Alfred Gilbert's Aestheticism Jason Edwards, 2017-07-05 Alfred Gilbert's Aestheticism presents the first sustained re-evaluation of the life and work of one of the most acclaimed sculptors of the late Victorian period. Drawing on important new archival sources, this ground-breaking study challenges the customary assumption that Aestheticism was primarily a literary, painterly or architectural phenomena. Jason Edwards reveals both the diverse ways in which Gilbert's sculptures operated within the context of Aestheticism and also how these works provided a unique and provocative commentary on the history of masculine friendship and eroticism in the period leading up to and beyond the Wilde trials in 1895. Detailed readings are offered of the relationship of Gilbert's work to essays by Pater and Swinburne, poems, plays and novels by Wilde and W. S. Gilbert, and paintings by Burne Jones, Leighton, Rossetti, Solomon Whistler and Watts. With over 90 illustrations, including key contemporary photographs showing Gilbert's works in their original contexts, this book makes a major contribution to the field of Victorian sculpture studies.

Robson,2018-06-05 Fascination with little girls pervaded Victorian culture For many girls represented the true essence of childhood or bygone times of innocence but for middle class men especially writers the interest ran much deeper In Men in Wonderland Catherine Robson explores the ways in which various nineteenth century British male authors constructed girlhood and analyzes the nature of their investment in the figure of the girl In so doing she reveals the link between the idealization of little girls and a widespread fantasy of male development a myth suggesting that men become masculine only after an initial feminine stage lived out in the protective environment of the nursery Little girls argues Robson thus offer an adult male the best opportunity to reconnect with his own lost self Tracing the beginnings of this myth in the writings of Romantics Wordsworth and De Quincey Robson identifies the consolidation of this paradigm in numerous Victorian artifacts ranging from literary works by Dickens and Barrett Browning to paintings by Frith and Millais to reports of the Royal Commission on Children s Employment She analyzes Ruskin and Carroll s high noon of girl worship and investigates the destruction of the fantasy in the closing decades of the century when social concerns about the working girl sexualized the image of young females Men in Wonderland contributes to a growing interest in the nineteenth century s construction of childhood sexuality and masculinity and illuminates their complex interconnections with a startlingly different light Not only does it complicate the narratives of pedophilic desire that are generally used to explain figures like Ruskin and Carroll but it offers a new understanding of the Victorian era s obsession with loss its rampant sentimentality and its intense valorization of the little girl at the expense of mature femininity **The Colour of Sculpture, 1840-1910** Andreas Blühm, Van Gogh
