Hawkeswood,2013 Trevor J Hawkeswood is a scientist who has experienced hundreds of paranormal events in his lifetime In *Light and Dark* he recounts some of these incredible interactions He believes that reality occurs on two separate but interwoven planes of existence the Earth plane and the multiple levels of the spiritual planes including the lower levels from where the dark souls of humans who have died reach out to us He has experienced more than one hundred sightings of the shadow people or black ghosts He credits guardian angels with saving him from harm or certain death on a number of occasions Hawkeswood also shares accounts of his numerous sightings of strange aerial phenomena he believes were caused by UFOs He has personally experienced clairaudience voices from beyond and precognition or the ability to see the future His detailed account of a unique out of body experience OOBEE challenges what is known about this remarkable ability His OOBEE was unlike anything that has ever been described by others who have experienced it and he shares it all in *Light and Dark* But it hasn't all been safe or pleasant At eighteen he survived a terrifying encounter with a demon gargoyle who tried to steal his soul energy after paralyzing him A comprehensive handbook for the paranormal enthusiast Hawkeswood's work also provides a glossary and reference list of English language UFO books In *Light and Dark* he shares a lifetime of experiences ideas and theories about this fascinating field of study *The Myth and Mystery of UFOs* Thomas E. Bullard,2016-10-17 When United Airlines workers reported a UFO at O'Hare Airport in November 2006 it was met with the typical denials and hush up that usually accompany such sightings But when a related story broke the record for hits at the Chicago Tribune's website it was clear that such unexplained objects continued to occupy the minds of fascinated readers Why wonders Thomas Bullard don't such persistent sightings command more urgent attention from scientists scholars and mainstream journalists The answer in part lies in Bullard's wide ranging magisterial survey of the mysterious frustrating and ever evolving phenomenon that refuses to go away and our collective efforts to understand it In his trailblazing book Bullard views those efforts through the lens of mythmaking discovering what UFO accounts tell us about ourselves our beliefs and the possibility of visitors from beyond Bullard shows how ongoing grassroots interest in UFOs stems both from actual personal experiences and from a cultural mythology that defines such encounters as somehow alien and how it views relentless official denial as a part of conspiracy to

hide the truth He also describes how UFOs have catalyzed the evolution of a new but highly fractured belief system that borrows heavily from the human past and mythic themes and which UFO witnesses and researchers use to make sense of such phenomena and our place in the cosmos Bullard s book takes in the whole spectrum of speculations on alien visitations and abductions magically advanced technologies governmental conspiracies varieties of religious salvation apocalyptic fears and other paranormal experiences Along the way Bullard investigates how UFOs have inspired books movies and television series blurred the boundaries between science science fiction and religion and crowded the Internet with websites and discussion groups From the patches of this crazy quilt he posits evidence that a genuine phenomenon seems to exist outside the myth Enormously erudite and endlessly engaging Bullard s study is a sky watcher s guide to the studies stories and debates that this elusive subject has inspired It shows that despite all the competing interests and errors clouding the subject there is substance beneath the clutter a genuinely mysterious phenomenon that deserves attention as more than a myth
