Weishaar,2012-10-26 The concepts and theories surrounding the aesthetic category of the grotesque are explored in this book by pursuing their employment in the films of American auteurs Tim Burton Terry Gilliam the Coen Brothers and David Lynch The author argues that interpreting these directors films through the lens of the grotesque allows us to situate both the auteurs and the films within a long history of the grotesque in art and aesthetics This cultural tradition effectively subsumes the contribution of any artist or genre that intersects it but also affords the artist or genre the auteur and the genre filmmaker a pantheon and an abundance of images themes and motifs through which he or she can subversively represent the world and our place in it **The Palgrave Handbook of Children's Film and Television** Casie

Hermansson,Janet Zepernick,2019-05-28 This volume explores film and television for children and youth While children's film and television vary in form and content from country to country their youth audience ranging from infants to screenagers is the defining feature of the genre and is written into the DNA of the medium itself This collection offers a contemporary analysis of film and television designed for this important audience with particular attention to new directions evident in the late twentieth and early twenty first centuries With examples drawn from Iran China Korea India Israel Eastern Europe the Philippines and France as well as from the United States and the United Kingdom contributors address a variety of issues ranging from content to production distribution marketing and the use of film both as object and medium in education

Through a diverse consideration of media for young infants up to young adults this volume reveals the newest trends in children's film and television and its role as both a source of entertainment and pedagogy Translation and Adaptation in Theatre and Film Katja Krebs,2013-08-15 This book provides a pioneering and provocative exploration of the rich synergies between adaptation studies and translation studies and is the first genuine attempt to discuss the rather loose usage of the concepts of translation and adaptation in terms of theatre and film At the heart of this collection is the proposition that translation studies and adaptation studies have much to offer each other in practical and theoretical terms and can no longer exist independently from one another As a result it generates productive ideas within the contact zone between these two fields of study both through new theoretical paradigms and detailed case studies Such closely intertwined areas as translation and adaptation need to encounter each other's methodologies and perspectives in order to develop ever more rigorous approaches to the study of adaptation and translation phenomena challenging current assumptions and prejudices in terms of both The book includes contributions as diverse yet interrelated as Bakhtin's notion of translation and adaptation Bollywood adaptations of Shakespeare's Othello and an analysis of performance practice itself arguably an adaptive practice which uses a variety of languages from English and Greek to British and International Sign Language As translation and adaptation practices are an integral part of global cultural and political activities and agendas it is ever more important to study such occurrences of rewriting and reshaping By exploring and investigating interdisciplinary and cross cultural perspectives and approaches this volume investigates the impact such occurrences of rewriting have on the constructions

and experiences of cultures while at the same time developing a rigorous methodological framework which will form the basis of future scholarship on performance and film translation and adaptation

The Future of the Nineteenth-Century Dream-Child Amy Billone, 2016-06-10 This book investigates the reappearance of the 19th century dream child from the Golden Age of Children's Literature both in the Harry Potter series and in other works that have reached unprecedented levels of popular success today Discussing Harry Potter as a reincarnation of Lewis Carroll's Alice and J M Barrie's Peter Pan Billone goes on to examine the recent resurrection of Alice in Tim Burton's Alice and of Peter Pan in Michael Jackson and in James Bond Visiting trends that have emerged since the Harry Potter series ended the book studies revisions of the dream child in texts and films that have inspired mass fandom in the twenty first century Stephenie Meyer's Twilight E L James's 50 Shades of Grey and Suzanne Collins's The Hunger Games The volume argues that the 21st century desire to achieve dream states in relationship to eternal youth results from the way that dreams provide a means of realizing the fantastic yet alarming possibility of escaping from time This current identification with the dream child stems from the threat of political unrest and economic and environmental collapse as well as from the simultaneous technophilia and technophobia of a culture immersed in the breathless revolution of the digital age This book not only explores how the dream child from the past has returned to reflect misgivings about imagined dystopian futures but also reveals how the rebirth of the dream child opens up possibilities for new narratives where happy endings remain viable against all odds It will appeal to scholars in a wide variety of fields including Childhood Studies Children's YA Literature Cinema Studies Cultural Studies Cyberculture Gender Studies Queer Studies Gothic Studies New Media and Popular Culture

*Children's Film in the Digital Age* Karin Beeler, Stan Beeler, 2014-11-19 Films of the past 15 years have been released in a number of formats and reflect a reconceptualization of film genres audiences and the impact of technology on adaptation Focusing on multiple audiences film adaptation nationalism globalism and consumer culture this collection of new essays explores how children's film can be re-examined alongside recent developments in their production These analyses consider the effect of multimedia strategies on the child audience the opportunities for viewer participation and the pedagogical implications of films for children The essays also address how childhood is embedded within films and linked to various consumer contexts

**Make-Believe Heroes** Douglas E. Cowan, 2019-01-29 Magic Monsters and Make Believe Heroes looks at fantasy film television and participative culture as evidence of our ongoing need for a mythic vision for stories larger than ourselves into which we write ourselves and through which we can become the heroes of our own story Why do we tell and retell the same stories over and over when we know they can't possibly be true Contrary to popular belief it's not because pop culture has run out of good ideas Rather it is precisely because these stories are so fantastic some resonating so deeply that we elevate them to the status of religion Illuminating everything from Buffy the Vampire Slayer to Dungeons and Dragons and from Drunken Master to Mad Max Douglas E Cowan offers a modern manifesto for why and how mythology remains a vital force today **The Philosophy of Tim Burton** Jennifer L. McMahon, 2014-03-19 In 1952 just one year after Coach Adolph Rupp's University of Kentucky Wildcats won their third national championship in four years an unlikely high school basketball team from rural Graves County Kentucky stole the spotlight and the media's attention Inspired by young coach Jack Story and by the Harlem Globetrotters the Cuba Cubs grabbed headlines when they rose from relative obscurity to defeat the big city favorite and win the state championship A classic underdog tale The Graves County Boys chronicles how five boys from a tiny high school in southwestern Kentucky captured the hearts of basketball fans nationwide Marianne Walker weaves together details about the players their coach and their relationships in a page turning account of triumph over adversity This inspiring David and Goliath story takes the reader on a journey from the team's heartbreaking defeat in the 1951 state championship to their triumphant victory over Louisville Manual the next year More than just a basketball narrative the book explores a period in American life when indoor plumbing and electricity were still luxuries in some areas of the country and when hardship was a way of life With no funded school programs or bus system the Cubs's success was a testament to the sacrifices of family and neighbors who believed in their team Featuring new photographs a foreword by University of Kentucky coach Joe B Hall and a new epilogue detailing where the players are now The Graves County Boys is an unforgettable story of how a community pulled together to make a dream come true **Disney A to Z: The Official**
