyarite and parallel eras The second chapter links up Egypt and Lihyan and the SW kingdoms of Main Saba etc minimally within c350 0 BC **The Books of Kings** André Lemaire, Baruch Halpern, Matthew Joel Adams, 2010 This collaborative commentary on or dictionary of Kings explores cross cutting aspects of Kings ranging from the analysis of its composition historically regarded to its transmission and reception Ample attention is accorded sources figures and peoples who play a part in the book The commentary deals with Kings treatment in translation and role in later ancient literature While our comments do not proceed verse by verse the volume furnishes guidance from contributors highly qualified to advance contemporary discussion on the book s historical background its literary intentions and characteristics and on themes and motifs central to its understanding both of itself and of the world from which it arose This volume functions as a meta commentary offering windows into the secondary literature but assembling data more fully than is the case in individual commentaries **Documentation for Ancient Arabia:**

Chronological framework & historical sources Kenneth Anderson Kitchen, 1994 This first volume in the World of Ancient Arabia Series presents an entirely fresh treatment of the vexed problems of the dating of the kingdoms of ancient pre Islamic Arabia offering a new minimal chronology for the whole peninsula In Part One the first chapter refines recent work on SW Arabian dates for the first six centuries AD and lists documented dates for the Himyarite and parallel eras The second chapter links up Egypt and Lihyan and the SW kingdoms of Main Saba etc minimally within c350 0 BC **Judges 1** Mark S. Smith, Elizabeth M. Bloch-Smith, 2021-11-23 This groundbreaking volume presents a new translation of the text and detailed interpretation of almost every word or phrase in the book of Judges drawing from archaeology and iconography textual versions biblical parallels and extrabiblical texts many never noted before Archaeology also serves to show how a story of the Iron II period employed visible ruins to narrate supposedly early events from the so called period of the Judges The synchronic analysis for each unit sketches its characters and main themes as well as other literary dynamics The diachronic redactional analysis shows the shifting settings of units as well as their development commonly due to their inner textual reception and reinterpretation The result is a remarkably fresh historical critical treatment of 1 1 10 5 Early Islam Guillaume Dye, 2023-03-20 In recent decades new paradigms have radically altered the historical understanding of the Qur n and Early Islam causing much debate and controversy This volume gathers select proceedings from the first conference of the Early Islamic Studies Seminar These studies explore the history of the Qur n and of formative Islam with the methodological tools set forth in Biblical New Testament and Apocryphal studies as well as the approaches used in the study

of Second Temple Judaism Christian and Rabbinic origins It thereby contributes to the interdisciplinary study of formative Islam as part and parcel of the religious landscape of Late Antiquity **Imperialism in Medieval History I** P.F.M.

Fontaine,2022-10-04 **1994** Massimo Mastrogregori,2013-05-08 Annually published since 1930 the International bibliography of Historical Sciences IBOHS is an international bibliography of the most important historical monographs and periodical articles published throughout the world which deal with history from the earliest to the most recent times The works are arranged systematically according to period region or historical discipline and within this classification alphabetically The bibliography contains a geographical index and indexes of persons and authors **On Fiction and Adab in Medieval Arabic Literature** Philip F. Kennedy,2005 Proceedings from a workshop in medieval Arabic literature April 21 22 2000 **Rituals of Islamic Monarchy** Andrew Marsham,2009-05-31 This fascinating history explores the ceremony of the oath of allegiance to the caliph from the time of the Prophet Muhammad until the fragmentation of the caliphate in the late ninth and tenth centuries The study of royal rituals of accession and succession in Christian Rome Byzantium and the early Medieval West has generated an extensive literature This has however remained unexplored in scholarship on the Islamic world This book redresses that by examining the ceremonial of accession to the caliphate in early Islam covering the following aspects of the subject The place of ritual in political practice Changes and continuities in that practice The problem of how best to understand accounts of ritual It also offers a contribution to major current debates in Islamic history the development of Arab Muslim identity and the formation of the Islamic state It presents an accessible discussion of royal ritual in early Islam which situates developments in the Islamic world in a late antique and early medieval context adding an important comparative context to the book *The Arabs in Antiquity* Jan Retso,2013-07-04 The history of the Arabs in antiquity from their earliest appearance around 853 BC until the first century of Islam is described in this book It traces the mention of people called Arabs in all relevant ancient sources and suggests a new interpretation of their history It is suggested that the ancient Arabs were more a religious community than an ethnic group which would explain why the designation Arab could be easily adopted by the early Muslim tribes The Arabs of antiquity thus resemble the early Islamic Arabs more than is usually assumed both being united by common bonds of religious ideology and law *The Queens of the Arabs During the Neo-Assyrian Period* Ellie Bennett,2024-05-03 The title Queen of the Arabs is applied in Neo Assyrian texts to five women from the Arabian Peninsula These women led armies offered tribute and held religious roles in their communities from 738 to approximately 651 BCE This book discusses what the title meant to the women who carried it and to the Assyrians who wrote about them Whereas previous scholarship has considered the Queens of the Arabs in relation to the military and economic history of the Neo Assyrian empire Eleanor Bennett focuses on identity using gender theory to locate points of the women s alterity in Assyrian sources and to analyze how Assyrian cultural norms influenced the treatment of the Queens of the Arabs This kind of analysis shows how Assyrian perceptions of the Queens of the Arabs and of

Arabian populations more generally changed over time As the Queens of the Arabs were located on the periphery of the Assyrian Empire Bennett incorporates data from the Arabian Peninsula The shift from an Assyrian lens to an Arabian one highlights inaccuracies in the Assyrian material which brings into focus Assyrian misunderstandings of the region The Arabian Peninsula also offers comparative models for the Queens of the Arabs based on Arabian cultures
