

Service Academy Culture

Finding:

- Historically, sexual harassment has been inadequately addressed at both Academies. Harassment is the more prevalent and corrosive problem, creating an environment in which sexual assault is more likely to occur. Although progress has been made, hostile attitudes and inappropriate actions toward women, and the toleration of these by some cadets and midshipmen, continue to hinder the establishment of a safe and professional environment in which to prepare future military officers.

Brought Women* Kathleen Utey Kornahrens,2023-05-01 On June 28 1976 into the all male bastion of the United States Air Force Academy 157 women stepped challenging the slogan over the entrance ramp that read Bring Me Men These women inspired an upheaval of change in this tradition bound military school Their journey was one of survival in a male dominated environment where they struggled to find balance on a seesaw of ingrained gender discrimination and undesired special privileges This book tells the story of the first female cadets in the United States Air Force Academy and their fight to make a permanent place for themselves there Chapters explore their struggle to be accepted the difficulties of the training environment the camaraderie and conflict with men and the hardships and joys of those who marched in the ranks of that first co ed class *Gender Integration in NATO Military Forces* Lana Obradovic,2016-04-15 Numerous states have passed gender integration legislation permanently admitting women into their military forces As a result states have dramatically increased women s numbers and improved gender equality by removing a number of restrictions Yet despite changes and initiatives on both domestic and international levels to integrate gender perspectives into the military not all states have improved to the same extent Some have successfully promoted gender integration in the ranks by erasing all forms of discrimination but others continue to impede it by setting limitations on equal access to careers combat and ranks Why do states abandon their policies of exclusion and promote gender integration in a way that women s military participation becomes an integral part of military force By examining twenty four NATO member states this book argues that civilian policymakers and military leadership no longer surrender to parochial gendered division of the roles but rather support integration to meet the recruitment numbers due to military modernization professionalization and technological advancements Moreover it proposes that increased pressure by the United Nations to integrate gender into security and NATO seeking standardization and consistency on the international level and women s movements on the domestic level are contributing to greater gender integration in the military Winner of the 2015 ERGOMAS Best Book in Civil Military Relations Award *The United States Air Force Academy*
