Documents And Materials Relating To The Eve Of The:

Documents on German Foreign Policy, 1918-1945, from the Archives of the German Foreign Ministry Germany. Auswärtiges Amt,1956 **The Diplomats, 1919-1939** Gordon A. Craig,Felix Gilbert,2021-05-11 This classic account of interwar diplomacy examines the curious fate of the diplomat the honest man sent to lie abroad for the good of his country in the capitals of a darkening Europe These men ambassadors in the field and officials in the Foreign Office worked against time in a world that witnessed the complete reorganization of the European system amid the onslaught of totalitarianism Leading experts investigate the diplomatic history of these years through the eyes of those entrusted with the extraordinarily delicate task of conducting the fateful negotiations that effect national policy Drawing on government archives European memoirs and diplomatic studies this book is both an absorbing history of twenty years of crisis and a searching analysis of the role of diplomacy in the modern age **Documents on German Foreign Policy, 1918-1945: The aftermath of Munich, Oct. 1938-March 1939** Germany. Prelude to War P.A.M. Esch,2012-12-06 The scope of this book is confined to the international aspects of the Spanish civil war It is primarily a study in international relations at a crucial period in the inter war years The separate military campaigns of the civil war itself the political situation in Spain and the historical forces that gave rise to the conflict have only been sketched in the opening chapters as a background to the diplomatic relations which took place among the European nations as a result of the civil war The history and causes of the conflict itself are dealt with fully and authoritatively in the publications of scholars such as Gerald Brenan Salvador de Madariaga E Allison Peers and Franz Borkenau in England Alfred Mousset and Robert Brasillach in France and E J Hughes in the United States It is the most serious handicap in dealing with contemporary history that it is impossible to write a definitive work because all the necessary documentation has not appeared Nevertheless many new facts have emerged in this study on the basis of material published in the last ten years Stories that were thought to be true at the time can now be supported or refuted by documentary evidence There is proof in Serrano Suñer's memoirs for example relative to the plotting of the civil war by the Spanish generals which corroborates the account of General Mola's secretary Jose Ibarren **Materials Relating to Soviet Doctrines and Practices in International Law** Evsey S. Rashba,1953 **Documents and Materials Relating to the Eve of the Second World War** Ministry of Foreign Affairs of the USSR.,1948 **The Change in the European Balance of Power, 1938-1939: The Path to Ruin by Williamson Murray** Williamson Murray,2025-07-22 A thoroughly documented study of the years of Hitler's

triumph which the author sees as anything but inevitable. He emphasizes Germany's economic difficulties, lack of raw materials and foreign exchange, and sees an objectively weak but strong-willed Germany challenge a strong but weak-willed West, with the British always relying on a worst case analysis of their military strength and a best case analysis of Hitler's intentions. An important study that in many ways returns to an earlier view that the West would have been in a better position to fight a war in 1938 than in 1939 that appeasement promoted what its proponents most feared: German aggression leading to protracted war. The author bolsters a familiar thesis with new evidence and great zeal. Foreign Affairs. Murray has mastered an impressive range of archival and published sources, advances a robust revisionist thesis. By a careful correlation of the economics of German rearmament with Hitler's foreign policy and strategy between 1933 and 1939, he makes a strong case that right up to the outbreak of war, Germany was much less thoroughly prepared for a major war than most of her contemporary opponents imagined or than most historians have realized. Since Hitler began a wholesale effort at rearmament from the moment he became Chancellor, although this rearmament programme was immense when compared to other European states, it was severely handicapped by Germany's heavy dependence on imported raw materials, insufficient foreign credit and shortage of skilled labour. The occupation of the Sudetenland brought few economic advantages, but the seizure of the remainder of Czechoslovakia in March 1939 yielded an enormous benefit in raw materials, industrial resources and immediately available guns, ammunition and tanks. A scholarly and powerfully argued study. In particular, all future students of the subject will have to grapple with Professor Murray's analysis of Germany's economic problems and military deficiencies. The English Historical Review. Williamson. Murray's book applies a reality test to the policies of the great powers in the late 1930s. The test rests on a simple assumption as irrefutable as it is commonly ignored: military power is the hard cold cash of international life. Hitler, as Murray puts it, more often than not made correct strategic decisions. Chamberlain and associates made the wrong choice on almost every strategic and diplomatic question that they faced. Catastrophe in 1940 was the result. A work that is rich in archival knowledge, sophisticated argument, the occasional subtle dig and an uncommon sense of the difficulties and ambiguities that face those who must decide. Murray's cogent presentation of the evidence and his uncompromising, uncomfortable conclusions are a devastating blow to the revisionist school on appeasement, an essential book for anyone who studies the interwar period or is seriously interested in either the interrelationship of policy and strategy or the nature of relations between states. The Journal of Modern History. Murray offers a masterful survey of the essentials which are background to decision making in Germany, England and France which produced both the war and the catastrophe for the West in the war's first year. This monograph is well researched, fully documented and well written. Political leaders, diplomats and military planners should have this book on their must-read list. An important work. The Historian. An excellent piece of historical research, a comprehensive, well-written and well-organized narrative of the key issues affecting the foreign policymaking process, it is to be recommended as a thorough introduction to the topic and an admirable attempt at historical
