Alexandrie Les Quartiers Royaux Submerges:

Alexandrie, les quartiers royaux submergés Franck Goddio, 1999 , Greek Gold from Hellenistic Egypt Michael Pfrommer, 2001 Although much is left to the imagination the basic facts do come to light and the facets and surfaces of the Getty's golden treasure enrich us with new understanding **BOOK JACKET** **The Nile Delta** Katherine Blouin, 2024-02-22 Tells fascinating stories from across the c 7000 year history of the Nile Delta from the Predynastic period to the twentieth century **Nile into Tiber: Egypt in the Roman World** Laurent Bricault, Miguel John Versluys, Paul G.P. Meyboom, 2006-12-01 Interest in all kinds of interactions between Egypt and Rome has grown considerably over the last decade This debate has not only altered our views on the impact of Rome on Alexandria and Egypt but also strongly put to the fore the reverse direction of this cultural interaction Egyptian influences on the Roman world It is this topic Egypt in the Roman World that was central to the IIIrd International Conference of Isis Studies held in Leiden in May 2005 This book a selection of the papers delivered at the conference gives a clear overview of the debate as it has developed in recent years In two parts I Interpretations of the meaning of Aegyptiaca Romana and II Understanding the cults of Isis in their local context preceded by a general introduction it offers a broad perspective on the various aspects of cultural interaction between Egypt and Rome also by bringing together different research traditions in this field **A Companion to Greco-Roman and Late Antique Egypt** Katelijne Vandorpe, 2019-06-05 An authoritative and multidisciplinary Companion to Egypt during the Greco Roman and Late Antique period With contributions from noted authorities in the field A Companion to Greco Roman and Late Antique Egypt offers a comprehensive resource that covers almost 1000 years of Egyptian history starting with the liberation of Egypt from Persian rule by Alexander the Great in 332 BC and ending in AD 642 when Arab rule started in the Nile country The Companion takes a largely sociological perspective and includes a section on life portraits at the end of each part The theme of identity in a multicultural environment and a chapter on the quality of life of Egypt's inhabitants clearly illustrate this objective The authors put the emphasis on the changes that occurred in the Greco Roman and Late Antique periods as illustrated by such topics as Traditional religious life challenged Governing a country with a past between tradition and innovation and Creative minds in theory and praxis This important resource Discusses how Egypt became part of a globalizing world in Hellenistic Roman and Byzantine times Explores notable innovations by the Ptolemies and Romans Puts the focus on the longue dur e development Offers a thematic and multidisciplinary approach to the subject bringing together scholars of different disciplines Contains life portraits in which various aspects and themes of people's daily life in Egypt are discussed Written for academics and students of the Greco Roman and Late Antique Egypt period this Companion offers a guide that is useful for students in the areas of Hellenistic Roman Byzantine and New Testament studies *Greek Culture in Hellenistic Egypt* Lucio Del Corso, Antonio Ricciardetto, 2024-11-04 This book investigates some aspects of the cultural consequences of the settlement of Greeks in Egypt during the Hellenistic period through a discussion of

papyrological material archaeological evidence and literary sources It is divided into three sections The first Space and Images reflects on the evolutions and changes in iconography spatial organization and landscape The second Ethnic Interactions offers new hints on the long debated topic of ethnicity relying on a wide range of Greek and Demotic sources The third The Literary Experience shifts the attention from documents to literature examining the circulation of Greek texts and books in Egypt from different perspectives Mixing case studies and overviews the volume offers an updated multifaceted representation of complex phenomena which can be understood only going beyond disciplinary boundaries Nile Into Tiber Laurent Bricault, Miguel John Versluys, Paul G. P. Meyboom, 2007 Egypt in the Roman world Studies on the meaning of Aegyptiaca Romana and the understanding of the cults of Isis in their local context **Triangular Landscapes** Katherine Blouin, 2014 Between the Roman annexation of Egypt and the Arab period the Nile Delta went from consisting of seven branches to two namely the current Rosetta and Damietta branches For historians this may look like a slow process but on a geomorphological scale it is a rather fast one How did it happen How did human action contribute to the phenomenon Why did it start around the Roman period And how did it impact on ancient Deltaic communities This volume reflects on these questions by focusing on a district of the north eastern Delta called the Mendesian Nome The Mendesian Nome is one of the very few Deltaic zones documented by a significant number of papyri To date this documentation has never been subject to a comprehensive study Yet it provides us with a wealth of information on the region's landscape administrative geography and agrarian economy Starting from these papyri and from all available evidence this volume investigates the complex networks of relationships between Mendesian environments socio economic dynamics and agro fiscal policies Ultimately it poses the question of the otherness of the Nile Delta within Egypt and more broadly the Roman Empire Section I sets the broader hydrological documentary and historical contexts from which the Roman period Mendesian evidence stem Section II is dedicated to the reconstruction of the Mendesian landscape while section III examines the strategies of diversification and the modes of valorization of marginal land attested in the nome Finally section IV analyses the socio environmental crisis that affected the nome in the second half of the second century AD *A Companion to Greek Religion* Daniel Ogden, 2010-02-01 This major addition to Blackwell's Companions to the Ancient World series covers all aspects of religion in the ancient Greek world from the archaic through the classical and into the Hellenistic period Written by a panel of international experts Focuses on religious life as it was experienced by Greek men and women at different times and in different places Features major sections on local religious systems sacred spaces and ritual and the divine **Harbors and Harbor Cities in the Eastern Mediterranean from Antiquity to the Byzantine Period** Sabine Ladstätter, Felix Pirson, Thomas Schmidts, 2014 Sections include History of Research and Perspectives New Research and Discoveries The Levant and Egypt New Research and Discoveries Turkey South Coast Turkey West Coast Turkey Marmara Sea Greece Harbour Installations and Building Techniques Economy and Politics Harbour Cities City Planning and Perception Geo Sciences and the Exploration of Ancient
